Though the importance of effective management of organizational resources is generally acknowledged, published research on the theme is disappointingly scarce. This book hopes to contribute in filling the lacuna. Contributors to the volume, which is the first in a book series from African Journal of Business and Economic Research (AJBER), a peer-reviewed, triennial publication, discuss various management issues in sub-Saharan Africa such as employee motivation, job satisfaction, compensation, organizational commitment, ethics, social responsibility and export management and the interplay between these and the effective management of an organization's resources. They argue that effective management of organizational resources - whether in the public or private sector - promotes efficiency, which in turn enhances the organization's ability to compete. The contributors also offer valuable insights into why many organizations in sub-Saharan Africa are inefficiently managed and offer desiderata for overcoming such challenges.
