"I don't even help [my children] with their homework in the evening because I'm in the chat rooms, and I don't help put them to bed because I don't realize how late it is. I also don't help them get ready for school in the morning like I used to do because I'm checking my e-mail. And I just can't stop myself."--Raymond, an Internet addict. Internet addiction is real. Like alcoholism, drug addiction, or compulsive gambling, it has devastating effects on the lives of addicts and their families: divorce, job loss, falling productivity at work, failure in school, and, in extreme cases, criminal behavior. The problem has already reached epidemic proportions in the United States, and the number of "netaholics" continues to grow rapidly as more households and businesses go on-line. Yet, until now, no one from the mental health community has come forward with a specific description of Internet addiction and its effects or a strategy for treatment and recovery. In Caught in the Net, Kimberly Young shares the results of her three-year study of Internet abuse. Often using the words of the Internet addicts themselves, she presents the stories of dozens of lives that were shattered by an overwhelming compulsion to surf the Net, play MUD games, or chat with distant and invisible neighbors in the timeless limbo of cyberspace. Why is the Internet so seductive? What are the warning signs of Internet addiction? Is recovery possible? Dr. Young answers these questions and many more. She provides a questionnaire to help Net users determine whether they are addicts, and offers concrete steps to help problem users regulate Internet usage and devise a more balanced place for it in their daily lives. For Internet addicts as well as their parents, spouses, friends, and employers, Caught in the Net offers guidance on where and how to seek help from counselors, therapists, and other professionals who take this affliction seriously. For mental health professionals, this book provides insights into the nature and causes of Internet addiction and encourages counselors and therapists to expand their addiction recovery programs to address the specific problems of Internet addicts. "Think that computer addiction is a joke? Think again. This groundbreaking book is the first to explore on-line addiction in a serious way and to consider the effects on individuals and their families. Caught in the Net is an important book for anyone who spends mornings and evenings connected to the Net."--Clifford Stoll, author of The Cuckoo's Egg and Silicon Snake Oil. "An excellent account of the dangers of the burgeoning Internet industry. Dr. Young carefully outlines the traps into which people can fall and offers pragmatic self-help suggestions. Caught in the Net is valuable for both consumers and the professionals who deal with them."--Maressa Hecht Orzack, PhD, Founder and Coordinator, Computer Addiction Services, McLean Hospital Lecturer, Harvard University Medical School "I don't mean to spend all my time this way, but I can't stop. It's the only place my opinion matters and I feel important."--bobage38.automechanic.internet.addict "I feel guilty about it, but when I tried to break free, I simply didn't have the strength....I'm a long-time smoker, but I've found the craving to go on the Internet first thing every morning is stronger than my urge to light a cigarette."--marylouage40.motheroffour.internet.addict "When you're talking about the Internet, you're talking about power. It's the most powerful information tool I have ever known. When I explore the on-line world, I feel like that robot in the movie Short Circuit. I need more input! More input!"--daveage28.militarytelecommunicationsexpert.internet.addict "I feel the rush every time my mind gets connected to this intensely powerful information whirlpool. When I enter cyberspace, I become one with my mind. It's like Mr. Spock doing the Vulcan mind meld."--joshage29.computerprogrammer.internet.addict itt.edu and view her website at: www.netaddiction.com. There was a man. He had a knife. He attacked us down by the river.It was just a harmless little lie.Anna, Emma and Mariah concoct a story about why they're late getting home one night—a story that will replace their parents' anger withconcern. Increasing numbers of people with autism and other developmental disabilities are being convicted of sex offences, resulting in draconian and public punishment. Yet even when evidence shows that people with these conditions often pose little threat to society, or lack a core understanding as to why their actions break the law, the "sex offender legal regime" doesn't allow any room to take the disability into account. This ground-breaking book offers a multi-disciplinary examination of how unjust sex offense laws trap vulnerable groups such as those with developmental disabilities. Drawing on research, empirical evidence and including case studies, experts from the fields of law, ethics, psychology and sociology explore what steps should be taken in order to ensure that laws are just and take into consideration factors such as the vulnerability of the perpetrators. Investigating the consequences caused by public hysteria over sex offenses, this book highlights the judicial failure to protect defendants with developmental disabilities in the context of the unjust and hyper-punishment of all those charged with sex offenses. Proposing a new way forward based on research and evidence-based sentencing for sex offences, and elimination of the sex offender registry, this book offers an informed and compassionate view that is essential for all professionals working in this field. I would like to share my story of how I overcame, what I went through in hope that it will be someone else' SURVIVAL GUIDE.It starts out with Mr. Prince Charming for the first 6months and gradually changed into Dr. Jekyll and Mr. Hyde.

