*Since 1957, Chase's Calendar of Events lists everything worth knowing and celebrating for each day of the year: 12,500 holidays, national days, historical milestones, famous birthdays, festivals, sporting events and more. "The Oxford English Dictionary of holidays." NPR's Planet Money.*

*The Seasons of Buffalo Baseball 1857-2020 is a collaborative efforts that draws from the 1985 book, The Seasons of Buffalo Baseball by Joseph M. Overfield. His son, Jim, updated and revised his dad's book into a richly illustrated, 400-page 8x10-inch book that updates the history of professional baseball in Buffalo through the 2020 season, which was cancelled for the Triple A Bisons because of the COVID-19 but includes a summary of the Toronto Blue Jays' home away from home in Buffalo during the summer because of the pandemic. That marked the return of major league baseball to Buffalo since the city had a franchise in the Federal League in 1905. Part One of the book is a year-by-year summary of each season from 1857 through 2020, complete with the team's manager, league, record, leading hitter, home run hitter and pitcher. Part Two is a collection of stories from Joe and Jim Overfield, Brian M. Frank and Michael J. Billoni, Assistant Editors of the book, along with Paul Langendorfer, Budd Bailey, Mike Harrington of the Buffalo News, Sal Maiorana of Rochester's Democrat and Chronicle and former WGRZ-TV sportscaster Jonah Javad, a sportscaster at WFAA-TV in Dallas, Texas. There are also cartoons illustrated by Mike "Ricig" Ricigliano and more than 200 black and white and color photos. The book honors the memory of Joe Overfield, the former historian of the Buffalo Bisons and a member of the Greater Buffalo and Buffalo Baseball Halls of Fame. It is also a tribute to the resilience of the City of Buffalo and that game that has been part of the city's fabric for more than 160 years. Among those who have written testimonials are John Thorn, official historian of Major League Baseball; Chris Berman, ESPN Sports Broadcaster; Bob Costas, multiple Emmy award-winning sports broadcaster; Ken Rosenthal, baseball writer for The Athletic and Fox Sports and Pete Weber, the Voice of the Nashville Predators of the NHL and the former Voice of the Bisons and Greg Brown, the Voice of the Pittsburgh Pirates and the former Bisons broadcaster.*

*NEW YORK TIMES BEST SELLER • A poignant and hilarious memoir from the cultural icon, gay rights activist, and four-time Tony Award-winning actor and playwright, revealing never-before-told*

*stories of his personal struggles and conflict, of sex and romance, and of his fabled career Harvey Fierstein's legendary career has transported him from community theater in Brooklyn, to the lights of Broadway, to the absurd excesses of Hollywood and back. He's received accolades and awards for acting in and/or writing an incredible string of hit plays, films, and TV shows: Hairspray, Fiddler on the Roof, Mrs. Doubtfire, Independence Day, Cheers, La Cage Aux Folles, Torch Song Trilogy, Newsies, and Kinky Boots. While he has never shied away from the spotlight, Mr. Fierstein says that even those closest to him have never heard most of the tales—of personal struggles and conflict, of sex and romance, of his fabled career—revealed in these wildly entertaining pages. I Was Better Last Night bares the inner life of this eccentric nonconforming child from his roots in 1952 Brooklyn, to the experimental worlds of Andy Warhol and the Theatre of the Ridiculous, to the gay rights movements of the seventies and the tumultuous AIDS crisis of the eighties, through decades of addiction, despair, and ultimate triumph. Mr. Fierstein's candid recollections provide a rich window into downtown New York City life, gay culture, and the evolution of theater (of which he has been a defining figure), as well as a moving account of his family's journey of acceptance. I Was Better Last Night is filled with wisdom gained, mistakes made, and stories that come together to describe an astonishingly colorful and meaningful life. Lucky for us all, his unique and recognizable voice is as engaging, outrageously funny, and vulnerable on the page.*

