The King had a good head on his shoulders—for the moment, anyway. Everyone agreed that King Jorian of Xylar had been a good and just ruler. In fact, many also agreed that, in this case, it was a pity that the laws of Xylar decreed that each randomly chosen King must reign for only five years and then, after due pomp and ceremony, have his head cut off! Understandably, Jorian himself was wholeheartedly in agreement with the second sentiment, so with the help of a spell provided by the wizard Karadur, he escaped from the beheading ceremony with his head still on his shoulders. Unfortunately, his beloved wife, Queen Estrildis, was left behind, and getting her out of Xylar would be anything but simple—particularly with the Royal Guard of Xylar hot on the trail of their fugitive monarch. With Karadur's magic, Jorian might be able to pull off the rescue. But first, he would have to locate a trove of ancient spells, deal with an enemy wizard, steal an item from a 500-year-old (but still beautiful) princess who turns into a giant serpent at inopportune moments, repair the giant tower clocks of Iraz to fulfill a prophecy, break a pirate siege, and finally fly back to Xylar in an enchanted bathtub and whisk away his beloved Estrildis before the Royal Guard notices that their King (not to mention his head) has returned. Then things began to get complicated... At the publisher's request, this title is sold without DRM (Digital Rights Management).

Instant New York Times bestseller “Howard Zinn on acid or some bullsh*t like that.”

—Tim Heidecker The creators of the cult-hit podcast Chapo Trap House deliver a manifesto for everyone who feels orphaned and alienated—politically, culturally, and economically—by the lanyard-wearing Wall Street centrism of the left and the lizard-brained atavism of the right: there is a better way, the Chapo Way. In a guide that reads like “a weirder, smarter, and deliciously meaner version of The Daily Show’s 2004 America (The Book)” (Paste), Chapo Trap House shows you that you don’t have to side with either sinking ships. These self-described “assholes from the internet” offer a fully ironic ideology for all who feel politically hopeless and prefer broadsides and tirades to reasoned debate. Learn the “secret” history of the world, politics, media, and everything in-between that THEY don’t want you to know and chart a course from our wretched present to a utopian future where one can post in the morning, game in the afternoon, and podcast after dinner without ever becoming a poster, gamer, or podcaster. A book that’s “as intellectually serious and analytically original as it is irreverent and funny” (Glenn Greenwald, New York Times bestselling author of No Place to Hide) The Chapo Guide to Revolution features illustrated taxonomies of contemporary liberal and conservative characters, biographies of important thought leaders, “never before seen” drafts of Aaron Sorkin’s Newsroom manga, and the ten new laws that govern Chapo Year Zero (everyone gets a dog, billionaires are turned into Soylent, and logic is outlawed). If you’re a fan of sacred cows, prisoners being taken, and holds being barred, then this book is NOT for you. However, if you feel disenfranchised from the political and cultural nightmare we’re in, then Chapo, let’s go...

From one of America’s most respected journalists and modern historians comes the highly acclaimed, “splendid” (The Washington Post) biography of Jimmy Carter, the thirty-ninth president of the United States and Nobel Prize-winning humanitarian. Jonathan Alter tells the epic story of an enigmatic man of faith and his improbable journey from barefoot boy

to global icon. Alter paints an intimate and surprising portrait of the only president since Thomas Jefferson who can fairly be called a Renaissance Man, a complex figure—ridiculed and later revered—with a piercing intelligence, prickly intensity, and biting wit beneath the patented smile. Here is a moral exemplar for our times, a flawed but underrated president of decency and vision who was committed to telling the truth to the American people. Growing up in one of the meanest counties in the Jim Crow South, Carter is the only American president who essentially lived in three centuries: his early life on the farm in the 1920s without electricity or running water might as well have been in the nineteenth; his presidency put him at the center of major events in the twentieth; and his efforts on conflict resolution and global health set him on the cutting edge of the challenges of the twenty-first. “One of the best in a celebrated genre of presidential biography,” (The Washington Post), *His Very Best* traces how Carter evolved from a timid, bookish child—raised mostly by a Black woman farmhand—into an ambitious naval nuclear engineer writing passionate, never-before-published love letters from sea to his wife and full partner, Rosalynn; a peanut farmer and civic leader whose guilt over staying silent during the civil rights movement and not confronting the white terrorism around him helped power his quest for racial justice at home and abroad; an obscure, born-again governor whose brilliant 1976 campaign demolished the racist wing of the Democratic Party and took him from zero percent to the presidency; a stubborn outsider who failed politically amid the bad economy of the 1970s and the seizure of American hostages in Iran but succeeded in engineering peace between Israel and Egypt, amassing a historic environmental record, moving the government from tokenism to diversity, setting a new global standard for human rights and normalizing relations with China among other unheralded and far-sighted achievements. After leaving office, Carter eradicated diseases, built houses for the poor, and taught Sunday school into his mid-nineties. This “important, fair-minded, highly readable contribution” (The New York Times Book Review) will change our understanding of perhaps the most misunderstood president in American history.

