Forging Germans explores the German nationalization and eventual National Socialist radicalization of ethnic Germans in the Batschka and the Western Banat, two multiethnic, post-Habsburg borderland territories currently in northern Serbia. Deploying a comparative approach, Caroline Mezger investigates the experiences of ethnic German children and youth in interwar Yugoslavia and under Hungarian and German occupation during World War II, as local and Third Reich cultural, religious, political, and military organizations wrestled over young people's national (self-) identification and loyalty. Ethnic German children and youth targeted by these nationalization endeavors moved beyond being the objects of nationalist activism to become agents of nationalization themselves, as they actively negotiated, redefined, proselytized, lived, and died for the "Germanness" ascribed to them. Interweaving original oral history interviews, untapped archival materials from Germany, Hungary, and Serbia, and diverse historical press sources, Forging Germans provides incisive insight into the experiences and memories of one of Europe's most contested wartime demographics, probing the relationship between larger historical circumstances and individual agency and subjectivity.

In terms of public opinion, new religious movements are considered controversial for a variety of reasons ranging from how they speak, dress, and eat, to the way they think and their sense of community. Their social organization often runs counter to popular expectations by experimenting with communal living (or strict individualism), alternative leadership roles (or flat network structures), unusual economic dispositions, and new political and ethical values. As a result the general public views new religions with a mixture of curiosity, amusement, and anxiety, sustained by lavish media emphasis on oddness and tragedy rather than familiarity and lived experience. This updated and revised second edition of *Controversial New Religions* offers a scholarly, dispassionate look at those groups that have generated the most attention, including some very well-known classical groups like The Family, Unification Church, Scientology, and Jim Jones' People's Temple; some relative newcomers such as the Kabbalah Centre, the Order of the Solar Temple, Branch Davidians, Heaven's Gate, and the Falun Gong; and some interesting cases like contemporary Satanism, the Raelians, Black nationalism, and various Pagan groups. Written by established scholars as well as younger experts in the field, each essay combines an overview of the history and beliefs of each organization or movement with original and insightful analysis. By presenting decades of scholarly work on new religious movements in an accessible form, this book will be an invaluable resource for all those who seek a view of new religions that is deeper than what can be found in sensationalistic media stories.

*NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller Guitar Zero At thirty years old, Gabriel Wyner speaks six languages fluently. He didn’t learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he’s discovered. Starting with pronunciation, you’ll learn how to rewire your ears and turn foreign sounds into familiar sounds. You’ll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you’ll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you’ll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.*

*How do people deal with diversity in deprived and mixed urban neighbourhoods? This edited collection provides a comparative international perspective on superdiversity in cities, with explicit attention given to social inequality and social exclusion on a neighbourhood level. Although public discourses on urban diversity are often negative, this book focuses on how residents actively and creatively come and live together through micro-level interactions. By deliberately taking an international perspective on the daily lives of residents, the book uncovers the ways in which national and local contexts shape living in diversity. The book will be a valuable resource for researchers and students of poverty, segregation and social mix, conviviality, the effects of international migration, urban and neighbourhood policies and governance, multiculturalism, social networks, social cohesion, social mobility, and super-diversity.*

**This book examines the evolution of the phenomenon and explores the genesis of overtourism and the system dynamics underlining it. The 'overtourism' phenomenon is defined as the excessive growth of visitors leading to overcrowding and the consequential suffering of residents, due to temporary and often seasonal tourism peaks, that lead to permanent changes in lifestyles, amenities and well-being. Enormous tensions in overtourism affected destinations have driven the intensification of policy making and scholarly attention toward seeking antidotes to an issue that is considered paradoxical and problematic. Moving beyond the 'top 10 things you can do about overtourism', this book examines the evolution of the phenomenon and explores the genesis of overtourism as well as the system dynamics underpinning it. With a rigorous scientific approach, the book uses systems-thinking and contemporary paradigms around sustainable development, resilience planning and degrowth; while considering global economic, socio-political, environmental discourses. Researchers, analysts, policy makers and industry stakeholders working within tourism as well as those within the private sector, community groups, civil society groups and NGOs will find this book an essential source of information.**

Architect and photographer Gary Chang has a strange obsession: he absolutely loves hotels. It's a good thing, as he spends about 120 days a year traveling all over the world. Chang has become something of a hotel expert, but meeting his exacting standards for a suitable home away from home isn't easy. He doesn't stay at just any hotel. He plans his trips with exhaustive research on the hotels of his destination and even stays at several different ones during the same trip to one city. His favorite hotels are those places that have a certain special quality, ranging from New York's kitschy Maritime to Budapest's classic Gellert to Zurich's brand-spanking new Zurichberg. Chang's most-loved finds are documented in beautiful photographs, his hand drawn floor plans, and personal texts in Hotel as Home. He presents thirty-five hotels from around the world in this wonderfully atmospheric book from the Hotel 101 in Reykjavik to the Hotel Le Corbusier in Marseilles, the Soho House Hotel in New York, the W Hotel in Sydney, the Four Seasons in Tokyo, and the Hotel Metropolitan in Bangkok. Whether it's the all-white design of Starck's Hotel Delano in Miami, the Art Deco brass beds and chandeliers in the rooms of Istanbul's Pera Palaca Hotel, or the Zen atmosphere of London's Hotel Hempel, there's something to love in all of the hotels shown here. This a must-have for business class road warriors and all travelers in search of a unique, memorable, and rejuvenating hotel experience. Sounding Authentic

