new vocabulary the traditional way. This book will make your learning more efficient with less of your own effort, which means more spare time to review other concepts. This is not just a regular dictionary with a bunch of words. In this little vocabulary you can find only the most necessary C2 English level definitions. Knowing these words will help you pass all the relevant tests and exams, and will definitely surprise your examiner, in a good way.

Bestselling author Alain de Botton considers how our private homes and public edifices influence how we feel, and how we could build dwellings in which we would stand a better chance of happiness. In this witty, erudite look at how we shape, and are shaped by, our surroundings, Alain de Botton applies Stendhal's motto that "Beauty is the promise of happiness" to the spaces we inhabit daily. Why should we pay attention to what architecture has to say to us? de Botton asks provocatively. With his

trademark lucidity and humour, de Botton traces how human needs and desires have been served by styles of architecture, from stately Classical to minimalist Modern, arguing that the stylistic choices of a society can represent both its cherished ideals and the qualities it desperately lacks. On an individual level, de Botton has deep sympathy for our need to see our selves reflected in our surroundings; he demonstrates with great wisdom how buildings — just like friends — can serve as

guardians of our identity. Worrying about the shape of our sofa or the colour of our walls might seem self-indulgent, but de Botton considers the hopes and fears we have for our homes at a new level of depth and insight. When shopping for furniture or remodelling the kitchen, we don't just consider functionality but also the major questions of aesthetics and the philosophy of art: What is beauty? Can beautiful surroundings make us good? Can beauty bring happiness? The buildings we find

beautiful, de Botton concludes, are those that represent our ideas of a meaningful life. The Architecture of Happiness marks a return to what Alain does best – taking on a subject whose allure is at once tantalizing and a little forbidding and offering to readers a completely beguiling and original exploration of the subject. As he did with Proust, philosophy, and travel, now he does with architecture. ...and death came third! The definitive guide to networking and speaking in

public. Do you dread going to networking events? Do you hide at the back of the room when you have the opportunity to present your business? In 1984 a New York Times Survey on Social Anxiety placed death third in the list of people's biggest fears. The top two responses were walking into a room full of strangers and speaking in public. Facing these two fears head on, '...and death came third!' rocketed straight to Number Two on the Amazon UK bestseller lists on publication of its First

Edition in 2006. Since then thousands of people have turned to its pages to help them network and present with much more confidence. In this updated second edition you can discover how to: Walk into a networking event and approach people with CONFIDENCE, STRUCTURE a talk so that you can get your key message across POWERFULLY, ENGAGE people in conversation and get them interested in YOU, FOCUS on the results you want from networking and achieve them EASILY,

In this sumptuously illustrated book, Joan Breton Connelly gives us the first comprehensive cultural history of priestesses in the ancient Greek world. Connelly presents the fullest and most vivid picture yet of how priestesses lived and worked, from the most famous and sacred of them--the Delphic Oracle and the priestess of Athena Polias--to basket bearers and handmaidens. Along the way, she challenges long-held beliefs to show that priestesses played far

more significant public roles in ancient Greece than previously acknowledged. Connelly builds this history through a pioneering examination of archaeological evidence in the broader context of literary sources, inscriptions, sculpture, and vase painting. Ranging from southern Italy to Asia Minor, and from the late Bronze Age to the fifth century A.D., she brings the priestesses to life--their social origins, how they progressed through many sacred roles on the path to priesthood, and even how they dressed. She sheds light on the rituals they performed, the political power they wielded, their systems of patronage and compensation, and how they were honored, including in

death. Connelly shows that understanding the complexity of priestesses' lives requires us to look past the simple lines we draw today between public and private, sacred and secular. The remarkable picture that emerges reveals that women in religious office were not as secluded and marginalized as we have thought--that religious office was one arena in ancient Greece where women enjoyed privileges and authority comparable to that of men. Connelly concludes by examining women's roles in early Christianity, taking on the larger issue of the exclusion of women from the Christian priesthood.
