King Ahab. Daniel faced the lions; and the James and John forsook their nets. Matthew left his customs booth. And Paul left a life of power and prestige. Despite their trials, these all found the venture satisfying. Paul's account of shipwreck, floggings, danger, and hardship glows with suffused excitement. He was having the time of his life! What if he'd said no to Christ? Telling the Philippians about the things he had given up, Paul declared, "I consider them rubbish." And why? "That I may gain Christ and be found in him" Philippians 3:8-9. We enjoy the same perspective, for through His Cross; Jesus opened not only the door of salvation for all who would accept, but the privilege of service as well. Jew, Greek, barbarian, Scythian, slave, free...all may serve the Lord Christ. Some were apostles. Some, prophets. Some will be evangelists, some pastors and teachers. All are "for the equipping of the saints, for the work of service, to the building up of the Body of Christ, until we all attain to the unity of the faith and of the knowledge of the Son of God, to a

mature man, to the measure of the stature which belongs to the fullness of Christ" Ephesians 4:12-13. For the Minister of the Gospel, each day offers a new challenge. The phone rings; we are summoned to the bedside of a dying man. Later in the day, we help arrange a marriage. That evening, we counsel a soul in trouble. No other vocation offers such a wide span of involvement with mankind. Then when we stand to preach, think of it...in our weak and human hands we hold the truth of God, the supreme answer to the souls of man. The ministry of Christ is not a job, not a profession. It is a calling, and the noblest...the most demanding and at times exasperating, but it is surely the most satisfying and rewarding experience human life affords. With Paul, we can truly say, "I thank Christ Jesus our Lord, who has strengthened me, because He considered me faithful, putting me into service" 1Timothy 1:12. Like the Christian life, the ministry of Christ is a relationship between the disciple and his lord. We serve Him; He develops and strengthens us. We must prepare ourselves first, then our

sermons. The very fact that we are ministers will work against our spiritual life unless we are careful. We study the Bible, but for a text; we pray, but in front of a group or beside a hospital bed. While attending to these public ministries, our personal devotions may be neglected. Power in preaching comes in direct proportion to time spent in prayer and in the Word. Nothing...not speaking ability nor a forceful personality nor a persuasive manner...can take the place of the Spirit of God, filling and shaping and using the life committed to Him. Are we adequate to the task? Never. We have this treasure in jars of clay, but God accepts and uses our service nonetheless. Paul finally learned to accept his weakness, so "that the power of Christ may dwell in me" 2Corinthians 12:9. If the truth were known, few of us pray enough. We tend to rely too much upon our cleverness in programming and promotion, but not enough upon the power of God through prayer. Sadly, our churches show it. A definite time and place, preferably early in the morning, where one can shut out the world and

feed upon the Word, unburden his heart, and commune with the Father will set the tone for the day and for a lifetime. The minister who keeps his appointment with God need have no anxiety about his work. In his daily walk, he will experience the unfolding hand of God bringing new power and effectiveness. He will see his life lifted to a new level he never dreamed possible, a level he could never have attained by himself. Pressed by the crowds, with such a short time to complete His task, Jesus still found time to pray. So must we.

Serving on a nonprofit board can be an incredibly rewarding experience for the properly prepared board member. This book is for the generous and busy people who agree to give of their time and talents by serving on nonprofit boards. Nonprofit boards often fail to do a good job of board member orientation for a variety of reasons. It takes a significant amount of time and effort to plan and conduct quality board member orientation programs, and every time a new board member arrives, it's time to do it again! Because of the challenges associated with providing quality board member orientation, many nonprofit organizations do not do it at all, leaving their board members to wing it. This book provides help and support to the truly great men and women serving on nonprofit boards whose service makes a positive difference in the lives of countless people every day. This book is a concise and appropriately comprehensive guide to nonprofit board service designed especially for new board members. It is a quick read, (about one hour), yet it addresses with accuracy the most significant elements of board service, such as mission, responsibility, duty, risk, liability, and board meeting dynamics. Hooey Alerts! Watch for Hooey Alerts! where the author identifies and dispels common myths and legends about

nonprofit board service. There are many sources of false or misleading information about the nonprofit board service environment. A perfect example is the often vaguely-worded and intimidating assertion or implication that the Sarbanes-Oxley Act passed by Congress in 2002 applies to nonprofit organizations in a manner similar to how it applies to publicly-traded companies. (It does not.) Reviews "This book is the perfect guide for every nonprofit board member! Concise, highly informative, and loaded with nuggets of wisdom, it's a must read that will take board members to the next level of successful board governance." -- J. Todd Chasteen, General Counsel, Samaritan's Purse "Mike Batts has put his quarter century of advising and serving on nonprofit boards to good use in this accurate and easy-to-read book. In addition to describing major principles of nonprofit law and governance, the book provides helpful questions to guide board members in understanding the practical applications of the concepts discussed. While geared primarily toward helping new board members get up to speed quickly, it should also help veteran board members discharge their stewardship roles wisely and efficiently." -- Chuck Hartman, Associate Professor of Business Law and Accounting, Cedarville University "This book, Board Member Orientation, is exactly what a busy volunteer board member needs. The board member's duties

are presented in a clear and concise manner from the perspective of someone who has been around many boards. With a focus on those issues that are most common and/or most important, it is perfect for board member orientation and for quick reference reminders for the experienced board member." -- Doug Starcher, Partner, Broad & Cassel "This book provides clear, no-nonsense guidance on the basic issues for new nonprofit board members. Using this book for board member orientation will ensure your organization has communicated fundamental governance issues and will assist the board in determining risk management strategies." -- Dan Busby, President, ECFA

****** The Simple Board Member Orientation Process Using This Book: 1.Your board members read Chapters 1-9 of the book, which will provide them with insights regarding the key elements of nonprofit board service. 2.You provide the board members with copies of the documents described in Chapter 10 related to your organization. 3.You meet with your board members to discuss the unique attributes of your organization following the discussion questions provided in Chapter 10. Pressure vessels are closed containers designed to hold gases or liquids at a pressure substantially different from the ambient pressure. They have a variety of applications in industry, including in oil refineries, nuclear reactors, vehicle airbrake reservoirs, and more. The pressure differential with such vessels is dangerous, and due to the risk of accident and fatality around their use, the design, manufacture, operation and inspection of pressure vessels is regulated by engineering authorities and guided by legal codes and standards.

Pressure Vessel Design Manual is a solutions-focused guide to the many problems and technical challenges involved in the design of pressure vessels to match stringent standards and codes. It brings together otherwise scattered information and explanations into one easy-to-use resource to minimize research and take readers from problem to solution in the most direct manner possible. Covers almost all problems that a working pressure vessel designer can expect to face, with 50+ step-by-step design procedures including a wealth of equations, explanations and data Internationally recognized, widely referenced and trusted, with 20+ years of use in over 30 countries making it an accepted industry standard guide Now revised with up-to-date ASME, ASCE and API regulatory code information, and dual unit coverage for increased ease of international use