*Sounding Authentic considers the intersecting influences of nationalism, modernism, and technological innovation on representations of ethnic and national identities in twentieth-century art music. Author Joshua S. Walden discusses these forces through the prism of what he terms the "rural miniature": short violin and piano pieces based on folk song and dance styles. This genre, mostly inspired by the folk music of Hungary, the Jewish diaspora, and Spain, was featured frequently on recordings and performance programs in the early twentieth century. Furthermore, Sounding Authentic shows how the music of urban Romany ensembles developed into nineteenth-century repertoire of virtuosic works in the style hongrois before ultimately influencing composers of rural miniatures. Walden persuasively demonstrates how rural miniatures represented folk and rural cultures in a manner that was perceived as authentic, even while they involved significant modification of the original sources. He also links them to the impulse toward realism in developing technologies of photography, film, and sound recording. Sounding Authentic examines the complex ways the rural miniature was used by makers of nationalist agendas, who sought folkloric authenticity as a basis for the construction of ethnic and national identities. The book also considers the genre's reception in European diaspora communities in America where it evoked and transformed memories of life before immigration, and traces how many rural miniatures were assimilated to the styles of American popular song and swing. Scholars interested in musicology, ethnography, the history of violin performance, twentieth-century European art music, the culture of the Jewish Diaspora and more will find Sounding Authentic an essential addition to their library.*

*Lonely Planet Pocket Budapest is your passport to the most relevant, up-to-date advice on what to see and skip, and what hidden discoveries await you. Visit the Royal Palace and its museums, 'take the waters' of the art nouveau Gellert Baths, or bar hop the district of Erzsebetvaros; all with your trusted travel companion. In the vein of Kate Atkinson's Jackson Brodie novels comes this year's smart new thriller with literary chops When wealthy octogenarian Geza Marton hires art expert Helena Marsh to buy back his family's Titian painting, Helena flies to Budapest to close what she expects will be a reasonably simple sale. But nothing is ever simple in this beautiful, flawed city where corruption abounds. Helena discovers that there are multiple bidders for the painting, including some dangerous Slavs. Soon there are also dead bodies, and a complicated history that leads her to men Marton knew in Vorkuta, one of Stalin's notorious gulags. As she works to unravel the truth of the painting's ownership and dodges her tail, the dogged ex-detective Attila Feher, Helena is forced to call on all her considerable skills to stay alive and out of jail. Smart, fast-paced, and wildly entertaining, The Appraisal is a terrific thriller set against Budapest's corruption and lost promise.*

*Why have so many central and inner cities in Europe, North America and Australia been so radically revamped in the last three decades, converting urban decay into new chic? Will the process continue in the twenty-first century or has it ended? What does this mean for the people who live there? Can they do anything about it? This book challenges conventional wisdom, which holds gentrification to be the simple outcome of new middle-class tastes and a demand for urban living. It reveals gentrification as part of a much larger shift in the political economy and culture of the late twentieth century. Documenting in gritty detail the conflicts that gentrification brings to the new urban 'frontiers', the author explores the interconnections of urban policy, patterns of investment, eviction, and*

The Jews of Hungary is the first comprehensive history in any language of the unique Jewish community that has lived in the country for eighteen centuries, from Roman times to the present. Noted historian and anthropologist Raphael Patai, himself a native of Hungary, tells in this pioneering study the fascinating story of the struggles, achievements, and setbacks that marked the flow of history for the Jews. He traces their seminal role in Hungarian politics, finance, industry, science, medicine, arts, and literature, and their surprising contributions to Jewish scholarship and religious leadership both inside Hungary and in the Western world. In the early centuries of their history Hungarian Jews left no written works, so Patai had to piece together a picture of their life up to the sixteenth century from documents and reports written by non-Jewish Hungarians and visitors from abroad. Once Hungarian Jewish literary activity began, sources covering the life and work of the Jews rapidly increased in richness. Patai made full use of the wealth of information in the monumental eighteen-volume series of the Hungarian Jewish Archives and the other abundant primary sources available in Latin, Hebrew, Hungarian, Yiddish, and Turkish, the languages in vogue in various periods among the Jews of Hungary. In his present study of the modern period he also examined the literary reflection of Hungarian Jewish life in the works of Jewish and non-Jewish Hungarian poets, dramatists, and journalists. Patai's main focus within the overall history of the Hungarian Jews is their culture and the role of the Jews. Convinced that what is most characteristic of a people is the culture which endows its existence with specific coloration, he pays attention to the manifestations of Hungarian Jewish talent in the various cultural fields, most significantly literature, the arts, and science. Based on the available statistical data Patai shows that from the nineteenth century, in all fields of Hungarian culture, Jews played roles not duplicated in any other country. Patai also shows that in the Hungarian Jewish culture a specific set of psychological traits had a highly significant function. The Hungarian national character trait of emphatic patriotism was present in an even more fervent form in the Hungarian Jewish mind. Despite their centuries-old struggle against anti-Semitism, and especially from the nineteenth century onwards, Jews remained convinced that they were one hundred percent Hungarians, differing in nothing but denominational variation from the Catholic and Protestant Hungarians. This mindset kept them apart and isolated from the Jewries of the Western world until overtaken by the Holocaust in the closing months of World War II.
