Alfonso Reyes (1889-1959) was the embodiment of the Latin American poet, essayist, and literary theorist during the first half of the century. With an astonishing intellectual curiosity and capacity for work, he thought and wrote about every important topic and major intellectual current that defined his beleaguered times. This collection recovers Reyes' legacy from the standpoint of the twenty-first century with essays written exclusively for this book by scholars from Colombia, Croatia, Cuba, France, Mexico, and the United States. They analyze Reyes' poetry and essays from contrasting theoretical approaches and innovative readings of his major poetic works; his philosophical correspondence with leading European and Mexican writers; modernism in the Anglo-American and Latin American essay tradition; and, among other topics of interest, the idea of America and cosmopolitanism in his essays. The volume includes a full-length introduction, an interview with Latin American poet and essayist Octavio Armand, and English translations of Armand's poems. The study is of significant value to scholars, teachers, students, and the general reader interested in a seminal writer who shaped the writing of poetry and the Latin American letters during the first half of the twentieth century.

***This book charts the entrance of women into public writing in the culturally vibrant world of late eighteenth-century Germany. It gives an absorbing account of the failed autobiography of Friderika Baldinger; the successful fiction, disguised self-narratives, and innovative monthly of Sophie La Roche; the praised poetry of Philippine Englehard; the controversial journalism and novels of Marianne Ehrmann; and the poems and prose about love and suicide by Sophie Albrecht. The book offers a feminist reassessment of the relationship of texts by these eighteenth-century German women writers to traditional literary history and traces how the women changed the cultural discourse of their day.***

**This book is about permissive consent—the moral tool we use to give another person permission to do what would otherwise be forbidden. For instance, consent to enter my home gives you permission to do what would otherwise be trespass. This transformation is the very thing that philosophers identify as consent—which is why we call it a normative power. It is something individuals can do, by choice, to change the moral or legal world. But what human acts or attitudes render consent? When do coercive threats, offers, or lies undermine the transformative power of consent? What intentions or conventions are necessary to render consent meaningful? This book develops a novel theory that explains the moral features of consent in some of the most central domains of human life—but that also serves as a study in how to theorize normative power. It argues that consent is a moral mechanism with exactly the set of features that, when triggered, prevents another person's behavior from constituting a certain kind of wrongdoing. What kind of wrongdoing? It depends on what sort of permission is being granted. Sometimes consent permits others to enter, occupy, or act within**

**some bounded domain wherein the consent-giver holds moral authority. In these cases, consent operates to prevent what the book calls: Invasive Wrongdoing. By identifying the moral features that underlie this special wrongdoing, we can learn what it takes to render consent.**

**NEW YORK TIMES BESTSELLER** • The first definitive history of the Mossad, Shin Bet, and the IDF's targeted killing programs, hailed by *The New York Times* as "an exceptional work, a humane book about an incendiary subject." **WINNER OF THE NATIONAL JEWISH BOOK AWARD IN HISTORY NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY JENNIFER SZALAI, THE NEW YORK TIMES NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Economist** • *The New York Times Book Review* • *BBC History Magazine* • *Mother Jones* • *Kirkus Reviews* *The Talmud* says: "If someone comes to kill you, rise up and kill him first." This instinct to take every measure, even the most aggressive, to defend the Jewish people is hardwired into Israel's DNA. From the very beginning of its statehood in 1948, protecting the nation from harm has been the responsibility of its intelligence community and armed services, and there is one weapon in their vast arsenal that they have relied upon to thwart the most serious threats: Targeted assassinations have been used countless times, on enemies large and small, sometimes in response to attacks against the Israeli people and sometimes preemptively. In this page-turning, eye-opening book, journalist and military analyst Ronen Bergman—praised by David Remnick as "arguably [Israel's] best investigative reporter"—offers a riveting inside account of the targeted killing programs: their successes, their failures, and the moral and political price exacted on the men and women who approved and carried out the missions. Bergman has gained the exceedingly rare cooperation of many current and former members of the Israeli government, including Prime Ministers Shimon Peres, Ehud Barak, Ariel Sharon, and Benjamin Netanyahu, as well as high-level figures in the country's military and intelligence services: the IDF (Israel Defense Forces), the Mossad (the world's most feared intelligence agency), Caesarea (a "Mossad within the Mossad" that carries out attacks on the highest-value targets), and the Shin Bet (an internal security service that implemented the largest targeted assassination campaign ever, in order to stop what had once appeared to be unstoppable: suicide terrorism). Including never-before-reported, behind-the-curtain accounts of key operations, and based on hundreds of on-the-record interviews and thousands of files to which Bergman has gotten exclusive access over his decades of reporting, *Rise and Kill First* brings us deep into the heart of Israel's most secret activities. Bergman traces, from statehood to the present, the gripping events and thorny ethical questions underlying Israel's targeted killing campaign, which has shaped the Israeli nation, the Middle East, and the entire world. "A remarkable feat of fearless and responsible reporting . . . important, timely, and informative."—John le Carré
