Welcome to Look-Alike Land, where the more you look, the more you see! Like its predecessor, Look-Alikes Jr. features 3-D picture puzzles, but this time invites even the youngest child to join in the fun by featuring simpler, easier-to-find look-alikes in childlike settings. There are 11 scenes - house, parlor, kitchen, bedroom, school bus, classroom, construction site, movie lobby, train, farm, and rocket - each with 50+ objects to identify (700+ in total). Look for a cement mixer made out of a mustard bottle, kitchen cabinets made out of cakes of soap, and a bed built with crayons and pastel! Fun for all ages. This best-selling book is back with a brand new series design and a striking new cover.

Two women deal with modern themes of sex, relationships, and fetishism in this erotic romantic comedy. So beware all who enter, because, to quote a few hundred thousand readers on DeviantArt: 'I'm not into BDSM...but this story...I get it.'

The Psalms is a beautiful presentation of this beloved section of Scripture in large, readable type on high-quality paper. Featuring the ESV text, this edition is great for devotions, liturgical use, or as a gift.

Apprenticed to a venerable wizard when his hunter and trapper parents disappear into the forest never to be seen again, Darian is difficult and strong willed--much to the dismay of his kindly master. But a sudden twist of fate will change his life forever, when the ransacking of his village forces him to flee into the great mystical forest. It is here in the dark forest that he meets his destiny, as the terrifying and mysterious Hawkpeople lead him on the path to maturity. Now they must lead the assault on his besieged home in a desperate attempt to save his people from certain death!

The Extraordinary Memoir of a Blind Hero of the French Resistance in World War II

A History of Western Society

This Canadian text examines the intersection of criminal behaviour, the theory behind it, and the application of evidence-based practice to its study. It explores the Canadian criminal justice system, Canadian research and Canadian crime. Criminal Behaviour and Psychology is very accessible to students, and has a focus on empirical research to support key theories and practice. Contemporary themes are also highlighted to give this book a truly Canadian perspective. Criminal Psychology, 2e is intended for use by Canadian students interested in studying the psychology of crime.

Becoming Interdisciplinary

More than ever, Christians are bombarded with tough faith questions from their pluralistic friends and neighbors. Many of these emerge as "anti-truth claims" and slogans we are all familiar with:
• Why not just look out for yourself?
• Do what you want--just as long as you don't hurt anyone
• Miracles violate the laws of nature
• Aren't people born gay?
Paul Copan has been answering questions like these for many years. In When God Goes to Starbucks, he offers readers solid and caring Christian responses to these and many other concerns that are being discussed in Starbucks, shopping malls, youth groups, and schools. Each chapter provides succinct answers and points for countering the cultural questions believers are faced with today.

In THE DOG WHO KNEW TOO MUCH, Chet and Bernie attend a P.I. convention to try and make some new (and hopefully lucrative) connections. It's the sort of thing Bernie hates, but he's got to do something to get his business back on track. The head of a big international security company seems impressed with The Little Detective Agency and hires them for what appears to be an easy and well-paid assignment. Things take an unexpected turn and all sorts of trouble ensues. Tensions are further strained when a stray puppy who looks an awful lot like Chet turns up. So does Dylan McKnight, Suzie Sanchez's former boyfriend. With Chet and Bernie both dealing with affairs of the heart at the same time they are facing an unexpectedly tricky case, it's a good thing that our two intrepid investigators are looking out for each other as they always do.

Wicked Words - a collection of saucy and compelling short stories Outrageous sex and lust-filled liasons are plentiful yet again in the third volume of Wicked Words short stories. Written by women at the cutting edge of erotic literature, the series is the best in contemporary fiction aimed at women who desire unashamed, indulgent fantasies. Fun, delicious, daring and seductive, the anthology combines imaginative writing and wild hilarity, making Wicked Words collections the juiciest erotic stories to be found anywhere in the world.

Foreword by Dr. Asad Madni, C. Eng., Fellow IEEE, Fellow IEE Learn the fundamentals of RF and microwave electronics visually, using many thoroughly tested, practical examples RF and microwave technology are essential throughout industry and to a world of new applications-in wireless communications, in Direct Broadcast TV, in Global Positioning System (GPS), in healthcare, medical and many other sciences. Whether you're seeking to strengthen your skills or enter the field for the first time, Radio Frequency and Microwave Electronics Illustrated is the fastest way to master every key measurement, electronic, and design principle you need to be effective. Dr. Matthew Radmanesh uses easy mathematics and a highly graphical approach with scores of examples to bring about a total comprehension of the subject. Along the way, he clearly introduces everything from wave propagation to impedance matching in transmission line circuits, microwave linear amplifiers to hard-core nonlinear active circuit design in Microwave Integrated Circuits (MICs). Coverage includes: A scientific framework for learning RF and microwaves easily and effectively Fundamental RF and microwave concepts and their applications The characterization of two-port networks at RF and microwaves using S-parameters Use of the Smith Chart to simplify analysis of complex design problems Key design considerations for microwave amplifiers: stability, gain, and noise Workable considerations in the design of practical active circuits: amplifiers, oscillators, frequency converters, control circuits RF and Microwave Integrated Circuits (MICs) Novel use of "live math" in circuit analysis and design Dr. Radmanesh has drawn upon his many years of practical experience in the microwave industry and educational arena to introduce an exceptionally wide range of practical concepts and design methodology and techniques in the most comprehensible fashion. Applications include small-signal, narrow-band, low noise, broadband and multistage transistor amplifiers; large signal/high power amplifiers; microwave transistor oscillators, negative-resistance circuits, microwave mixers, rectifiers and detectors, switches, phase shifters and attenuators. The book is intended to provide a workable knowledge and intuitive understanding of RF and microwave electronic circuit design. Radio Frequency and Microwave Electronics Illustrated includes a comprehensive glossary, plus appendices covering key symbols, physical constants, mathematical identities/formulas, classical laws of electricity and magnetism, Computer-Aided-Design (CAD) examples and more. About the Web Site The accompanying web site has an "E-Book" containing actual design examples and methodology from the text, in Microsoft Excel environment, where files can easily be manipulated with fresh data for a new design.

