'This is legal scholarship of the finest kind, concerned with an issue of supreme political, economic and social importance. Professor Keay takes the debate on the object of the modern public corporation by the scruff of its neck and skilfully navigates between the Scylla and Charybdis of the shareholder/stakeholder debate. This book, characterised by admirable analytical clarity and a huge amount of research, faithfully summarises the debate hitherto, and propels us to the next stage with a powerful argument, which challenges, effectively, both the stakeholder and shareholder theories.' – Harry Rajak, University of Sussex School of Law, UK

The Corporate Objective addresses a question that has been subject to much debate: what should be the objective of public corporations? It examines the two dominant theories that address this issue, the shareholder primacy and stakeholder theories, and finds that both have serious shortcomings. The book goes on to develop a new theory, called the Entity Maximisation and Sustainability Model. Under this model, directors are to endeavour to increase the overall long-run market value of the corporation as an entity. At the same time as maximising wealth, directors have to ensure that the corporation survives and is able to stay afloat and pursue the development of the corporation's position. Andrew Keay seeks to explain and justify the model and discusses how the model is enforced, how investors fit into the model, how directors are to act and how profits are to be allocated. Analysing in depth the existing theories which seek to explain the corporate objective, this book will appeal to academics in corporate law and corporate governance as well as law, finance, business ethics, organisational behaviour, management, economics, accounting and sociology. Postgraduate students in corporate law and corporate governance, directors, and government regulators will also find much to interest them in this study.

Edwin Mujih explores the difficulties associated with regulating multinational companies operating in developing countries, with a particular focus on extractive industries. The author highlights the need to establish an international legally binding framework to ensure that multinationals operate in a socially responsible manner to protect local communities and the environment. Edwin Mujih's analysis reveals that the existing mechanisms for controlling the behaviour of huge multinational entities are of normative force only, that these are particularly inadequate, and that the notion of corporate social responsibility is only meaningful where behaviour can be legally regulated. Regulating Multinationals in Developing Countries features a study of the Chad and Cameroon Oil and pipeline project, which highlights the problems arising in countries that have neither the capacity nor the will to effectively regulate those operating within their borders. The author has evaluated compliance by the parties with their social and environmental obligations. He has found that, despite controversy surrounding inadequate regulation of this project in its incipient stages, the system that was put in place following huge opposition from the affected communities and from NGOs is worthy of attention and could stand as a model for similar projects elsewhere. This first title in Gower's Corporate Social Responsibility Series to approach CSR from a legal perspective provides insight not just into the complexity surrounding efforts to regulate multinationals operating in countries with weak regulatory regimes, but also into the fundamental nature of multinational corporations and the debate about different notions of CSR itself.

The Final Report of the National Commission on the Causes of the Financial and Economic Crisis in the United States Including Dissenting Views

West's Busns Law

The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." News Dissector DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film In Debt We Trust warned of the economic meltdown in 2006. He has since written three books on the subject including Plunder: Investigating Our Economic Calamity (Cosimo Books, 2008), and The Crime Of Our Time: Why Wall Street Is Not Too Big to Jail (Disinfo Books, 2011), a companion to his latest film Plunder The Crime Of Our Time. The extraordinary tale of a refugee youth soccer team and the transformation of a small American town Clarkston, Georgia, was a typical Southern town until it was designated a refugee settlement center in the 1990s, becoming the first American home for scores of families in flight from the world's war zones—from Liberia and Sudan to Iraq and Afghanistan. Suddenly Clarkston's streets were filled with women wearing the hijab, the smells of cumin and curry, and kids of all colors playing soccer in any open space they could find. The town also became home to Luma Mufleh, an American-educated Jordanian woman who founded a youth soccer team to unify Clarkston's refugee children and keep them off the streets. These kids named themselves the Fugees. Set against the backdrop of an American town that without its consent had become a vast social experiment, Outcasts United follows a pivotal season in the life of the Fugees and their charismatic coach. Warren St. John documents the lives of a diverse group of young people as they miraculously coalesce into a band of brothers, while also drawing a fascinating portrait of a fading American town struggling to accommodate its new arrivals. At the center of the story is fiery Coach Luma, who relentlessly drives her players to success on the soccer field while holding together their lives—and the lives of their families—in the face of a series of daunting challenges. This fast-paced chronicle of a single season is a complex and inspiring tale of a small town becoming a global community—and an account of the ingenious and complicated ways we create a home in a changing world.

