

Books On Handwriting Analysis

Explains how to use handwriting analysis to interpret people's character traits, personalities, and backgrounds, and examines the handwriting of such dangerous individuals as Ted Bundy, Jack the Ripper, and Osama bin Laden. Learn the many ways handwriting can reveal personality traits in this comprehensive introduction to graphology. In Handwriting Analysis, graphology expert Karen Kristin Amend offers a fresh approach to the principles of graphology. Covering all aspects of handwriting, from size and spacing to pace and form quality, this book is designed to help readers learn the skills of whole-person profiling. Amend demonstrates how to determine various personality traits ranging from mood to moral character, self-confidence, and emotional needs. She also shows how to detect emotional disturbance or mental illness. With new material for understanding the significance of the writing rhythm, this volume also provides handwriting samples of famous people. This introduction is a guide to psychology and human behavior through handwriting analysis. Includes a brief history of handwriting analysis, basic psychological principles revealed in handwriting; and the emotional intensity of pressure and slant. The ABCs of Handwriting Analysis is an indispensable tool for anyone hoping to peer behind the letters on a page—professionals responsible for hiring and managing other employees, and hobbyists looking to uncover the truths we reveal through our writing. It demonstrates proven techniques for deconstructing hand-lettering—to determine an individual's inner workings—revealing mental aptitudes and emotional characteristics, odd or unusual personality traits, sense of humor, sexual motivation, and many other qualities—all through the critical analysis of the slant, pressure, size, and shape of one's scripted letters. Claude Santoy's step-by-step instruction on the most practical and up-to-date methods of handwriting evaluation includes psychological interpretation of drawings and doodles, methods of determining mental health from handwriting, workbook examples to help readers master the system, and a helpful glossary of terminology. Packed with useful information, The ABCs of Handwriting Analysis is the ultimate guide for anyone interested in uncovering the secrets hidden within handwriting.

Practical Guide to Handwriting Analysis

Secrets of Love, Sex, & Relationships

Handwriting analysis, or graphology, is the science involved in producing a personality profile of the writer by examining the characteristics, traits and strokes of an individual's handwriting. It seems impossible, but a trained graphologist can gather an astonishing amount of information about the writer just from analyzing their handwriting. Besides creating a complete personality profile, many other things are revealed in your handwriting, such as health issues, morality, past experiences, hidden talents, mental problems - to name just a few. This plain and simple title explains what handwriting analysis is and why it works. The author gives a brief history of the art then delves into every aspect of writing, including: The way the writing moves across the page The meaning of the pen, pencil, and ink chosen The slope of the script and the amount of space between words The size and shape of the individual letters and signatures The meaning of writing styles in headed paper, logos, and shop signs

Way back in 1999, I felt magnetically drawn towards a book on "Handwriting Analysis". This accidental encounter with graphology changed my life. All my negative traits and habits that held me back, were in front of me. It was my moment of awakening. Its time you find yours! Do you feel stuck in life? Have difficulty in setting and achieving goals? Or drop projects midway? Sometimes, we find ourselves stuck in life due to our inability to recognise our shortcomings. Even if we do recognise them, we find it difficult to improve. Handwriting Analysis is a secret key to our subconscious mind. It brings forth our shortcoming, pocket patterns and unrewarding habits that we may have developed over time. Take a leap towards your dreams, and reach your highest potential. Use this book as a tool for Self-Discovery, Self-Awareness and Self-Realisation. This book is designed as a simple tool to help you unravel yourself. By using it, you can learn about your self-esteem and how you project yourself in the outside world. It helps you discover your strengths and weaknesses. It presents before you a life changing tool-kit by which you can change yourself and decide on the traits you wish to develop to succeed in your chosen field. Learn, unlearn and improve your professional as well as personal lives by understanding your handwriting and signature. This book also helps you understand people and unfurl their hidden mental traits, motives and feelings.

Self Discovery by Handwriting Analysis

If you have ever wondered what the squiggles and strokes in a line of ink say about personality, or if you are a handwriting professional who learned the "trait-stroke" method, Reading Between the Lines, Decoding Handwriting, will introduce you to a new way to look at handwriting and understand personality. The gestalt method versus trait-stroke is the difference between viewing an object under a microscope that offers a very small field of vision, and a telescope that shows the bigger picture. One is not better than the other, they simply appeal to different thinking styles. Trait-stroke analysts are more comfortable with an atomistic step-by-step approach, building up a picture of personality one stroke at a time. Gestaltists are more conceptual thinkers who look at space, form, and movement, learning to recognize the whole personality at a glance.

