The First World War's centenary generated a mass of commemorative activity worldwide. Officially and unofficially; individually, collectively and commercially; locally, nationally and internationally, efforts were made to respond to the legacies of this vast conflict. This book explores some of these responses from areas previously tied to the British Empire, including Australia, Britain, Canada, India and New Zealand. Showcasing insights from historians of commemoration and heritage

professionals it provides revealing insider and outsider perspectives of the centenary. How far did commemoration become celebration, and how merited were such responses? To what extent did the centenary serve wider social and political functions? Was it a time for new knowledge and understanding of the events of a century ago, for recovery of lost or marginalised voices, or for confirming existing clichés? And what can be learned from the experience of this centenary that might inform the approach to future commemorative activities? The contributors to this book grapple with these questions, coming to different answers and

writings in *Fart Proudly* reveal the rogue who lived peaceably within the philosopher and statesman. Included are "The Letter to a Royal Academy"; "On Choosing a Mistress"; "Rules on Making Oneself Disagreeable"; and other jibes. Franklin's irrepressible wit found an outlet in perpetrating hoaxes, attacking marriage and other sacred cows, and skewering the English Parliament. Reminding us of the humorous, irreverent side of this American icon, these essays endure as both hilarious satire and a timely reminder of the importance of a free press.

Much historical-critical work on the opponents in the Pastoral Epistles has resulted in sweeping generalizations concerning their Jewish and/or Gnostic nature. Literary analyses have been somewhat more promising in focusing on the stereotypical nature of the polemic, but either fail to do justice to the urgency of the language in the Pastorals or do not provide a convincing description of the opponents. Here Pietersen approaches the problem of the opponents from a socio-scientific perspective. Utilizing labeling theory and social control theory from the sociology of deviance, he argues that the Pastorals function as a literary version of a status degradation ceremony whereby previously