3 things to know about the focus of Dynamic Business Law, 2e: Emphasis on ETHICAL DECISION-MAKING. In chapter 2, the authors introduce a framework for making ethical business decisions that students can use on a regular basis. Following each case there are questions designed to train students to apply this approach. Then repeatedly throughout the chapters, questions about business ethics are raised in the text. This framework is designed to help improve the learning process of students and to give a sense of relevancy to the ethical decision making process. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law as well - to help

students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to further tie in this component. Emphasis on the BUSINESS in business law. Dynamic Business Law emphasises the tie of legal issues back to the core business curriculum. This will help both students and faculty. Students need to understand how the concepts they learn in this course tie into their business careers. Instructors can easily show that the study of business law is best seen as a foundational component of the larger study of business administration. Dynamic Business Law now includes Connect Business Law as a packaging option. Connect includes Interactive Applications for each chapter of the textbook and helps students apply legal concepts to business, stimulates critical thinking, and reinforces key topics. Overview: Dynamic Business Law, 2e is appropriate for the two-term business law course. Emphasis on the BUSINESS in business law. Dynamic Business Law emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Faculty need to know how this is integrated as they are constantly “defending” the inclusion of this course in the business curriculum. And students need to understand how the concepts tie to their future business careers. Emphasis on TEACHING. Many professors teaching this course are attorneys first and academics second. They do not have a lot of time to prepare or think about how to apply this information effectively for their business students. Dynamic Business Law contains a helpful instructor's manual, particularly for the many adjuncts teaching this course. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law as well - to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to further tie in this component. Instructor's Supplements: The Online Learning Center contains the complete IM, Test Bank, PowerPoint, image library, and video clips. Instructor's Manual: The Instructor's Manual provides a clear outline of how to begin using this text and is especially helpful to adjuncts who teach Business Law. Sample syllabi are included, as well as detailed lecture outlines incorporating PowerPoints and other materials professors can bring into their lectures. Exciting and new examples from outside the text are also included, and can be discussed in class to help generate excitement and involvement in the course from students. Test Bank: The Test Bank, developed by Vonda Laughlin of Carson-Newman College, contains a variety of true/false, multiple choice, and essay questions - as well as “scenario-based” questions, which are application-based, and use a situation described in a narrative, with 3 - 5 multiple-choice test questions based on the situation described in the narrative. We've aligned our Test Bank with the new AACSB guidelines, tagging each question according to its knowledge and skills areas. Categories include Global, Ethics and Social Responsibility, legal and other External Environment, communication, Diversity, Group Dynamics, Individual Dynamics, Production and IT. Designations aligning questions with Learning Objectives, features, and case, exist as well. PowerPoint Presentation slides: Developed by Jeff Penley at Catawba Valley Community College, we offer two different sets of slides for professors. The “Basic” set consists of an outline of each chapter. The “Premium” set expands on this outline to include hypotheticals and ethical dilemmas, allowing the instructor to

incorporate application into the lecture. Instructor Video DVD (ISBN: 0077339118, 13-digit: 9780077339111): The Instructor Video DVD contains video clips from CBS that highlight current legal issues. Instructor Notes, located on the OLC, give insight into how to incorporate segments into the classroom and offer questions to stimulate discussion. Most of these videos are also part of Premium content - a big plus for instructors teaching online/hybrid courses.

The *Oxford Handbook of Strategic Sales and Sales Management* is an unrivalled overview by leading academics in the field of sales and marketing management. Sales theory is experiencing a renaissance driven by a number of factors, including building profitable relationships, creating/delivering brand value, strategic customer management, sales and marketing relationships, global selling, and the change from transactional to customer relationship marketing. Escalating sales and selling costs require organisations to be more focused on results and highlight the shifting of resources from marketing to sales. Further the growth in customer power now requires a strategic sales response, and not just a tactical one. The positioning of sales within the organisation, the sales function and sales management are all discussed. The Handbook is not a general sales management text about managing a sales force, but will fill a gap in the existing literature through consolidating the current academic research in the sales area. The Handbook is structured around four key topics. The first section explores the strategic positioning of the sales function within the modern organisation. The second considers sales management and recent developments. The third section examines the sales relationship with the customer and highlights how sales is responding to the modern environment. Finally, the fourth section reviews the internal composition of sales

within the organisation. The Handbook will provide a comprehensive introduction to the latest research in sales management, and is suitable for academics, professionals, and those taking professional qualifications in sales and marketing.
