A Digital Textbook

Excerpt from Commercial Law Simplified: Being a Simple and Concise Presentation of the Subject of Commercial Law, in Question and Answer Form IT IS the purpose of this book to present to business men and accountants the fundamental principles of commercial law in the simplest and most concise form. It is a book for business men and not for lawyers, and does not presuppose on the part of the reader any knowledge of the law or of legal terminology. The necessity for some knowledge of the law applicable to commercial transactions is now fully recognized by all who are engaged in business, whether as merchants, manufacturers, credit men, managers, account ants, salesmen or in any other capacity. Just as no physician is properly prepared for practice without a knowledge of medical jurisprudence, and just as no officer in the army or navy is adequately trained for his post without a knowl edge of international law, so is no one quite fully prepared for a successful business career without a knowledge of the fundamental principles of business law. The law schools of the country are filled with students who are preparing themselves for business careers rather than for the practice of the profession itself. It is for those who have not had this law school training. But who have felt the need of it, that this book is intended. Its publication is in no sense a criticism of a number of excellent and scholarly works already prepared upon the subject, but is in response to a demand for a treatment much simpler in form and style than has yet appeared. The question and answer form has been adopted as an aid to clearness and conciseness and as best indicating the form in which a legal problem comes to the mind of the average business man in his everyday transactions, and many illustrative problems have been used to make clear the application of principles to certain kinds of transactions.
