The aim of this book is to provide comprehensive coverage of topics in Unit 1 of the BTEC Level 3 course in Information Technology in an interesting and approachable manner. If you are studying this course, you need to notice, read about, experience and analyse the impact and implications of current and emerging digital technologies. Examples and case studies from scenarios and events that have recently been in the news are used to bring the subject to life. Reading and discussing articles from quality newspapers, whether printed or online, discussing relevant TV documentaries, noticing and analysing the use of digital technology in countless aspects of life, as well as learning from a textbook, are all going to contribute to a successful exam result. The book is divided into six sections corresponding to the six Learning Aims outlined in the specification, complementing each of the PG Online teaching resource packs. These sections are divided into between four and eight chapters, each containing material that can be covered in one or two lessons. The chapters have in-text questions which can be used as discussion points in a lesson. An extra chapter at the end of Learning Aim 6 on "Drawing System Diagrams" will be useful for students faced with a question on the exam for which they are required to draw such a diagram. In addition to almost 100 in-text questions and discussion points, there are over 80 end-of-chapter exercises that are designed to give practice in answering exam-style questions, using command words such as state, describe, explain, analyse. As much practice as possible is needed in answering such questions and getting feedback from the teacher so as to understand how to gain the maximum possible marks in the final exam.

IMPLEMENTING THE ELIGIBILITY COACH'S GAME PLAN MAY SAVE YOU THOUSANDS! Knowing one simple mistake can turn a scholarship celebration into a frantic search for \$15,000-\$60,000 to finance the first year of college. Marlynn Jones serves as a personal coach through the maze of legislation involved in acquiring a college athletic scholarship. "Eligibility Coach" addresses the Top 21 Common Mistakes made during the Certification Process, and answers these important questions: What is Amateurism Certification? What core courses are required for Certification? How does the sliding scale work? How to transfer between schools and be eligible to compete? Are there additional requirements for International Students?

""Eligibility Coach"" provides a much needed resource for athletic directors, coaches and counselors to use for student-athletes in preparing them for NCAA and NAIA eligibility certification. This coaching guide needs to be implemented sooner rather than later." Dr. Jason Pappas, Assistant Director of Athletics for Student-Athlete Services, Florida State University ""The "Eligibility Coach" helped us understand NCAA regulations and timelines as well as prepared us for both official and home visits. We knew what to expect throughout the process, and what questions to ask. After considering offers in gymnastics from several Division I universities, our daughter accepted a full athletic scholarship and is a Dean's List student competing for the University of North Carolina at Chapel Hill. She was recently admitted to medical school and received a 2012 Post-Graduate Scholarship Award from the Atlantic Coast Conference [ACC]."" Darrell and Tedra Brown, Gymnastics Parents in North Carolina If you are looking for a blueprint on how to transition from high school to college athletics, search no further. "Eligibility Coach" is an easy-

to-read how-to guide regarding athletic scholarships that every high school coach, athletic director, and parent must have." Kenny Williamson, Assistant General Manager, Memphis Grizzlies"
