"The purpose has been to trace the origin, scope, progress and design of newspapers and magazines from the earliest times down to the year 1840 inclusive." -- Preface.

Through an investigation of the reportage in nineteenth-century English metropolitan newspapers and illustrated journals, this book begins with the question 'Did anti-O'Connell sentiment in the British press lead to "killing remarks," rhetoric that helped the press, government and public opinion distance themselves from the Irish Famine?' The book explores the reportage of events and people in Ireland, focussing first on Daniel O'Connell, and then on debates about the seriousness of the Famine. Drawing upon such journals as The Times, The Observer, the Morning Chronicle, The Scotsman, the Manchester Guardian, the Illustrated London News, and Punch, Williams suggests how this reportage may have effected Britain's response to Ireland's tragedy. Continuing her survey of the press after the death of O'Connell, Leslie Williams demonstrates how the editors, writers and cartoonists who reported and commented on the growing crisis in peripheral Ireland drew upon a metropolitan mentality. In doing so, the press engaged in what Edward Said identifies as 'exteriority,' whereby reporters, cartoonists and illustrators, basing their viewpoints on their very status as outsiders, reflected the interests of metropolitan readers. Although this was overtly excused as an effort to reduce bias, stereotyping and historic enmity - much of unconscious - were deeply embedded in the language and images of the press. Williams argues that the biases in language and the presentation of information proved dangerous. She illustrates how David Spurr's categories or tropes of invalidation, debasement and negation are frequently exhibited in the reports,

editorials and cartoons. However, drawing upon the communications theories of Gregory Bateson, Williams concludes that the real 'subject' of the British Press commentary on Ireland was Britain itself. Ireland was used as a negative mirror to reinforce Britain's own commitment to capitalist, industrial values at a time of great internal stress.

*The first full-length biography to pay equal attention to both Newman's achievements as a thinker and writer and his personal life-story. Newman, whose religious significance transcends his own culture and time, is here revealed in his complexity, his sadness and sensitivity set against his exuberance, humour, and strength in the face of adversity.*

*Shortly after 9:00 a.m. on May 27, 1947, the first of forty-nine men condemned to death for war crimes at Mauthausen concentration camp mounted the gallows at Landsberg prison near Munich. The mass execution that followed resulted from an American military trial conducted at Dachau in the spring of 1946—a trial that lasted only thirty-six days and yet produced more death sentences than any other in American history. The Mauthausen trial was part of a massive series of proceedings designed to judge and punish Nazi war criminals in the most expedient manner the law would allow. There was no doubt that the*

*crimes had been monstrous. Yet despite meting out punishment to a group of incontestably guilty men, the Mauthausen trial reveals a troubling and seldom-recognized face of American postwar justice—one characterized by rapid proceedings, lax rules of evidence, and questionable interrogations. Although the better-known Nuremberg trials are often regarded as epitomizing American judicial ideals, these trials were in fact the exception to the rule. Instead, as Tomaz Jardim convincingly demonstrates, the rough justice of the Mauthausen trial remains indicative of the most common—and yet least understood—American approach to war crimes prosecution. The Mauthausen Trial forces reflection on the implications of compromising legal standards in order to guarantee that guilty people do not walk free.*

arrange, and reproduce court records, media coverage, and first-person interviews, transforming these elements into a performance. In this first book-length critical study of contemporary American documentary theater, Jacqueline O'Connor examines in depth ten such plays, all written and staged since 1970, and considers the role of the genre in re-creating and revising narratives of significant conflicts in contemporary history. Documentary theater, she shows, is a particularly appropriate and widely utilized theatrical form for engaging in debate about tensions between civil rights and institutional power, the inconsistency of justice, and challenges to gender norms. For each of the plays discussed, including *The Trial of the Catonsville Nine*, *Unquestioned Integrity: The Hill/Thomas Hearings*, and *The Laramie Project*, O'Connor provides historical context and a brief production history before considering the trial the play focuses on. Grouping plays historically and thematically, she demonstrates how dramatic representation advances our understanding of the law's power while revealing the complexities that hinder society's pursuit of justice. Professor Kenneth J. Zanca analyzes the responses of mid-