*Il volume XLVIII (2021) è suddiviso, come di consueto, in tre sezioni, Saggi, Notizie scavi e lavori sul campo e Note e Discussioni. Tra i saggi viene presentato un corposo contributo su S. Sisto Project (Pisa) a cura di F. Cantini. J. Celani pubblica un contributo sulle città dell'Umbria nel primo alto Medioevo, mentre M. Randazzo presenta uno studio sulla transizione bizantino-islamica nell'area di Enna. Conclude il volume la sezione Recensioni e segnalazioni. La sezione dedicata alle notizie degli scavi contiene un contributo sullo scavo della pieve di Santa Maria in Castello a Toano (dal cimitero alla torre di età comunale) (N. Mancassola), un secondo articolo è incentrato sulle indagini archeologiche della fortezza bizantina di Luni (A. Cagnana et al.), mentre un testo a cura di F. Cantini riporta nuovi dati sull'area della corte regia di Lucca e sulla zecca urbana; conclude la sezione il consueto spazio dedicato al Bacino del Mediterraneo con un contributo sul popolamento e l'organizzazione territoriale di Hisn Salama (Libia) (H. Abdouli). La Sezione Note e Discussioni accoglie contributi che hanno per tema l'archeologia del territorio e delle strutture murarie come ad esempio la cronologia e l'analisi funzionale*

*del Castello di Comiso (G. Labisi) e le analisi territoriali di Salpi nella Capitanata (R. Goffredo, A. Cardone). Altri temi trattati riguardano le analisi dei materiali: la ceramica tra la tarda Antichità e l'alto Medioevo a Perugia (L. Ceccarelli); i segni graffiti sulla pietra ollare (M. Cortelazzo); le analisi archeobotaniche del lino nel contesto bizantino di Rocchicella di Mineo (A.M. Grasso et al.). Il contributo di A. Cianciosi affronta il tema del "pozzo alla veneziana" e l'approvvigionamento idrico nella laguna di Venezia. Conclude la sezione un articolo su Madaba in Giordania attraverso i resoconti dei primi esploratori (A. Pascolini) e una nota preliminare sul porto di Madayi (Kerala, India) e il commercio post-classico nell'Oceano Indiano fra tarda Antichità e Medioevo (V. La Salvia, M. Moderato, D.V. Hill).*

Starting with Volume 13, the renowned series of books from the Medieval Studies Institute of the University of Fribourg, Switzerland, is being published by Walter de Gruyter. The series presents a high-quality scholarly forum for interdisciplinary research in medieval studies. Its mission is to advance understanding of medieval literature, philosophy and art through soundly based research contributions. Apart from the volumes of proceedings of the biennial interdisciplinary Fribourg Colloquia, the SCRINIUM FRIBURGENSE series produces monographs from specific subject areas or from combinations of medieval subject areas represented in the Institute, i.e. general history, art history and the history of philosophy, Early Christian and Byzantine archaeology, and medieval literatures in Latin and the vernaculars. The studies contained in SCRINIUM FRIBURGENSE are distinguished by their continuation of well-established traditions of research, by the plurality of their methods, by the innovativeness of the questions posed and by their transdisciplinary methodological approach. The series is, of course, open to manuscripts from external scholars on problems of medieval research which match the profile of the series.

Lunar Abundance is a beautiful and practical guide for today's women on cultivating peace, purpose, and abundance in both their personal and professional lives, guided by the phases of the moon. In a world in which women feel increasingly disconnected-from their inner selves, each other, and the world, Lunar Abundance offers a path to reconnection, with results that you can actually see. It shows how by tuning into the natural rhythm of lunar ebbs and flows, you can connect with work, relationships, your body, and surroundings on a higher level than ever before, becoming more productive and self-aware in the process. Filled with inspirational photography and interactive features, it's also a practical guide to self-care that will help you summon your true potential and create a better life for you and for those in your orbit. This

beautiful book is perfect for any woman seeking holistic wellness and unique inspiration to feed mind, body, and soul.