The four sisters run long cons, targeting wealthy, prominent business figures. They have a system: Find the perfect mark, create the problem, then present the solution. For a cost... Sutton “Sutty” LaCroix, the eldest sister and an accomplished business maven, sits on the family throne as the CEO of the LaCroix Group and is the face of their operation. No one is as good as Sutton when it comes to finding new prey. However, when Sutton meets West, a young, black oil tycoon—a man who represents a life she and her sisters vowed never to live—she breaks all the rules. The LaCroix sisters have a pact: to never settle down and leave roots in one place. But Sutton falls in love with West's good looks, charm, and old money. This means that West is a problem. Yali's Question is the story of a remarkable physical and social creation—Ramu Sugar Limited (RSL), a sugar plantation created in a remote part of Papua New Guinea. As an embodiment of imported industrial production, RSL's smoke-belching, steam-shrieking factory and vast fields of carefully tended sugar cane contrast sharply with the surrounding grassland. RSL not only dominates the landscape, but also shapes those culturally diverse thousands who left their homes to work there. To understand the creation of such a startling place, Frederick Errington and Deborah Gewertz explore the perspectives of the diverse participants that had a hand in its creation. In examining these views, they also consider those of Yali, a local Papua New Guinean political leader. Significantly, Yali features not only in the story of RSL, but also in Jared Diamond's Pulitzer Prize winning world history *Guns, Germs, and Steel*—a history probed through its contrast with RSL's. The authors' disagreement with Diamond stems, not from the generality of his focus and the specificity of theirs, but from a difference in view about how history is made—and from an insistence that those with power be held accountable for affecting history.

The captivating story of the family behind the Cartier empire and the three brothers who turned their grandfather's humble Parisian jewelry store into a global luxury icon--as told by a great-granddaughter with exclusive access to long-

lost family archives "Ms. Cartier Brickell has done her grandfather proud."--The Wall Street Journal The Cartiers is the revealing tale of a jewelry dynasty--four generations, from revolutionary France to the 1970s. At its heart are the three Cartier brothers whose motto was "Never copy, only create" and who made their family firm internationally famous in the early days of the twentieth century, thanks to their unique and complementary talents: Louis, the visionary designer who created the first men's wristwatch to help an aviator friend tell the time without taking his hands off the controls of his flying machine; Pierre, the master dealmaker who bought the New York headquarters on Fifth Avenue for a double-stranded natural pearl necklace; and Jacques, the globe-trotting gemstone expert whose travels to India gave Cartier access to the world's best rubies, emeralds, and sapphires, inspiring the celebrated Tutti Frutti jewelry. Francesca Cartier Brickell, whose great-grandfather was the youngest of the brothers, has traveled the world researching her family's history, tracking down those connected with her ancestors and discovering long-lost pieces of the puzzle along the way. Now she reveals never-before-told dramas, romances, intrigues, betrayals, and more. The Cartiers also offers a behind-the-scenes look at the firm's most iconic jewelry--the notoriously cursed Hope Diamond, the Romanov emeralds, the classic panther pieces--and the long line of stars from the worlds of fashion, film, and royalty who wore them, from Indian maharajas and Russian grand duchesses to Wallis Simpson, Coco Chanel, and Elizabeth Taylor. Published in the two-hundredth anniversary year of the birth of the dynasty's founder, Louis-Fran ç ois Cartier, this book is a magnificent, definitive, epic social history shown through the deeply personal lens of one legendary family.
