A Course in Miracles (ACIM)—the self-study spiritual-thought system that teaches the way to love and forgiveness—has captured the minds and hearts of millions of people, and delivered inner peace where fear and pain once prevailed. Its universal message is unsurpassed in its power to heal. Yet many students report that they have difficulty grasping the principles, or encounter resistance to the lessons. So, even while they yearn for the spiritual freedom the Course offers, they put the book aside, hoping one day to get to it. Alan Cohen, ACIM student and teacher for over 30 years, takes the Big Picture ideas of the Course and brings them down to earth in practical, easy-to-understand lessons with plenty of real-life examples and applications. A Course in Miracles Made Easy is the Rosetta stone that will render the Course understandable and relatable; and, most importantly, generate practical, healing results in the lives of students. This unique reader-friendly guide will serve longtime students of the Course, as well as those seeking to acquaint themselves with the program.

The question this work addresses is this: given our current state of knowledge, are any of the major religion’s creation accounts accurate, or are they all myths and fables that don’t hold up to close examination? This work makes three assumptions. Assumption no. 1—If there is a creator and he provided a creation account, then he should be able to get it right. After all, he was supposed to be there! Assumption no. 2—If there is a creator, then one of the four major religions, each of which has survived a thousand years or more, is the most likely place to look for a legitimate creation account, a message from our creator. It is safe to say any creator capable of creating us and the universe we live in should be capable of accurately revealing his existence. Assumption no. 3—If we do find an ancient (pre-science) creation account that makes a substantial number of scientific, factually accurate statements—not just a few lucky guesses—but facts that were unknowable at the time the account was written, then we can reasonably conclude there must be a creator who revealed these facts.

NEW YORK TIMES BESTSELLER • A harrowing, moving memoir of the 1972 plane crash that left its survivors stranded on a glacier in the Andes—and one man’s quest to lead them all home—now in a special edition for 2022, commemorating the fiftieth anniversary of the crash, featuring a new introduction by the author “In straightforward, staggeringly honest prose, Nando Parrado tells us what it took—and what it actually felt like—to survive high in the Andes for seventy-two days after having been given up for dead.”—Jon Krakauer, author of *Into the Wild* “In the first hours there was nothing, no fear or sadness, just a black and perfect silence.” Nando Parrado was unconscious for three days before he woke to discover that the plane carrying his rugby team to Chile had crashed deep in the Andes, killing many of his teammates, his mother, and his sister. Stranded with the few remaining survivors on a lifeless glacier and thinking constantly of his father’s grief, Parrado resolved that he could not simply wait to die. So Parrado, an ordinary young man with no particular disposition for leadership or heroism, led an expedition up the treacherous slopes of a snowcapped mountain and across forty-five miles of frozen wilderness in an attempt to save his friends’ lives as well as his own. Decades after the disaster, Parrado tells his story with remarkable candor and depth of feeling. *Miracle in the Andes*, a first-person account of the crash and its aftermath, is more than a riveting tale of true-life adventure; it is a revealing look at life at the edge of death and a meditation on the limitless redemptive power of love.

The Miracle That Is Your Life

Miracle at Midway

At some time in our lives, most of us have prayed for or hoped for a miracle—an event that seems impossible but is brought about by God’s transcendent power. But when miracles occur, did you know that you have a role to play? If that’s true, what’s the catch? What do we have to do? What’s it going to cost us? Popular author and pastor Mike Slaughter examines the two components of every miracle: divine action and human responsibility. For a real miracle to take place, we must act with God, using whatever gifts, talents, and abilities we have and directing them toward God’s work. We need to follow the examples of Mary in the birth of Jesus, and Jesus’ followers when he healed them, and Jesus’ disciples after he rose from the dead. This Lent, use your God-given gifts and talents for God’s glory, and get ready to be made for a miracle. Additional components for this six-week study include a comprehensive Leader Guide and a DVD featuring author and pastor Mike Slaughter.