Meet new and old friends as the Ponies show you around Sugarcube Corner, the home of the Mane 6's magical mishaps. My Little Pony: Pony Life Meet the Ponies is a My First I Can Read, perfect for shared reading with a child.

It's time to go back to basics! If you're interested in art, but find that it's becoming an increasingly expensive hobby, *The Organic Artist* is just the book for you! *The Organic Artist* encourages you to return to those days when art was made with all-natural materials, like charcoal and birch bark. Immersing you in the natural world, *The Organic Artist* seeks to inspire creativity by connecting you to your organic roots. In addition to offering a wide variety of suggestions for using nature as supplies for art, this book also introduces the concepts of awareness and perception that are foundational to the creative process. Readers will refine drawing skills, as well as increase their appreciation for the visual arts and the natural landscape. Some of the projects and skills covered include the following: making paper and wild ink, working with soapstone, clay, wood, and rawhide, printmaking and stenciling, natural pigments and dyes, camouflage and body painting, and nature journaling.

This text provides an important overview of the contributions of edible insects to ecological sustainability, livelihoods, nutrition and health, food culture and food systems around the world. While insect farming for both food and feed is rapidly increasing in popularity around the world, the role that wild insect species have played in the lives and societies of millions of people worldwide cannot be ignored. In order to represent this diversity, this work draws upon research conducted in a wide range of geographical locations and features a variety of different insect species. *Edible Insects in Sustainable Food Systems* comprehensively covers the basic principles of entomology and population dynamics; edible insects and culture; nutrition and health; gastronomy; insects as animal feed; factors influencing preferences and acceptability of insects; environmental impacts and conservation; considerations for insect farming and policy and legislation. The book contains practical information for researchers, NGOs and international organizations, decision-makers, entrepreneurs and students.

Medical device regulation in Asia has gained more importance than ever. Governments and regulatory bodies across the region have put in place new regulatory systems or refined the existing ones. A registered product requires a lot of technical documentation to prove its efficacy, safety, and quality. A smooth and successful registration process demands soft skills for dealing with various key stakeholders in the government, testing centers, and hospitals and among doctors. This handbook covers medical device regulatory systems in different countries, ISO standards for medical devices, clinical trial and regulatory requirements, and documentation for application. It is the first to cover the medical device regulatory affairs in Asia. Each chapter provides substantial background materials relevant to the particular area to have a better understanding of regulatory affairs.

The Seasons of Buffalo Baseball 1857-2020

La vida del primer hombre que pisó la Luna y la historia del hito que marcó la humanidad y la carrera espacial. Cuando el Apolo 11 aterrizó en la Luna en 1969, el primer hombre en dejar su huella en la superficie se convirtió en leyenda. Basado en material exclusivo compuesto por más de cincuenta horas de grabaciones privadas con Neil Armstrong, documentos personales y entrevistas con familiares cercanos, James Hansen logra una magnífica panorámica de la segunda mitad del siglo XX además de elaborar una biografía inigualable sobre uno de los protagonistas incontables de la historia reciente. En una penetrante exploración del culto al héroe estadounidense, Hansen aborda el complejo legado del Primer Hombre, como astronauta y como individuo. En este libro la intimidad, la ciencia y la épica se entremezclan para formar el retrato de un héroe rebelde que siempre será conocido como el viajero espacial más famoso de la historia. La crítica ha dicho... «El historiador James Hansen combina hábilmente la saga de Armstrong con el trasfondo histórico de la introducción de América a la Era del Espacio. Un libro excelente.» Capitán James A. Lovell, comandante del Apolo 13 «Esta impresionante biografía, bien documentada y apasionantemente escrita, superará la prueba del inexorable paso del tiempo.» Library Journal «Una biografía poderosa e implacable de un hombre que es la personificación de la fuerza de carácter y la determinación cotidiana [...]. Una lectura obligada para los adoradores del mundo espacial y los lectores de historia por igual.» Publishers Weekly