Appropriate for all basic-to-intermediate level courses in Visual Basic 2008 programming. Created by world-renowned programming instructors Paul and Harvey Deitel, Visual Basic 2008 How to Program, Fourth Edition introduces all facets of the Visual Basic 2008 language hands-on, through hundreds of working programs. This book has been thoroughly updated to reflect the major innovations Microsoft has incorporated in Visual Basic 2008 and .NET 3.5; all discussions and sample code have been carefully audited against the newest Visual Basic language specification. The many new platform features covered in depth in this edition include: LINQ data queries, Windows Presentation Foundation (WPF), ASP.NET Ajax and the Microsoft Ajax Library, Silverlight-based rich Internet application development, and creating Web services with Windows Communication Foundation (WCF). New language features introduced in this edition: object anonymous types, object initializers, implicitly typed local variables and arrays, delegates, lambda expressions, and extension methods. Students begin by getting comfortable with the free Visual Basic Express 2008 IDE and basic VB syntax included on the CD. Next, they build their skills one step at a time, mastering control structures, classes, objects, methods, variables, arrays, and the core techniques of object-oriented programming. With this strong foundation in place, the Deitels introduce more sophisticated techniques, including inheritance, polymorphism, exception handling, strings, GUI's, data structures, generics, and collections. Throughout, the authors show developers how to make the most of Microsoft's Visual Studio tools. A series of appendices provide essential programming reference material on topics ranging from number systems to the Visual Studio Debugger, UML 2 to Unicode and ASCII.

A Return to Living Through the 12 Steps and the 12 Traditions of Marijuana Anonymous

Go get the life you want. Be a Rhinoceros! There is something dangerous about this book. Something big. Something full of power, energy and force of will. It could be about you. You could become three tons of thick-skinned, snorting hard-charging rhinoceros. It is time to go get the life you want.

"Belts, sashes, necklaces, earrings, purses, pillows, wall hangings and much more!"

Similar to The Big Book of Alcoholics Anonymous, Life with Hope thoroughly explains the 12 Steps and 12 Traditions as they relate to marijuana addicts and those with cannabis use disorder. This is an essential resource for anyone seeking recovery through Marijuana Anonymous (MA). "How can we tell you how to recover? We cannot. All we can do is share with you our own experiences and recovery through the Twelve Steps of Marijuana Anonymous." Similar to The Big Book of Alcoholics Anonymous, Life with Hope thoroughly explains the Twelve Steps and Twelve Traditions as they relate to individuals with cannabis use disorder. The text includes the 12 Steps and the 12 Traditions, fifteen personal stories from Marijuana Anonymous members, and the section, A Doctor's Opinion about Marijuana Addiction. Life with Hope is an essential resource for the marijuana addict and for anyone with a cannabis use disorder who is seeking recovery through Marijuana Anonymous (MA). The text is ideal for newcomers, people who are in active addiction, and anyone interested learning more about how marijuana addiction affects people's lives.

Popular consensus says that the US rose over two centuries to Cold War victory and world domination, and is now in slow decline. But is this right? History's great civilizations have always lasted much longer, and for all its colossal power, American culture was overshadowed by Europe until recently. What if this isn't the end? In History Has Begun, Bruno Maçães offers a compelling vision of America's future, both fascinating and unnerving. From the early American Republic, he takes us to the turbulent present, when, he argues, America is finally forging its own path. We can see the birth pangs of this new civilization in today's debates on guns, religion, foreign policy and the significance of Trump. Should the coronavirus pandemic be regarded as an opportunity to build a new kind of society? What will its values be, and what will this new America look like? Maçães traces the long arc of US history to argue that in contrast to those who see the US on the cusp of decline, it may well be simply shifting to a new model, one equally powerful but no longer liberal. Consequently, it is no longer enough to analyze America's current trajectory through the simple prism of decline vs. progress, which assumes a static model-America as liberal leviathan.