In Signature for Success, Imberman shares analysis techniques for readers to gain better insight into themselves, co-workers, and their family and thus create, improve, and understand their relationships. This useful volume even includes handwriting samples and analysis of the famous, infamous, and everyday people.

A portrait of Benjamin Franklin's youngest sister, Jane, reveals how she was, like her brother, a passionate reader, gifted writer, and shrewd political commentator who made insightful observations about early America.

Handwriting Analysis 101: Identifying Personality, Sex & Lies through Handwriting Are You Ready To Learn How To Read Into The Detail Of Handwriting? If So You've Come To The Right Place... In the 1930's, handwriting analysis finally gained visibility in the United States.

A penmanship instructor noticed that despite the consistency of his method of instruction and teaching his students in groups, their handwriting always had a certain individuality – their strokes bore their "mark," as he put it. He made detailed observations, made use of existing knowledge, and eventually made significant contributions to the science in addition to increasing its popularity in the US. Between the Lines

The Only Book You'll Ever Need

Read and follow the procedures in this book and you will come away with the ability to take any sample of handwriting and do a complete analysis of character and personality. You may even go forward to use the skill as a professional tool, or as the basis for a profession. This self-teaching textbook teaches how to analyze handwriting, how to counsel others, and how best to use the subject once learned.

The author, Treyce Montoya, has combined over 30 years of knowledge and skill into this 579-page book. Instead of giving you the information and letting you figure out how to do it on your own, she walks you through an entire analysis (personality profile

A self-teaching guide with tests and reviews that shows readers the ins and outs of handwriting analysis.

In this book, Handwriting Analysis - Discover Your Own Vocational/Career Potential offers a new perspective not found in conventional books on Graphology. Mr. DeWitt links handwriting analysis with professional satisfaction and instructs you in the analysis of your own handwriting. It is not uncommon for individuals to labor a lifetime in an occupation that they truly dislike or to which they are, at best, indifferent. Or they might move from job to job multiple times, desperately seeking a 'career' that is edifying. Moreover, young people just entering a sparse job market might find that they have little idea of occupations that could be personally and professionally rewarding to them. The ancient Chinese philosopher, Confucius, once stated "Find a job you love and you'll never work a day in your life".... Through this book, David DeWitt seeks to affirm this timeless advice. This book will help direct you to determine your own career potential in order that you may make the best career choice fit your personality.

Graphology Explained

The Write Stuff!

This is the ideal book for anyone interested in graphology and who wants to do more than just read about it. Not only does it include practical explanations with clear illustrations, it also comes with - a Character Sketch template, with instructions to enable you to create your own professional looking quick character sketches from any writing you may see. - It also gives you tips on the best way to collect handwriting samples - Instructions on how to throw a Handwriting Party - and a Handy Reference Guide to save you time as you learn the skills. All in all It is a very comprehensive package ready and able to equip you to try out your new skills as an amateur graphologist. You'll be amazed at how much you can find out about people just by looking at their writing.

It's all there in black and white The most popular book on this amazing discipline, this volume shows readers how to analyze almost any handwriting sample and understand the special characteristics of the writer's personality. Drawing upon 30 years of experience as a professional graphologist, Sheila Lowe clearly explains what every squiggle and dot says about a person. From Kurt Cobain and Jimmy Smits to Ronald Reagan and Bill Clinton, this new edition is filled with hundreds of real examples of handwriting to illustrate how handwriting indicates a person's most basic and intimate traits. --Hundreds of new handwriting examples --Up-to-the-minute information about graphology computer programs --Fascinating anecdotes about graphology's role in criminal justice

Briefly describes the development of handwriting analysis, discusses zone, baseline, slant, spacing, margins, and stroke, and explains what writing reveals about self-image

When we purposefully change our handwriting, we introduce attitudes that can improve our relationships, give us the impetus to achieve and take risks, and simply bring out the best in us. This is because our handwriting is a reflection of our innermost thoughts and feelings. When we fall in love, survive a serious illness, or change careers, our view of life is dramatically altered and, as a result, our handwriting patterns change. Conversely, desired transformations can result from intentionally changing the way specific letters are written: * Stick to that diet by changing the letter T. * Avoid being overlooked for that well-deserved promotion by changing the letter G. * Reduce stress and cease juggling too many things at once by changing the letter S. * Overcome shyness or stage fright by changing the letter A. Included is an enlightening assessment test that identifies those personality traits requiring attention. Your Handwriting Can Change Your Life profoundly reveals that the key to making dreams come true is as simple as putting pen to paper.

