

By The Ionian Sea

Presents a thematic collection of papers dealing with the Stone Age and Bronze Age archaeology of the Ionian Sea, situated off the south western Balkan peninsula. It is based on an international conference held in Athens, Greece in January 2020. The eastern Ionian occupies a geographically complex area, which since the Pleistocene has undergone significant alterations due to tectonic activity and sea-level fluctuations. This dynamic environment, where islands, mainland, and sea intertwined to present different landscapes and seascapes to the human communities exploring the region at different times in the past, provides an ideal setting for their study from a diachronic perspective. This book deals thematically with the processes of circulation of people, materials, artifacts and ideas by examining patterns of settlement, burial and multi-layered interconnections between the different communities via land and sea. It investigates aspects of regional and interregional communication, isolation, collective memory and the creation of distinct identities within and between different cultural and social groups. It focuses on the islands of the Central Ionian Sea, offering new data from excavations and surveys on Zakynthos, Kefalonia, Ithaki and the smaller islands of the Inner Ionian Archipelago between Lefkada and Akarnania. The cultural interchange between the islands and the continental coasts is reflected in the volume with the addition of chapters dealing with contemporary sites in west Greece and southeast Italy. The Ionian, often regarded as 'at the fringes' of the Aegean, the Balkan and the central Mediterranean archaeological

discourse, has lately offered new and exciting data that not only enrich but also alter our perceptions of mobility, settlement and interaction. The collection of papers in this book enhances theoretical discussions by offering a geographically and culturally comparative approach, ranging from the earliest Palaeolithic evidence of human presence in the region to the end of the Bronze Age.

Excerpt from *By the Ionian Sea: Notes of a Ramble in Southern Italy* This is the third day of sirocco, heavy-clouded, sunless. All the colour has gone out of Naples; the streets are dusty and stifling. I long for the mountains and the sea. To-morrow I shall leave by the Messina boat, which calls at Paola. It is now more than a twelvemonth since I began to think of Paola, and an image of the place has grown in my mind. I picture a little marina; a yellowish little town just above; and behind, rising grandly, the long range of mountains which guard the shore of Calabria. Paola has no special interest that I know of, but it is the nearest point on the coast to Cosenza, which has interest in abundance; by landing here I make a modestly adventurous beginning of my ramble in the South. At Paola foreigners are rare; one may count upon new impressions, and the journey over the hills will be delightful. Were I to lend ear to the people with whom I am staying, here in the Chiatamone, I should either abandon my project altogether or set forth with dire misgivings. By the Ionian Sea, by George Gissing a Novel (World's Classics)

Notes of a Ramble in Southern Italy - Primary Source Edition

By the Ionian Sea Orig Pub 1901

*In 1897 the Victorian novelist George Gissing undertook a brief but eventful journey in southern Italy. His itinerary took him from Naples to Reggio di Calabria, via Paola, Cosenza, Crotona and Squillace, through the area once known as Magna Graecia. Meditating on the vestiges of Greco-Roman civilization, Gissing visited tombs and temples, museums and cathedrals, in search of the imprint of antiquity and that old world which was the imaginative delight of my boyhood. The result was *By the Ionian Sea*, first published in 1901. Gissing's journey by boat, train, and carriage revealed not just the ruined glories of a classical past, but also the hardships of rural life in turn-of-the-century rural Italy.*

Meeting poverty-stricken peasants and corrupt local officials, he endured discomfort, danger and illness in a remote and little visited corner of Europe. Yet throughout he appreciated the warmth and generosity shown to him by local people, curious about this solitary stranger. By turns lyrical and melancholic, Gissing's masterpiece of travel writing alternates between light and dark, life and death, Paganism and Christianity. Looking at Italy in both its classical and contemporary dim

Here is the book in which Gissing, for once, turned away from the sombre and care-laden scenes that dominated his outlook as a novelist, and painted at first hand a picture of that classic South whose art

and literature and living sense of beauty were the hidden mainspring of his being. Appreciation of Gissing's genius is steadily growing, and these finely polished sketches of travel reflect an essential part of his experience. With an Introduction by Virginia Woolf

Notes of a Ramble in Southern Italy

By the Ionian Sea ... With an Introduction by Virginia Woolf

George Gissing was an English novelist, who wrote twenty-three novels between 1880 and 1903. Although his early works are naturalistic, he developed into one of the the most accomplished realists of the late-Victorian era. Born in Wakefield, Yorkshire, to lower-middle class parents, Gissing went on to win a scholarship to Owens College, the present day University of Manchester. A brilliant student, he excelled at university, winning many coveted prizes, including the Shakespeare prize in 1875. Between 1891 and 1897 (his so-called middle period) he produced his best works, which include New Grub Street, Born in Exile, The Odd Women, In the Year of Jubilee, and The Whirlpool. The middle years of the decade saw his reputation reach new heights: by some critics he is

counted alongside George Meredith and Thomas Hardy as one of the best three novelists of his day. He also enjoyed new friendships with fellow writers such as Henry James, and H.G. Wells, and came into contact with many other up and coming writers such as Joseph Conrad and Stephen Crane. In the winter of 1897-1898, Victorian writer George Gissing made a well-chronicled journey throughout southern Italy. The result was a book, *By the Ionian Sea*, in which he detailed the influence of ancient Greece on the peninsula and contrasted the glory of Greece and its magnificent cities to the southern Italy of the late 1800s. The book was published in 1901 and has since become a classic in travel literature. A hundred years later, award-winning newspaper journalist John Keahey sets off to retrace Gissing's footsteps. His goal is to compare and contrast the two Italys, seeing first-hand all the changes that have occurred over the past century. He explores the outdoor markets in Naples, journeys to the charming coastal town of Paola, takes a train ride out of the Calabrian mountain town of Cosenza and into the port city of Taranto, and makes his way down to Reggio at the toe of Italy's boot. Along the route, he visits modern-day Crotona, the

Ionian coastal city that was famous in antiquity as the place where Pythagoras had his school, as well as where Hannibal, pursued for 15 years along the length of Italy by the Romans, embarked in shame for Carthage (now in modern-day Tunisia). Going beyond Gissing's journey, Keahey also makes an additional stop at Sibari near where the site of ancient Sybaris has been partially excavated. From train rides through the lush countryside to the crisp mountain air of Catanzaro, Keahey paints a beautiful and compelling picture of one of the lesser known parts of the country. A Sweet and Glorious Land is not only a wonderful travelogue but also an intriguing story of southern Italy and its people.
