In the late 1950s, as designers from the Big Three became more daring, their do-it-yourself counterparts in the custom-car world found that the new designs from Detroit worked exceptionally well with custom treatments like shaving, lowering, "lakes pipes," and the ever-wilder custom painting of the day—aesthetics that would come to dominate this peak custom car era. Professional freelance photographer James Potter captured the epicenter of this landmark scene in what was then suburban Los Angeles. In this photographic history of that time and place, Thom Taylor presents the best of Potter's collection depicting the cars of "Kustomland." Two- and four-page features on two-dozen renowned customs from mild to radical feature not only Potter's exemplary work, but brief capsule histories of the cars and their owners and captions detailing the cars' features. Taylor also includes features on legendary custom painter Larry Watson and the Renegades car club, as well as a biography of Potter and a historic overview of Kustomland and the areas it encompassed. A dispirited small town in Georgia believes it lives under a curse that was conjured by the town's founding father during the Civil War. The people of Fair Haven do not share one another's joys. They do not comfort one another's pains. They barely relate to one another, but for clandestine, they huddle at the back of the nights quiet. They have never learned to rally around their own. Or have they? They agree on one thing: there are monsters in the woods. An agent of US Fish and Wildlife, Causey Bentz, has set up camp in the neck of the woods before and seems to be as interested in the bigfoot on the mountain as the citizens are prepared to pretend it does not exist, for the last thing they intend to be is having backwoods fodder as a punch line for the world's disbelief in mysterious things. The local pastor uncovers a rich vein of civic pride and indiscreet support within tattered linking of folks and is pressed into service as an undersheriff. If the people will not attend Sunday services, the sanctuary will come to them. Father Chad, as they have come to call him, makes house calls. Polly Mankiller, the sheriff, attempts to balance the spiritual keel of the town that is seeing young folks drop off the rolls forever, for a scourge of poison in the form of recreational boredoms first casualty is killing them. A biblical reign of weather draws the world's focus on a town that only wanted to be left alone. In a time when people are increasingly alienated, what first appears to have been parts of a cosmic mockery shows increasingly to be blessings of a merciful god. Slowly the people come to recognize their need for one another. Mr. Blackburn, known affectionately as Blackie, is the unofficial mayor of the town and somewhat of an old-style fixer. He is one of the few men in the town to have grown up without a father and whose life dramatizes the fact that not all poverty is rooted in the lack of material things. Fair Haven depends on Blackie's masterful but understated grip on the town, but to whom will he lean as spiritual decay gnaws at him from the inside? Is Bigfoot a descendant of Gigantopithecus blacki? A relict hominoid? A Heidelbergensis? Will Blackie help to hold together a town that seems primed to implode under the weight of meteorological oddities and strange creatures at the edge of the woods? Sometimes, it is enough to believe in those who believe.

The Vietnam War featured political upheavals, battle tactics, and lots of publicity. But underneath all that were everyday people whose lives were forever altered by three decades of fighting. In this memoir, author Don Lao looks back at what the people of Vietnam went through. This account of how his family went from living an honest and simple life to losing everything in a harrowing war that engulfed Southeast Asia. Lao lived an idyllic childhood with his parents, eight brothers, and four sisters, but he was eventually swept into the South Vietnamese army. Although he was born in Vietnam, he was Chinese in heritage—and so he was always treated like a foreigner, even when he was fighting communists. When Saigon fell, he sought a better life, leading him to a cargo ship along with other refugees who became known as the boat people. Their path to America was the first step in finding better lives and reconnecting with loved ones. Their tenacity and resiliency earned them the ultimate freedom as Americans living the American dream.

The author contradicts the concept that man is limited. He argues that since man is a creation of an unlimited God, then any limits on man's own barriers. (Practical Life)

In an age of unbridled American enthusiasm and towering industrial might, the GM Motorama was a dazzling and elegant show that was unlike any automotive event before it or since. General Motors staged extravagant and elaborate Motorama shows that rivaled some fashion shows. It showcased some of the most revolutionary and innovative prototype and dream cars ever built. And it captured the imagination of the car-buying public from 1950 to 1961. Motorama expert and experienced author David Temple has comprehensively researched the show, the cars, and the personalities to create a fascinating new story with many new photos of these magnificent cars. Because television was in its infancy, GM's President Alfred Sloan believed that the Motorama was the most effective way to market GM products and design prowess. Legendary stylist Harley Earl led a talented group of designers and engineers to dream up, style, and develop some of the most remarkable prototype cars of all time. While current production Buick, Chevy, Cadillac, and Pontiac cars were showcased, the bold, radical, awe-inspiring prototype and dream cars stole the show. These included the GM Le Sabre, replete with aerospace design and an aluminum engine; the fiberglass-bodied Corvette dream car, which went into production after overwhelmingly positive response; and the jet engine-powered Firebird. Temple goes into fascinating detail on the body, frame, engine, drivetrain, and all the special features of each model. He has also retraced the ownership histories of some of these cars. Within the pages of this volume, you get to relive this glorious era of automotive history and revisit the advanced show cars that inspired so many new models. This book features fascinating period photography of Motorama cars at the show, in development, and at different locales. No other automotive show rivaled the Motorama for stunning productions and awe-inspiring cars, which makes this a must-have book.

Paint Technology for Auto Enthusiasts & Body Shop Professionals

Blacki

*Written with the finger of God nearly 3,500 years ago, the Ten Commandments still provide God's moral standards and principles for worship. While these laws were central to the people of the Old Testament, they remain vital to God's people today. The Ten Commandments is a series of sermons preached from the pulpit of Ashley Baptist Church in Belding, Michigan. These sermons explore several facets of each commandment, and at the same time provide the reader with a big picture statement and point of application. These messages on the Ten Commandments are "profitable" (II Tim.3:16) for practical living, but most importantly, they point to the Jesus Christ as the Savior from sin (Gal.3:24).*