Rather, Maçães argues that America may be casting off the liberalism that has defined the country since its founding for a new model, one more appropriate to succeeding in a transformed world.

*Over two hundred and thirty years ago the Fallocaut happened, killing almost everything that lived and creating what is now known as the greywastes. A dead wasteland where cannibalism is a necessity, death your reality, and life before the radiation nothing but pictures in dog-eared magazines. Reaver is a greywaster, living in a small block controlled by a distant ruler said to have started the Fallocaut. He is a product of the savage world he was raised in and prides himself on being cold and cruel. Then someone new to his town catches his eye, someone different than everyone else. Without knowing why he starts to silently stalk him, unaware of where it will lead him.*

*The book that helped inspire Anthony Doer's All the Light We Cannot See. An updated edition of this classic World War II memoir, chosen as one of the 100 Best Spiritual Books of the Twentieth Century, with a new photo insert and restored passages from the original French edition When Jacques Lasseyran was an eight-year-old Parisian schoolboy, he was blinded in an accident. He finished his schooling determined to participate in the world around him. In 1941, when he was seventeen, that world was Nazi-occupied France. Lasseyran formed a resistance group with fifty-two boys and used his heightened senses to recruit the best. Eventually, Lasseyran was arrested and sent to the Buchenwald concentration camp in a transport of two thousand resistance fighters. He was one of only thirty from the transport to survive. His gripping story is one of the most powerful and insightful descriptions of living and thriving with blindness, or indeed any challenge, ever published.*

Marketing Research is a required course for all Marketing majors in both colleges and universities. Our second Canadian edition of Marketing Research Essentials is co-authored by full-time marketing researchers, therefore offering students insider views of the latest trends and what works and what doesn't. This text offers real data by real people, who have conducted real research and made it really concise for students. Praised by student reviewers for its accessible approach, the second Canadian edition of Marketing Research Essentials is the only text that covers data analysis in both Excel and SPSS, offering readers a more relevant and applied approach to the subject.

This is the ninth in the 300 series of circuit design books, again contains a wide range of circuits, tips and design ideas. The book has been divided into sections, making it easy to find related subjects in a single category. The book not only details DIY electronic circuits for home construction but also inspiring ideas for projects you may want to design from the ground up. Because software in general and microcontroller programming techniques in particular have become key aspects of modern electronics, a number of items in this book deal with these subjects only. Like its predecessors in the 300 series, "308 Circuits" covers the following disciplines and interest fields of modern electronics: test and measurement, radio and television, power supplies and battery chargers, general interest, computers and microprocessors, circuit ideas and audio and hi-fi.

One Good Lady Is About to Go Bad. . . The only thing Miss Melissa Goodly has ever wanted out of a marriage is love. But any hope of that dissolves one wild night, when she loses herself in the arms of the most irresistible--and unobtainable--man in all of England. For when they are discovered in a position as compromising as it is pleasurable, she has no choice but to accept his proposal. Avowed bachelor Anthony Craven, Earl of Wickham, never meant to seduce an innocent like Melissa. Yet now that the damage is done, it does seem like she'd make a very convenient wife. After all, she is so naive he won't have to worry about ever being tempted. Or so he thinks, until the vows are spoken and they are left alone--and his new bride reveals a streak just as brazen and unrestrained as his own. . .

For fans of Casey McQuiston and Abby Jimenez comes a bold, hilarious, and out-of-the-box novel about mixing business with battery-operated pleasure . . . When it comes to her career, Cade Elgin has it all figured out. Only “professional talk” has become her default mode, relationships are nonexistent, and don’t even mention the word “orgasm.” All work and no play makes Cade a dull human. But when she inherits a sex toy store, Cade is caught between business and a store filled with every imaginable kind of pleasure—including her infuriatingly irresponsible and deliciously sexy new co-owner. Selena Mathis learned the hard way that she can have too much of a good thing. Which is precisely why she’s taken an oath of celibacy and is focusing on how to make Satisfaction Guaranteed a success. She won’t mess this up. Not this time. But once again, Selena’s emotions are getting in the way and tempting her with a serious attraction to buttoned-up Cade. But the shop isn’t exactly vibe-ing, and Cade and Selena are on the verge of losing both their income and the possibility of love. Can they find a way to work together . . . before Satisfaction Guaranteed runs out of batteries?

A thousand years before the Winter War, Elgo, prince of the Vanadurin, killed the Dragon Sleeth and returned home with the fabulous wealth from the dead beast’s lair. But there was more in the bounty than gems and gold, for the treasure was cursed, and in time it brought death to noble and peasant, war between Man and Dwarf, strife and destruction beyond reckoning. Now, generations later, as the conflict continues, the great Dragon Black Kalgalath, in league with the Wizard Andrak, appears to avenge Sleeth’s death and claim the Dragon-cursed hoard. Against this unholy alliance, two sworn enemies set forth to find a legendary long-lost weapon: a warhammer of incalculable power that may be the only hope of victory. But neither the Warrior Maiden Elyn nor the Dwarf Thork is prepared for the dangers awaiting them on this quest....