nineteenth century Catholics in America to Mrs. Mary Surratt's trial and execution for her part in the assassination of President Abraham Lincoln. These reactions are placed within various contexts: the Catholic Church during America's Civil War; the wider secular and Protestant culture of the Victorian era; the post-assassination climate of 1865; and Vatican politics. Previous studies of Mrs. Surratt have explored the issues of her guilt or innocence. This work takes a line of inquiry not yet explored by historians, Catholic or otherwise, in that it investigates reactions to her execution through the eyes of contemporary Catholic and Protestant witnesses and commentators.

***A story made all the more shocking because it's true. In 1880, an organized mob of the Donnellys' enemies murder four family members and burn their house to the ground. Another sibling is shot to death in a house a short distance away. William Donnelly and a teenage boy are the only witnesses to the murders. The surviving family members seek justice through the local courts but quickly learn that their enemies control the jury and the press. Two sensational trials follow that make national and international headlines as the Donnellys continue to pursue justice for their murdered parents, siblings and cousin. Behind the scenes, political factors are at play, as Oliver Mowat, the Premier/Attorney General of the province of Ontario, fearing the backlash a conviction would render, gradually withdraws support from the prosecution of the killers. After the trials, the Donnelly's enemies continue their crusade against the family, paying off potential witnesses to the murders and fabricating one last set of charges that they hope will put the remaining Donnellys away forever. In an era of mass mobilisation, the Great Famine and rebellion, this book shows how the writers of the mid-19th century Dublin nationalist press were at the heart of Irish nationalist activities, and evaluates the consequences for the development of Irish nationalism.***

This innovative collection of essays on the upsurge of antisemitism across Europe in the decades around 1900 shifts the focus away from intellectuals and well-known incidents to less-familiar events, actors, and locations, including smaller towns and villages. This "from below" perspective offers a new look at a much-studied phenomenon: essays link provincial violence and antisemitic politics with regional, state, and even transnational trends. Featuring a diverse array of geographies that include Great Britain, France, Austria-Hungary, Romania, Italy, Greece, and the Russian Empire, the book demonstrates the complex interplay of many factors--economic, religious, political, and personal--that led people to attack their Jewish neighbors.

complaints that had been hidden from police and covered up by the Church hierarchy. He also understood that the United States judicial system was eager to punish offenders and those who aided them. He presented all of this to the American bishops, warning that the Church could be devastated by negative publicity and bankrupted by its legal liability. They ignored him. Meanwhile, a young lawyer listened to a new client describe an abusive sexual history with a priest that began when he was ten years old. His parents' complaints were downplayed by Church officials who offered them money to go away. The lawyer saw a claim that any defendant would want to settle. Then he began to suspect he was onto something bigger, involving thousands of priests who had abused countless children while the Church had done almost nothing about it. The lawsuit he filed would touch off a legal war of historic and global proportions. Part history, part journalism, and part true-crime thriller, Michael D'Antonio's *Mortal Sins* brings to mind landmark books such as *All the President's Men*, *And the Band Played On*, and *The Informant*, as it reveals a long and ferocious battle for the soul of the largest and oldest organization in the world.

The so-called Slovak question asked what place Slovaks held—or should have held—in the former state of Czechoslovakia. Formed in 1918 at the end of World War I from the remains of the Hungarian Empire, and reformed after ceasing to exist during World War II, the country would eventually split into the Czech Republic and Slovakia after the “Velvet Divorce” in 1993. In the meantime, the minority Slovaks often clashed with the majority Czechs over their role in the nation. The Slovak Question examines this debate from a transatlantic perspective. Explored through the relationship between Slovaks, Americans of Slovak heritage, and United States and Czechoslovakian policymakers, it shows how Slovak national activism in America helped the Slovaks establish a sense of independent identity and national political assertion after World War I. It also shows how Slovak American leaders influenced US policy by conceptualizing the United States and Slovakia as natural allies due to their connections through immigration. This process played a critical role in undermining attempts to establish a united Czechoslovakian identity