Understanding Yourself and Others Through Handwriting Analysis

"The Definitive Book of Handwriting Analysis is a must for all serious students of graphology." —Iris Hatfield, Professional Graphologist, HuVista International
The complete guide to graphology from the winner of Flandrin-Michon AHAF President's Lifetime Achievement Award by the American Handwritng Analysis Foundation
The ability to write of self-expression, handwriting reflects a person's thoughts about the self and reveals aspects of a person's personality. Written in a step-by-step fashion, The Definitive Book of Handwriting Analysis begins with the history of the field and then teaches you how to analyze any handwriting, starting with objective criteria, including variables and features. Then you learn how to combine these variables to create a full personality profile. There are more than 100 handwriting samples, including those from Paul Newman, Bill Clinton, Marlon Brando, Donald Trump, Sigmund and Anna Freud, Thomas Edison, Osama bin Laden, Jacqueline Kennedy, Bruce Springsteen, Benito Mussolini, Napoleon, and Charles Darwin. Part II discusses how handwriting is organized by the brain and includes many examples of the link between handwriting and various illnesses and brain disorders, from dyslexia and epilepsy to stroke and coma. It ends with a discussion of the link between different personality types, their brain organization, and their habits and documents, including such topics as free-hand forgeries, tracing, disguised handwriting, and anonymous notes. It features an in-depth discussion of how forgeries are created and how they are detected. If you are interested in any aspect of this topic, The Definitive Book of Handwriting Analysis is definitely the book you need! This all-in-one handwriting analysis kit includes a how-to-book, notepad, ruler, protractor, magnifying glass an International Graphoanalysis Society certified Emotional Responsiveness Gauge. Handwriting analysis has been submitted as evidence in court cases, studied to understand heroes from the past and investigated by the police to track criminals. The book analyzes the handwriting of the most interesting and controversial people in history from Einstein and Madonna to Clinton and Starr.

Identifies the various characteristics of people's handwriting that can reveal character and personality and explains, with illustrations, the professional analyst's methods of analyzing a subject's handwriting

As unique as a fingerprint, our handwriting is a reflection of our inner selves, revealing everything from our talents and personal tastes to insecurities, desires, and psychological attitudes. Reed Hayes shows how the practical art of graphology (or handwriting analysis) can provide insight into the qualities of your own personality as well as those of others. It offers an awareness of graphology that not only enhances our understanding of ourselves, but also sheds light on our business, social, and romantic relationships. Confessions of a Shopaholic

Find out more about a person's character than words can say! Every slant, every squiggle, every gap between letters has meaning, often revealing whether the person is aggressive or dreamy, greedy or generous, artistic or materialistic, talkative or reserved. With a range of handwriting samples to look at, learn the secrets to "decoding" their traits and answering important questions about the person behind the script: * What does it mean when a person makes notes in the margin? * Is it significant when someone leaves wide spaces between words? * How can you tell if the writer feels positive about the future...or pessimistic? * Does every small writing say something about self-confidence? Plus; Find the personality clues in the way an envelope is addressed, the color of the ink, the type of paper chosen, the slant of the letters, and much more! 512 pages, 4 3/16 x 5 1/4.

Learn to interpret the messages in your handwriting and open to a new dimension in self-understanding, with The Truth About Graphology by Ruth Gardner. Your handwriting consists of unusual configurations that can be decoded. The Truth About Graphology explains how to translate these tell-tale signs for accurate information about anyone's personality. You can determine the physical condition of your Uncle Bill by examining his baseline slants. Or measure your child's vitality by the pressure she uses. Will you work well with that new employee? Look at her letter spacing. Distinguish a moody person from one with an even temper?From their handwriting alone. With The Truth About Graphology you'll: - Learn instant handwriting analysis in less than two hours -Recognize the personal traits revealed in your handwriting -Awaken to personality characteristics you previously ignored -Recognize areas of budding potential -Gain keen insight into others' actions -Design a signature that reflects your self-image -Practice your handwriting analysis skill at work and social events -Uncover hidden personality traits -Use the tell-tale signs in anyone's handwriting for an accurate assessment of their character -Learn to use graphology for professional gain and entertainment The Truth About Graphology is filled with illustrations that will finally make handwriting analysis easy for you to learn and practice. You'll learn, through examples and clear explanations, the meanings of the different letter slants, zones, spacing, loops and more. Once you learn handwriting analysis, people will be asking you to tell them about themselves: what are their hidden potentials, abilities, and even fears? Here is a system that requires nothing more than a piece of paper and a pen, a technique that can be done anywhere. To find out more you must get **The Truth About Graphology.**

