helped countless entrepreneurs make millions. The revised and updated edition of the #1 New York Times bestseller *Launch* will build your business - fast. Whether you've already got an online business or you're itching to start one, this is a recipe for getting more traction and a fast start. Think about it: What if you could launch like Apple or the big Hollywood studios? What if your prospects eagerly counted down the days until they could buy your product? And you could do it no matter how humble your business or budget? Since 1996, Jeff Walker has been creating hugely successful online launches. After bootstrapping his first Internet business from his basement, he quickly developed a process for launching new products and businesses with unprecedented

success. And once he started teaching his formula to other entrepreneurs, the results were simply breathtaking. Tiny, home-based businesses started doing launches that brought in tens of thousands, hundreds of thousands, and even millions of dollars. Whether you have an existing business or you're starting from scratch, this is how you start fast. This formula is how you engineer massive success. Now the question is this: Do you want to start slow, and fade away from there? Or are you ready for a launch that will change the future of your business and your life?

For those who are focused on making money online, you should look at the concepts of offline business owners and consider how you may use them to expand beyond the internet. Even if you want to focus on the online marketing side only, the potential for partnering with offline businesses in your niche is almost infinite. By approaching traditional business owners with joint venture opportunities is something that is rarely done, yet holds massive, passive potential. For those who already operate an

technology. The focus is not on merely learning the concepts of IT but rather on applying those concepts to facilitate business processes. The authors concentrate on placing information systems in the context of business, so that students will more readily grasp the concepts presented in the text. The theme of this book is What's In IT for Me? This question is asked by all students who take this course. The book will show you that IT is the backbone of any business, whether a student is majoring in Accounting, Finance, Marketing, Human Resources, or Production/Operations Management. Information for the Management Information Systems

(MIS) major is also included.