Then something happened that made her catch her breath and place her hand up to her mouth. A shoulder came part way out of the darkness. Now she knew she was right all along. She really had seen something move out of the corner of her eye. Then more of the shoulder was revealed and she realized that whoever it belonged to, was stepping into the light. With a growing fear building inside, she held her breath and watched as more and more of the person behind the shoulder got closer. It wasn’t until a portion of the head moved into the light that a chill shot through her as she finally understood who it was. The chill bolted down her spine into her legs making them weak under her. Her hand was now clamped across her mouth while the other became clenched into a fist. She knew that this wasn’t one of the others. When the rest of his head had been fully illuminated, she realized he had it bowed down showing only the top. His long hair looked menacing with its untidy and dirty look. She had to squeeze her hand tighter against her mouth to prevent a scream from escaping. Then, as if in slow motion, he lifted his head to reveal his face. And there it was. His evil smile. Even though he was unable to see her while she remained within the darkness of her cave, he continued to stare in her direction. As if he could see through the darkness to her. This is where he’s been waiting for me all along! Then his smile turned into a silent laugh as he lifted his arm out of the shadows, revealing the knife held firmly in his hand. He raised it up high so she could get a good look and then reverted back to his horrid smile. She watched intently as he gingerly maneuvered the knife through the air less than an inch from his chest. She wasn’t sure what to do. She was trapped in her alcove. Even if by some miracle, she was able to make it out of there and down the hallway before he was able to attack her with his knife, she surely wouldn’t be able to outrun the other, especially with her leg slowing her down. He’s going to come over here and kill me! He’s showing me his knife so I’ll know how he’ll do it! It was then that he stepped completely out of his alcove and very slowly, walked in her direction. She froze, unable to move as she watched him get closer with each step. Then he suddenly stopped. A little confused, she observed him, waiting to see what he would do next. He’s taunting me—standing so close with his knife—threatening me with his horrible smile. But then, then, while he was standing in the middle of the hallway, he turned and looked toward the open door where one of the others was standing. And then he walked in that direction.

Everything you desire is within your reach, if you learn to tap the miraculous power that lies within your own personality. Success belongs to those lucky people who are blessed with successful personalities. With these outstanding human beings, success is a daily miracle, a way of life, a habit. Businesspeople, preachers, doctors, soldiers, artists—people in every walk of life—are learning to achieve their goals, to overcome all obstacles to their success, to live the life they want, through the miraculous will of the successful personality. You can be one of these people. Napoleon Hill, world-famous author, associate of great and successful people from Andrew Carnegie to Franklin D. Roosevelt, lifelong teacher of the open secrets of success, can give you this knowledge and power.

Creation: Myth or Miracle?

Stress, pain, grief... Do you need a miracle? They still happen, says Wuelner, a wise spiritual director, counselor and healer. She’s a witness to their power and mystery. “Fifty years ago, as a young pastor, I probably would’ve denied it,” she writes. “But over the years I have become humbler, listening and observing more. Yes, acts of wonder still occur surprisingly often in the physical world. “God works closely in, with and through us as every atom, each cell, every thought and action open to reveal God’s love.” Televangelists have sullied them, but the mystery of miracles fit into the biblical and theological framework of today.

Rediscover their wonder and power. Focusing on seven of Jesus’ miracles, Wuelner invites you to consider: What does this story tell me about God and how God feels for me? How can this story help me with my problem? Wuelner explores the many ways God’s generous goodness and mercy are available to each of us. For anyone facing illness or a life crisis, Miracle opens the depths of spiritual richness for living a full life in spite of it all. Each chapter ends with a guided meditation. In these stories and meditations, you’ll discover Christ’s power to touch your intense hurts. Christ can transform them into a life of miracles.

One of the Year’s Elle, Harper’s Bazaar, *Vulture* • This uncompromising look at the immigrant experience, and the depravity of one man, is an electrifying page-turner rooted in a magical reality • “Impossible to stop reading” —*Vulture* When Lucien flees Haiti with his wife, Marie-Ange, and their three children to New York City’s South Ozone Park, he does so hoping for reinvention, wealth, and comfort. He buys a run-down house in a quickly changing community, and begins life anew. Lucien and Marie-Ange call their home La Kay—“my mother’s house”—and it becomes a place where their fellow immigrants can find peace, a good meal, and necessary legal help. But as a severely emotionally damaged man emigrating from a country whose evils he knows to one whose evils he doesn’t, Lucien soon falls into his worst habits and impulses, with La Kay as the backdrop for his lasciviousness. What he can’t begin to fathom is that the house is watching, passing judgment, and deciding to put an end to all the sins it has been made to hold. But only after it has set itself aflame will frightened whispers reveal Lucien’s ultimate evil.

“Holding brain science in one hand and rich emotional presence in the other, this book feels timely and necessary.”–Shauna Niequist, New York Times bestselling author of *Present Over Perfect* Why is there such a gap between what you want to do and what you actually do? The host of *Ask Science* Mike explains why our desires and our real lives are so wildly different—and what you can do to close the gap. For thousands of years, scientists, philosophers, and self-help gurus have wrestled with one of the basic conundrums of human life: Why do we do the things we do? Or, rather, why do we so often not do the things we want to do? As a podcast host whose voice goes out to millions each month, Mike McHargue gets countless emails from people seeking to understand their own misbehavior—why we binge on Netflix when we know taking a walk outside would be better for us, or why we argue politics on Facebook

