"As Edgar soundly slept, moonlight sculpted to his ivory pillow as it began, at first like an expected flash of movement from the corner of his nostril. Then again, this time several coarse black hairs grew slowly from each of Edgar's openings, slowly but surely moving cautiously over his lip and chin like a raven-black out-of-control Jack in the Beanstalk." -from "Coiffure Love"

"Buoyed by the concert, Elaine ordered two Black Russians, heavy on the vodka and light on Japanese custom....During the last course the vodka blacksmith hammered me. By now the room was tilting and the vodka and butterflied shrimp were scurrying toward my stomach's exit sign....First kneeling, then completely falling into the lower seating tier. I nested on my side, soaked in sour soup atop a middle aged couple....Never turning back. I reeled all the way to my little hotel by foot, partially digested shrimp and curly crispy noodles now decorating my lower trouser legs and those silly bamboo sandals." -from "Livin' by Wits" "As a last ditch effort, I almost jokingly asked if he was a betting man, a simple Roman coin toss, heads heaven, tails hell, what do you say, JC? The attending angels blushed as he aptly flipped the coin, mid air I called heads, it landed on his nail scarred wrist, Caesar side up, heads, I won!" -from "Dinner with Jesus" "Reappearing, Olga the Orangutan, a bit squat, very muscular and quite hairy in the now splitting silk teddy showed surprising agility as she clutched Carl to dance; swaying slowly

to the music, they formed an interesting couple: Carl, knees bent and stooping over in his tasseled smoking jacket; Olga standing on his slippers, hairy arms around his neck." -from "Monkey Business"

Consumers Index to Product Evaluations and Information Sources

This book is designed to present, in one convenient source, comments published in periodicals about 325 automobile models manufactured since 1987 on a model-by-model basis. These periodicals range from general interest to specialized sources as well as repair manuals and other publications related to the individual models.

A breed unlike any seen before or since, the powerful, stylish American muscle car defined an era in automotive history. This history traces the rise and fall of these great performance cars from their precursors in the 1950s through the seminal appearance of the Pontiac GTO in 1964 and then year by year to the end in the 1970s. Approachable and nontechnical yet deeply informative, it puts the bygone muscle car in its cultural and aesthetic contexts, describes developments in styling, performance and marketing, and revels in the joys of muscle car ownership in the 21st century.

Gale's Auto Sourcebook 2

The General Motors G-Body is one of the manufacturer's most popular chassis, and includes cars such as Chevrolet Malibu, Chevrolet Monte Carlo and El Camino; the Buick Regal, the Oldsmobile Cutlass Supreme; the Pontiac Grand Prix, and more.

This text covers both the theory and procedures related to the diagnosis and service of automotive suspension and steering systems, using a unique two-volume approach to optimize learning in both the classroom and the auto shop. The first volume (Classroom Manual) details the theory and application of suspension and steering systems, while the second (Shop Manual) covers real-world symptoms, diagnostics, and repair information. Known for its comprehensive coverage, accurate and up-to-date details, and abundant illustrations, the text is an ideal resource to prepare for success as an automotive technician or pursue ASE certification. Now updated with extensive information on new and emerging technology and techniques—including hybrid and electric vehicles, tire plus sizing, and computer-controlled suspensions—the Sixth Edition also aligns with area A4 of the ASE Education Foundation 2012 accreditation model, including job sheets correlated to specific AST and MAST tasks. Ideal for aspiring and active automotive professionals, TODAY'S TECHNICIAN: AUTOMOTIVE SUSPENSION & STEERING SYSTEMS, Sixth Edition, equips readers to confidently understand, diagnose, and repair suspension and steering systems in today's automobiles.