Handwriting Analysis: Laws/Principles... And More is Mr. Cammarata's presentation of handwriting's inherent scientific base from which handwriting is analyzed. Like any other scientific study, handwriting is based upon inescapable laws/elements/principles which are exhibited each time a person writes. These form the stable rock of its foundation. Part of that rock is the only two possible movements when writing. These movements are stated with instant proof. No different than any other science, handwriting's silent but dynamic portrayal of personality is a wonderment of human analytical and historical development. Handwriting is actually brain writing. By assessing the permanent inescapable elements, a personality can be traced just like the infamous duck tracks. Besides describing the elements/principles/laws, original concepts of handwriting will be presented. A 20-year study to determine the very necessary average standard size for writing is given with statistics and insight into the power of handwriting. A presentation is made implying handwriting's reality source base. Further, the generally accepted copybook "standard" writing size is challenged with various arguments. The process of personnel selection (before hiring) is also presented and much to the employer's advantage. It's the personality that DOES the job, not experience nor education. Yes, the latter help but they do NOT DO the job. Only the inherent qualities matched to the job description can produce a known performance level prior to hiring. This book is an inspiration to the understanding of handwriting's foundation scientific base and why handwriting analysis is real and works. Forget about what you may have learned or heard of previously. This book gives you the truth about handwriting. You'll be surprised and totally engaged in this most fascinating true presentation. Does your handwriting actually change? The answer is in this book. Is handwriting analysis good for evaluating a mate? Absolutely... before the ring. Those and much more in this most forthright scientifically based presentation. Welcome.

The monographs in this volume are the result of a study and practice in the field of handwriting analysis that began in 1967 and continues through today. Their author, Sheila Lowe, earned a Masters in psychology, is a court-qualified forensic handwriting expert, and has taught in the extension programs at UC Riverside and UC Santa Barbara (her curriculum vitae is included in an appendix). She also writes a mystery series featuring fictional handwriting expert Claudia Rose and LAPD homicide detective Joel Jovanic. Topics covered: - Childhood sexual abuse seen in the handwriting of adults- The addictive personality and its handwriting-

The Lower Zone and the Subconscious- Motivations and handwriting - what makes you tick?- Finding personality traits in handwriting with the gestalt method

The Only Handwriting Analysis Book You Will Ever Need

Is it possible to know all about someone, just by looking at their handwriting? Imagine you could ask anyone to write down two simple words yet you could start telling them 'what they're like' from their handwriting almost immediately - even complete strangers! You must admit that would be cool. How could you know so much with so little information? Well with the graphology system outlined here. In just a few days, you can be giving interesting yet fun handwriting readings in no time at all - Here are some points to consider. * Can be learned over a weekend * Requires only two words to be written down * Can be done for two or more people at the same time * A great ice-breaker or conversation starter * Once you've learned it, it's almost impossible to forget Oh - and did we mention almost forgot - not only do you get the book packed with examples, exercises and top-tips to make learning graphology as painless as possible, you also get the 13 part audiobook thrown in as well FLASH CARD\$! With the book and audiobook you also get a set of 10 flash cards! Print them off onto index cards and stick them in your back pocket so you can have an instant 'refresher' moment whenever you need for last minutes nerves - a quick look at your flash cards and you can top-up your new found knowledge in a jiffy. Powerful stuff Seriously, knowing this information is powerful - everyone is interested in themselves, and by using the fun techniques in this unique book you'll find that sometimes you simply haven't got the time to check out everybody's handwriting! REVIEWS "I really enjoy hearing what you say about handwriting and I've been recommending your book for a while. I've heard that you're a professional and I'm glad to hear that because you're really good at what you do. I've tried learning enough about graphology before to use as an adjunct to my mentalism performances but it never stuck. And I quickly became bored. With Julian's system once the info is in your head, it's whole process just Julian has set this up in a way that you get constant reinforcement for your efforts and just want to keep going." - Bill Cushman "I have finished Julian's book on Graphology and highly recommend it. Julian has condensed a large amount of information on graphology into an easily memorized system and provided a presentation that is short, sweet, and can be done on the back of a hand. I am getting my information as I am doing the reading, and Julian's system is perfectly suited for this. In fact, it is so simple to explain that your subject will likely go away believing they have learned something valuable even in the unlikely event that most of your reading doesn't hit the mark - so you really cannot lose. Anyone that is interested in Graphology should definitely pick up this book. As a professional graphologist, I've perused Julian's manuscript, and can attest that it is exactly as described. He's taken some of the real "meat" of the subject and found a way to explain it clearly and simply - AND to do it in a wicked clever mnemonic sort of structure that makes it quite easy to remember. (And, therefore, easy to explain to others.) He's done a lot of hard mental work so that you won't have to do it. I - Brane OTHER KINDLE BOOKS IN THE SPEED LEARNING SERIES BY JULIAN MOORE Speed Learning: Graphology - The Art Of Handwriting Analysis Speed Learning: Cartomancy - A Playing Card Reading Primer Speed Learning: Palmistry - Palm Readings in Your Own Words Speed Learning: Numerology - Numbers Past And Present With The Lo-Shu Square Speed Learning: Star Signs