when our real friends live just down the street. Everyone wants to be a good person, but few of us, twenty years into the new millennium, have any idea how to do that. In *You’re a Miracle* (and a Pain in the Ass), McHargue addresses these issues. We like to think we’re in control of our thoughts and decisions, he writes, but science has shown that a host of competing impulses, emotions, and environmental factors are at play in every action we undertake. Touching on his podcast listeners’ most pressing questions, from relationships and ethics to stress and mental health, and sharing some of the biggest triumphs and hardships from his own life, McHargue shows us how some of our qualities that seem most frustrating—including “negative” emotions like sadness, anger, and anxiety—are actually key to helping humans survive and thrive. In doing so, he invites us on a path of self-understanding

and, ultimately, self-acceptance. You’re a Miracle (and a Pain in the Ass) is a guided tour through the mystery of human consciousness, showing readers how to live more at peace with themselves in a complex world. Each and every one of us was born to live a miraculous life. And never before has it been easier to tap into the magic and miracles life has to offer. The Miracle That Is Your Life will take you on a journey of exploration and discovery, offering you simple ways for you to adjust, finally being able to experience the life you have only been able to dream of. Maybe you’ve been working hard, but your bank account does not reflect your efforts. Maybe you have gone through a break-up and wondering what may be next for you. Or possibly you’ve been taking care of so many other people and other responsibilities, that you are concerned about your health. Whatever your circumstances, this book is going to help you gain your clarity and position you to take your next steps. If there has been a feeling in your gut, a pull in your heart, and the very fact you are reading this description, allow Wendy Darling

to show you the way. Not only is there something more for you to experience, you can finally get on the path of a special and miraculous life. Start turning those dreams and desires into reality...right now! The Moon is Green “Effie! What the devil are you up to?” Her husband’s voice, chopping through her mood of terrified rapture, made her heart jump like a startled cat, yet by some miracle of feminine self-control her body did not show a tremor. Dear God, she thought, he mustn’t see it. It’s so beautiful, and he always kills beauty. “I’m just looking at the Moon,” she said listlessly. “It’s green.”Mustn’t, mustn’t see it. And now, with luck, he wouldn’t. For the face, as if it also heard and sensed the mood in the voice, was moving back from the window’s glow into the outside dark, but slowly, reluctantly, and still faunlike, pleading, cajoling, tempting, and incredibly beautiful.

If There Is a God, Shouldn't He Be Able to Get the Creation Story Right?

While at an archaeology dig in Afghanistan, evolutionary anthropologist Rachel St. Claire discovers a pendant with strange shifting symbols. Not long after, she receives an urgent call from her colleague, Dr. Grace McAllister, insisting Rachel come to Antarctica to examine an unusual body with ethereal properties found in an ice cave. Before Rachel can respond, bandits storm the desert dig site. Just as they are about to seize Rachel, a helicopter appears with Trevor Brookenridge, a handsome polar geophysicist sent by his Aunt Grace to bring Rachel to Antarctica. Sparks fly, but Rachel already has a fiancé. Rachel must decide who she can trust when a group of bioterrorists engaged in secret genetic experiments in an abandoned World War II Nazi base under the Antarctic ice sheet come after the pendant—and her. For it seems everyone knows a secret Rachel does not, one which will change her life forever.

The core contention of The Legitimacy of Miracle is that a priori philosophical dismissals of the possibility or probability of justified belief in miracles fail. Whether or not it is rational to believe that events best understood as miracles actually occur is not to be decided on the basis of armchair theorizing, but rather on the basis of meticulous examination of the evidence. Such examination, however, needs to be set free from unwarranted assumptions that miracles are “impossible, improbable, or improper.” Philosophical analysis can play an important role in clearing away conceptual underbrush and question-begging presuppositions, but it cannot take the place of detailed consideration of historical and contemporary evidence. Robert Larmer demonstrates that the proper role of philosophy, as regards to the belief in miracles, is to provide an in-principle rejection of in-principle arguments either for or against. The arguments contained in this book will be of particular interest to students and scholars of philosophy, theology, history, and religious studies, though it is written in a style accessible to anyone interested in a philosophical examination of belief in miracles.

A “winning debut . . . Roe’s story feels just right for our desperate and despairing time, when a miracle—any miracle—will do” (Kirkus Reviews, starred review). The crowds keep coming. They arrive, all with their own reasons, with doubt or certainty or something in between. More and more arrive every day, drawn by rumor and whisper and desperate wish. They come to Shaker Street to see eight-year-old Anabelle Vincent, who lies in a coma-like state—unable to move or speak. They come because a visitor experienced what seemed like a miracle, and believed it happened because of Anabelle. Word spreads. There are more visitors, more supposed miracles, more stories on TV and the internet. But it is this the divine at work or something else? A finalist for the Los Angeles Times An Seidenbaum Award for First Fiction, “The Miracle Girl is more than an exploration of the mysteries of faith. It’s also the unforgettable story of one family’s struggle against tragedy. The result is an uplifting miracle of a book” (Will Allison, author of *Long Drive Home*). “[A]n assured debut . . . Overfamiliarity has diluted the significance of the word ‘miracle’—used to describe diets, cures, even sandwich spread—but Roe suggests that the miraculous is a perpetual human craving. The Miracle Girl is a hopeful meditation on the mysteries of faith.”—The New York Times Book Review