**Capoeira is simultaneously a dance, a fight, and a game. Created by the Africans brought to Brazil as slaves beginning in 1500, capoeira was forbidden by law but survived underground. When open practice was allowed in the 1930s it soon became very popular. Capoeira came to America around 1975, and has become widely recognized by dancers and martial artists. The author discusses capoeira's evolution from Brazilian street play into a way of life. The philosophy of capoeira, and the practical and spiritual benefits of this philosophy, are also discussed. Instructions and exercises in intermediate and advanced skills take up where the author's previous book left off. The book includes 100 black-and-white photos and illustrations.**

Durante muchas décadas, la economía Argentina se ha visto frenada por la debilidad de las políticas adoptadas y la productividad se ha estancado. A mediano plazo, las reformas recientemente iniciadas así como reformas adicionales contribuirán a aumentar la prosperidad de todos los argentinos. Fortalecer la competencia reduciendo barreras de entrada a los mercados y reduciendo barreras al comercio internacional tiene un potencial particularmente prometedor.

This award winning interdisciplinary guide for teachers, administrators, students, and parents offers lessons and readings that show how to: ~ Analyze the roots of racism ~ Investigate the impact of racism on all our lives, our families, and our communities ~ Examine the relationship between racism and other forms of oppression such as sexism, classism, and heterosexism ~ Learn to work to dismantle racism in our schools, communities, and the wider society. *Beyond Heroes and Holidays* has sold over 45,000 copies to date and is used as a core curriculum in college courses. Beat the odds with a bold strategy from McKinsey & Company "Every once in a while, a genuinely fresh approach to business strategy appears" – legendary business professor Richard Rumelt, UCLA McKinsey & Company's newest, most definitive, and most irreverent book on strategy—which thousands of executives are already using—is a must-read for all C-suite executives looking to create winning corporate strategies. *Strategy Beyond the Hockey Stick* is spearheading an empirical revolution in the field of strategy. Based on an extensive analysis of the key factors that drove the long-term performance of thousands of global companies, the book offers a ground-breaking formula that enables you to objectively assess your strategy's real odds of future success. "This book is fundamental. The principles laid out here, with compelling data, are a great way around the social pitfalls in strategy development." — Frans Van Houten, CEO, Royal Philips N.V. The authors have discovered that over a 10-year period, just 1 in 12 companies manage to jump from the middle tier of corporate performance—where 60% of companies reside, making very little economic profit—to the top quintile where 90% of global economic profit is made. This movement does not happen by magic—it depends on your company's current position, the trends it faces, and the big moves you make to give it the strongest chance of vaulting over the competition.

This is not another strategy framework. Rather, *Strategy Beyond the Hockey Stick* shows, through empirical analysis and the experiences of dozens of companies that have successfully made multiple big moves, that to dramatically improve performance, you have to overcome incrementalism and corporate inertia. "A different kind of book—I couldn't put it down. Inspiring new insights on the facts of what it takes to move a company's performance, combined with practical advice on how to deal with real-life dynamics in management teams." —Jane Fraser, CEO, Citigroup Latin America

*Elemental Witchcraft* shares a wholly unique esoteric approach to developing partnerships with elemental allies and deities and ultimately merging with the Divine Mind. Author Heron Michelle provides dozens of rituals, meditations, spells, and journal reflections as you explore the principles of Hermeticism and the magick of the four classical elements—earth, air, fire, and water. On this journey, you will discover how the chakras and the magickal pentacle correspond to the five bodies: mental, emotional, will, physical, and spiritual. You will also explore how the astrological cycles and the wheel of the year relate to the elements and the witch's tools as well as to the paths of power, truth, sovereignty, and completion. Opening the elemental gateways and developing relationship with the goddesses and gods can be profoundly transformative work—this book guides you through this subtle path as you learn to balance the magickal elements and construct your own astral temples at the crossroads of the Self.
