"English is so illogical!" It is generally believed that English is a language of exceptions. For many, learning to spell and read is frustrating. For some, it is impossible... especially for the 29% of Americans who are functionally illiterate. But what if the problem is not the language itself, but the rules we were taught? What if we could see the complexity of English as a powerful tool rather than a hindrance? --Denise Eide Uncovering the Logic of English challenges the notion that English is illogical by systematically explaining English spelling and answering questions like "Why is there a silent final E in have, large, and house?" and "Why is discussion spelled with -sion rather than -tion?" With easy-to-read examples and anecdotes, this book describes: - the phonograms and spelling rules which explain 98% of English words - how English words are formed and how this knowledge can revolutionize vocabulary development - how understanding the reasons behind English spelling prevents students from needing to guess The author's inspiring commentary makes a compelling case that understanding the logic of English could transform literacy education and help solve America's literacy crisis. Thorough and filled with the latest linguistic and reading research, Uncovering the Logic of English demonstrates why this systematic approach should be as foundational to our education as 1+1=2.

The Literacy Workshop

"This book offers a unique interpretation of traditional workshop instruction by showing teachers how to integrate their separate reading and writing workshops into one 'literacy workshop' (periodically and as dictated by student needs) that takes advantage of the inherent reciprocity between reading and writing. Through narrative discussion, student samples, photographs, instructional resources, online content, suggested lessons and various mentor texts, the book explains the structure of the literacy workshop, tells readers how to get started with it, and shows them how to decide when it's best to merge the two workshops into one. The book is divided into two parts. Part I (Chapters 1-4) lays the foundation and gives the nuts and bolts of literacy workshop, Part II (Chapters 5-9) includes engagement/strategy/topic focused demonstration lessons - which includes a primary and an intermediate level example lesson for each Big Idea"--

The achievement of students of color continues to be disproportionately low at all levels of education. More than ever, Geneva Gay's foundational book on culturally responsive teaching is essential reading in addressing the needs of today's diverse student population. Combining insights from multicultural education theory and research with real-life classroom stories, Gay demonstrates that all students will perform better on multiple measures of achievement when teaching is filtered through their own cultural experiences. This bestselling text has been extensively revised to include expanded coverage of student ethnic groups: African and Latino Americans as well as Asian and Native Americans as well as new material on culturally diverse communication, addressing common myths about language diversity and the effects of "English Plus" instruction.

When Jan Richardson unexpectedly lost her husband and creative partner, the singer/songwriter Garrison Doles, she did what she had long known how to do: she wrote blessings. These were no sugar-coated blessings. They minimized none of the pain and bewilderment that came in the wake of a wrenching death. With these blessings, Jan entered, instead, into the depths of the shock, anger, and sorrow. From those depths, she has brought forth words that, with heart-breaking honesty, offer surprising comfort and stunning grace. Those who know loss will find kinship among these pages. In these blessings that move through the anguish of rending into the unexpected shelters of solace and hope, there shimmers a light that helps us see we do not walk alone. From her own path of grief, Jan offers a luminous, unforgettable gift that invites us to know the tenacity of hope and to recognize the presence of love that, as she writes, is "sorrow's most lasting cure."

These days, it seems that everyone has a strong opinion about how to teach young children to read. Some may brush off the current tension as nothing more than one more round of "the reading wars." Others may avoid the clash altogether due to the uncivilized discourse that sometimes results. Certainly, sorting the signal from the noise is no easy task. In this leading-edge book, authors Jan Burkins and Kari Yates address this tension as a critical opportunity to look closely at the research, reevaluate current practices, and embrace new possibilities for an even stronger enactment of balanced literacy. From phonological processing to brain research to orthographic mapping to self-teaching hypothesis, Shifting the Balance cuts through the rhetoric (and the sciencey science) to offer readers a practical guide to decision-making about beginning reading instruction. The authors honor the balanced literacy perspective while highlighting common practices to reconsider and revise--all through a lens of what's best for the students sitting in front of us. Across six shifts, each chapter identifies a common instructional practice to reconsider explores various misunderstandings that establish and keep that practice in play shares scientific research to support its reconsideration proposes an instructional shift to apply a new perspective, and details several high-leverage instructional routines to support implementation of that shift. By pinpointing gaps and overlaps--as well as common misunderstandings and missed opportunities between the competing lines of thought--Jan and Kari offer busy educators direction and clarification for integrating science and balance into their daily instruction, while keeping meaningful experiences with text a priority.

A Woman's Book of Daily Prayer

Come spend some time in the sanctuary of women, an often-ignored space in Jewish and Christian history. This devotional book for women highlights six women from around the world and across the centuries, inviting us to discover what their lives tell us about God. Jan Richardson, a gifted poet, artist, and author, believes it is essential for women to listen to one another's wisdom and bring the fullness of their lives, with all the wonders and messiness, into their prayer life. In the Sanctuary of Women gathers together these women from scripture and history: Eve Brigid of Kildare The desert mothers Hildegard of Bingen Harriet Powers The Woman of the Song of Songs Each chapter becomes its own sanctuary, with one of the women serving as a companion as you contemplate the theme that her life offers. Throughout the readings Richardson weaves her own stories, poetry, prayers, and blessings. Midway through each chapter, a section called "The Secret Room" gives you a chance to pause and reflect on unexpected insights. Reading the book daily will carry you through six months, or you can dip into the readings as you wish. An invitation into reflection and prayer alone or in the company of others, In the Sanctuary of Women is a book to treasure and to share with the women and the men in your life.