Heartwarming and Heart-Opening Stories Gathered from Decades of Medical Practice Bernie Siegel first wrote about miracles when he was a practicing surgeon and founded Exceptional Cancer Patients, a groundbreaking synthesis of group, individual, dream, and art therapy that provided patients with a “carefrontation.” Compiled during his more than thirty years of practice, speaking, and teaching, the stories in these pages are riveting, warm, and belief expanding. Their subjects include a girl whose baby brother helped her overcome anorexia, a woman whose cancer helped her heal by teaching her to stand up for herself, and a family that was saved from a burning house by bats. Without diminishing the reality of pain and hardship, the stories show real people turning crisis into blessing by responding to adversity in ways that empower and heal. They demonstrate what we are capable of and show us that we can achieve miracles as we confront life’ s difficulties.

When thirteen-year-old Dina emigrates from Germany to America in 1871, her only wish is to return home, but as the months pass while she lives with her uncle and his family, she finds herself thinking of Brooklyn as her home.

New York Times bestseller: *The true story of the WWII naval battle portrayed in the Roland Emmerich film is “something special among war histories” (Chicago Sun-Times). Six months after Pearl Harbor, the seemingly invincible Imperial Japanese Navy prepared a decisive blow against the United States. After sweeping through Asia and the South Pacific, Japan’s military targeted the tiny atoll of Midway, an ideal launching pad for the invasion of Hawaii and beyond. But the US Navy would be waiting for them. Thanks to cutting-edge code-breaking technology, tactical daring, and a significant stroke of luck, the Americans under Adm. Chester W. Nimitz dealt Japan’s navy its first major defeat in the war. Three years of hard fighting remained, but it was at Midway that the tide turned. This “stirring, even suspenseful narrative” is the first book to tell the story of the epic battle from both the American and Japanese sides (Newsday). Miracle at Midway reveals how America won its first and greatest victory of the Pacific war—and how easily it could have been a loss.*

In this “brave and heartbreaking novel that digs its claws into you and doesn’t let go, long after you’ve finished it” (Anna Todd, *New York Times* bestselling author) from the #1 *New York Times* bestselling author of *All Your Perfects*, a workaholic with a too-good-to-be-true romance can’t stop thinking about her first love. Lily hasn’t always had it easy, but that’s never stopped her from working hard for the life she wants. She’s come a long way from the small town where she grew up—she graduated from college, moved to Boston, and started her own business. And when she feels a spark with a gorgeous neurosurgeon named Ryle Kincaid, everything in Lily’s life seems too good to be true. Ryle is assertive, stubborn, maybe even a little arrogant. He’s also sensitive, brilliant, and has a total soft spot for Lily. And the way he looks in scrubs certainly doesn’t hurt. Lily can’t get him out of her head. But Ryle’s complete aversion to relationships is disturbing. Even as Lily finds herself becoming the exception to his “no dating” rule, she can’t help but wonder what made him that way in the first place. As questions about her new relationship overwhelm her, so do thoughts of Atlas Corrigan—her first love and a link to the past she left behind. He was her kindred spirit, her protector. When Atlas suddenly reappears, everything Lily has built with Ryle is threatened. An honest, evocative, and tender novel, *It Ends with Us* is “a glorious and touching read, a forever keeper. The kind of book that gets handed down” (*USA TODAY*).

When Christ Touches Our Deepest Need

A raccion bite on the arm doesn’t seem that serious, but it soon becomes a life-or-death medical crisis for Melissa Loomis. After days of treatment for recurring infection, it becomes obvious that her arm must be amputated. Dr. Ajay Seth, the son of immigrant parents from India and a local orthopaedic surgeon in private practice, performs his first-ever amputation procedure. In the months that follow, divine intervention, combined with Melissa’s determination and Dr. Seth’s disciplined commitment and dedication to his patients, brings about the opportunity for a medical breakthrough that will potentially transform the lives of amputees around the world. Rewired is the inspirational, miraculous story of Dr. Seth’s revolutionary surgery that allows Melissa to not just move a prosthetic arm simply by thinking, but to actually feel with the prosthetic hand, just as she would with her natural arm. This resulted in what others have recognized as the world’s most advanced amputee, all done from Dr. Seth’s private practice in a community hospital, using a local staff, and with no special training or extensive research funding.