This book presents graphology, the science of handwriting analysis, in a simple and easy-to-follow style. It helps reveal one's character, emotions, intellect, creativity, self-awareness and physical aptitude. With the help of this book, you can discover your own personality and behaviour traits, as well as those of your mate, lover, friends, co-workers and even strangers!

*Forensic document examination is the study of physical evidence and physical evidence cannot lie. Only its interpretation can err. Only the failure to find it, or to hear its true testimony can deprive it of its value.—Roy Huber This is a comprehensive update of Huber and Headrick's seminal work on handwriting examination. New coverage includes a review of forensic handwriting examination research and proficiency, revised methods and procedures, an updated listing and clarification of terminology and electronic signatures, the analysis of digitized handwriting, and other related technological advances. The book includes updated photographs, several added illustrations, and advances in techniques based on the scientific research conducted in the area over the last 20 years. Features of the electronic signatures, digital handwriting, automated handwriting verification, and the many advances in technology and research over the last two decades An overview of the fundamentals of handwriting examination with updated discussion of the intrinsic and extrinsic variables associated with handwriting identification A review of the criticism of handwriting expert opinions and methodology scientific limitations of the area Fully revised while remaining true to the spirit and approach of original authors Roy Huber and A. M. Headrick Addition of nearly 200 new references and new glossary terms representing advances in research and methods. With extensive photographs to help clearly illustrate concepts, Huber and Headrick's Handwriting Identification: Facts and Fundamentals, Second Edition is an essential reference to law libraries, practicing document examiners, forensic and criminal justice students, and every lawyer handling cases in which the authenticity of handwriting and documents might be disputed.

Everything put down on paper creates a unique image that can be traced, analyzed and reconstructed, revealing evidence unseen by the naked eye. FBI labs specialize in the study of handwriting, typewriting, rubber stamps, seals, printing methods, obliterations, alterations and charred paper. This manual reveals the methods used to follow the elusive paper trail, drawing on FBI case files. The Complete Basic Book

Explains how to use handwriting analysis to understand character, personal values, love issues, and career ambitions

A collection of papers by practicing graphologists as well as critics from many fields, providing a balanced evaluation of claims that personality, aptitude, and psychological and physical health can be determined through handwriting analysis. Paper edition (unseen), \$21.95. Annotation copyright by Book News, Inc., Portland, OR.

If you find yourself called on to judge people on a regular basis, you need all the tools at your disposal to do your job right. Handwriting Psychology offers one practical method for helping you learn what you need to learn about your subject quickly. Whether you are a teacher, psychologist or manager, you can benefit from the guidance of Dr. Helmut Ploog, a handwriting expert. Learn what the size and width of handwriting can reveal about a person, as well as what more muted features—such as slant, spacing, and direction of lines—can make clear. Written in plain English, this guidebook presents pitily explanations of handwriting movements, which may be angular or round, long or short, heavy or light, high or deep below the base line. It also offers analyses of the handwriting of many well-known people, including Charles Darwin, Anne Frank, Paul Getty, Allen Ginsberg, Ernest Hemingway, Frida Kahlo, Somerset Maugham, Pablo Picasso, Pope Benedict, Vladimir Putin, Maurice Ravel, Carl Rogers, and Susan Sontag. Handwriting Psychology should never be used by itself to judge someone, but it can serve as an essential tool to make and confirm observations that could change your life, your career, and your approach to life.
