"Magisterial and uplifting . . . A brilliant, grand-scale sampling of sixty-five million years of human evolution . . . It shows the sweep and grandeur of life in its unrelenting course." —The Denver Post
Stretching from the distant past into the remote future, from primordial Earth to the stars, Evolution is a soaring symphony of struggle, extinction, and survival; a dazzling epic that combines a dozen scientific disciplines and a cast of unforgettable characters to convey the grand drama of evolution in all its awesome majesty and rigorous beauty. Sixty-five million years ago, when dinosaurs ruled the Earth, there lived a small mammal, a proto-primate of the species Purgatorius. From this humble beginning, Baxter traces the human lineage forward through time. The adventure that unfolds is a gripping odyssey governed by chance and competition, a perilous journey to an uncertain destination along a route beset by sudden and catastrophic upheavals. It is a route that ends, for most species, in stagnation or extinction. Why should humanity escape this fate? Praise for Evolution "Spectacular."—The New York Times
Book Review "Strong imagination, a capacity for awe, and the ability to think rigorously about vast and final things abound in the work of Stephen Baxter. . . . [Evolution] leaves the reader with a haunting portrayal of the distant future."—Times Literary Supplement
"A breath of fresh air . . . The miracle of Evolution is that it makes the triumph of life, which is its story, sound like the real story."—The Washington Post

In the 1970s John Baily conducted extensive ethnomusicological research in Afghanistan, principally in the city of Herat but also in Kabul. Then, with Taraki's coup in 1978, came conflict, war, and the dispersal of many musicians to locations far and wide. This new publication is the culmination of Baily's further research on Afghan music over the 35 years that followed. This took him to Afghanistan, Pakistan, Iran, the USA, Australia and parts of Europe - London, Hamburg and Dublin. Arranged chronologically, the narrative traces the sequence of political events - from 1978, through the Soviet invasion, to the coming of the Taliban and, finally, the aftermath of the US-led invasion in 2001. He examines the effects of the ever-changing situation on the lives and works of Afghan musicians, following individual musicians in fascinating detail. At the heart of his analysis are privileged vignettes of ten musical personalities - some of friends, and some newly discovered. The result is a remarkable personal memoir by an eminent ethnomusicologist known for his deep commitment to Afghanistan, Afghan musicians and Afghan musical culture. John Baily is also an ethnographic filmmaker. Four of his films relating to his research are included on the downloadable resources that accompanies the text.

Mary Alice and Andy have drawn on their extensive experience in the classroom to assemble this collection: book/CD/DVD in one package, which includes fifty-four of their favorite movement activities for children in preschool, kindergarten and the early primary grades.

Ukuleles are a beautiful addition to elementary music classrooms. By playing ukuleles, students learn about chord progressions, develop vocabulary, and accompany vocal and instrumental melodies. The ukulele's timbre supports the child's voice, often allowing students to hear and sing harmony more accurately with ukulele accompaniment. Such experiences promote independent musicianship; many students purchase their own ukulele and enjoy playing at home, even beyond their elementary years.As with recorder instruction, we believe ukuleles should be integrated with other classroom instruments, and in this book, you find orchestrations with barred instruments, unpitched percussion, and recorder. Some lessons include creative movement and improvisation. Keep in mind these lessons may span several class sessions.As music teachers, we strive to be lifelong learners. We encourage you to branch out, pick up a uke, and STRUM IT UP!

Beautifully presented and intelligently paced, the Lesson Books combine unusually attractive music and lyrics. The books feature note reading, rhythm reading, sight-reading and technical workouts. Each piece on the CD was recorded at a performance tempo and a slower practice tempo. The music from this book is available in the Piano Maestro app that's downloadable at http://app.appsflyer.com/id604699751?pid=web&c=alfred. Katie Langston is an unlikely convert to Christianity. She grew up in a devout, conservative Mormon family in Utah, served a proselytizing mission to Bulgaria when she was 21, married for "time and all eternity" in the Mormon temple when she was 23. From the outside, she had a typical Mormon life. Inside, she was coming apart at the seams. From childhood, she battled "The Questions"—obsessive-compulsive disorder, though she didn't have a diagnosis for it until much later—and lived inside a complex maze of anxiety and fear. This was compounded by Mormonism's emphasis on "worthiness," a designation of acceptability in Mormon practice, that brought her to the edge of despair as a young mother. Then, almost by accident, she had an encounter with the grace of Jesus Christ—and her world changed. In candid but not sensationalized ways, Langston explores little-understood Mormon practices and teachings while grappling with universal human questions such as the nature of faith, the complexity of family, the process of healing, and what it means to truly belong. This book is intended to be a bridge-builder, a way to help non-Mormons understand Mormonism and Mormons orthodox Christianity through the power of personal narrative. Most of all, it is a testimony of Jesus Christ, in the hopes that those who read it—Mormon, Christian, or neither—will catch a glimpse of the spectacular, life-changing grace of God.

The Adult All-In-One Course combines all of the pages from the Lesson Books and selected pages from Alfred's Basic Adult Piano Course Theory, Solo and Technic Books (Finger Aerobics) into each of these concise volumes.
