Help your child find joy in learning through this Coloring Activity Book. Hi Alphabet! Getting to Know the ABC's Color and Identify Toddler Activity Book 1-3. PreK Alphabet A-Z and Dot to Dot for Writing Training. It contains almost 200 pages of age-appropriate activities banked on the following concepts: Letters A-Z Introduction to written letters. Each letter is linked to an animal for more efficient identification. Connect the Dots Letters - Connect the dots target two concepts: the familiarity of numbers and the curves of every letter. Connect the dots require kids to follow numeric sequences. Meanwhile, the creation of lines between dots will help speed up the familiarity of how letters are written. Numbers - This activity book features the numbers 1-10. Coloring - Both concepts of letters and numbers are delivered primarily through the hands-on exercise of coloring. The key is to improve grip and hold while boosting memory through experience. There is an evolution of control in this activity book. At first, kids will be given the freedom to choose and use colors. Later on, strict instructions will be provided on what colors to use on specific numbers or letters. This slow introduction of control will be useful in the transition to formal education. This activity book comes in 8.5 x 8.5 inches pages, which make it easy to carry around and complete. A bleedthrough page is included to prevent color bleeds. The many edutaining opportunities provided by this activity book will keep little ones busy for hours. Move over, coloring books! Here's an entirely new craft that kids will love: Paint by Sticker Kids. Paint by Sticker Kids is the same compelling craft first introduced in Paint by Sticker, but just for kids! The book includes everything you need to create 10 bright, playful, full-color illustrations—illustrated templates printed on perforated card stock, and 10 pages of stickers to fill in and create the artwork. The fun, vibrant images are rendered in “low-poly,” a computer graphics style using geometric polygon shapes to create a 3-D effect. As in paint-by-number, each template is divided into hundreds of spaces, each with a number that corresponds to a particular sticker. Find the sticker, peel it, and place it in the right space. Add the next, and the next, and the next and voila! It's a rocket ship blasting through space. A Tyrannosaurus rex prowling his domain. A pickup truck hauling its load. A friendly toucan hanging on his perch. Kids will love watching these pictures come to life. Plus, each is suitable for framing or the fridge.

Young children can create a busy airport scene with the images in this entertaining activity book. Features 30 full-color peel-and-apply stickers depicting passengers, flight crew, luggage handlers, a fuel truck, supersonic and conventional aircraft, and more that can be applied to a background scene of a runway, hangars, and a control tower. Full-color. 4 plates.