This book is based on a true story about a powerful and explosive relationship! It contains graphic scenes of sex, drugs, violence and abuse. This book was written mostly from my journals. At first it was because I didn't want to forget all the good. Later it was to protect my sanity. My abuser was extremely manipulating and kept me confused much of the time with mixed signals. (GASLIGHTING)In my teenage years I witnessed verbal abuse, threats and violence, so I thought that was normal. As a young child, I was extremely ill with severe asthma and was in and out of hospitals a lot! My doctors advised me to learn how to control my emotions at a very early age. This skill only accelerated my abuse. Josh was a pot smoker and he was always pushing pot on me trying to keep me under the influence enough to help him control me. He ordered me to just do it! I tried to escape him and his narcissist ways several times. One week was the duration of our first separation. Two weeks was the duration of our second separation. During the separations I went through some heavy-duty, mind-boggling experiences. I was weak and very vulnerable! It made me mad that even though I'd found the courage to leave him, he was still controlling me through my dreams. I even fell asleep during the day and he was there, too! I couldn't seem to get rid of him. I could clearly see him, all of him. I could see every detail of his body. I could feel him coming near. The air was dense with his electricity. I felt his breath, his touch, the warmth of his body, his soft lips, his tongue, his penetration. Until now I had always believed the love endures all.I honestly thought my love would be the love that saved him. I honestly thought my love would be enough to change him. I thought that if I prayed enough, God would make him safe for me.

Being mentally ill is a lifelong battle of ups and downs, and not a lot of people understand or take the time to care to understand the mentally ill. Everyone are in a class of their own in the world which makes it extremely hard for the mentally ill and non-mentally ill to connect with one another. There are so many rules and regulations to follow for mental patients and their friends and family to know and live by. Finding a balance for such can be very hard.

A Blackmail Mistress Story

The small nation of Laos, wedged between Thailand and Vietnam, is little known to most Westerners. When the author and her husband, a USAID worker, moved to Laos in 1971, it was a quiet country falling increasingly under the effects of a heavy but unacknowledged U.S. military presence as part of a failing effort in Vietnam. Befriended by two young Laotians, the author became a part of village life, joining holiday celebrations, weddings, funerals and feasts. Over a four year period, she developed a deep admiration and affection for the Lao people. The humor and pathos of these chaotic years before the Communist take-over of the government in 1975 are chronicled by following one Lao family from Communist controlled re-education camps to their eventual resettlement in the United States. “Being born in Laos but raised in America from the tender age of 4, I have not had an opportunity to truly appreciate my own country. Judy’s book opened my eyes, heart and mind to the beautiful people and culture of that life and world. Thanks Judy.” Lala Rivera, former refugee “Fascinating for its portrayal of an unfamiliar, increasingly dangerous world (Laos, 1971-75), this memoir floods readers with admiration and sympathy for Lao culture.” Suzanne Kosanke, University of Hawaii at Manoa “As interest revives in the era of what Americans call the Vietnam War, there is still little accessible information about that part of the world, including Vietnam’s neighboring country, Laos. This book is a warm, human account of one person’s experiences in Laos.” Mary Ann Mattoon, PhD. Minneapolis.

Jezebel walks among us. She is in our meetings, sits next to us in Sunday's church service and can even be a prayer partner. How does one behave when this spirit is in operation in the people that we genuinely love? This book is designed to assist leaders, deliverance ministers and believers in: 1) Identifying, isolating and eradicating the spirit of Jezebel from their church or ministry in a practical and effective manner. 2) Diagnosing the possibility of being a sympathizer (harboring) to Jezebel 3) Manage the aftershock of Jezebel's departure 4) Receive deliverance and healing from Jezebel and Ahab spirits. 5) Receive a better understanding on how to address the person hosting the spirit of Jezebel. The topic of Jezebel is so vast that it demands volumes to be written about it. This book is simply scratching the surface per se, and is not designed to address all aspects of the spirit of Jezebel or her network. However, it will provide the reader with some present-day truth into Jezebel's operation and controlling network. Finally this book will assist the reader in how to engage the human factor (the person) in a manner that minimizes the casualties of war.

This unique and celebrated biography describes how a largely self-educated boy from a small village in Scotland entered the world of scholarship and became the first editor of the Oxford English Dictionary and a great lexicographer. It also provides an absorbing account of how the dictionary was written, the personalities of the people working on it, and the endless difficulties that nearly led to the whole enterprise being abandoned. "It is a magnificent story of a magnificent man, one of the finest biographies of the twentieth century, as its subject was one of the finest human beings of the nineteenth." --Anthony Burgess "A moving and dramatic story . . . sometimes tragic, often comic, ultimately triumphant." --Times (London) "A biography that possesses many of the virtues of James Murray himself--grace, humor, intelligence, curiosity, and scholarship." --Time "In her vivid biography, Murray's granddaughter brings his remarkable personality to life, and provides an unexpectedly fascinating account of the OED's long and difficult birth." --Times Literary Supplement "A gripping, engaging story; endearing, too. The daily round of a big Victorian family, with its jokes, games, and treasured seaside holidays, is entrancingly evoked." --Sunday Times (London)

From a renowned investigative reporter, the true story behind a horrifying Internet abuse epidemic—and the heroes who are out to stop it. The Internet has helped make child abuse terrifyingly common—it is the new face of crime in the 21st century. There are tens, probably hundreds of thousands of children whose sexual abuse has been electronically recorded and distributed on the Internet. As Julian Sher reveals, the men perpetrating these crimes include lawyers, priests, doctors and politicians. They pick their victims from the streets of Bangkok to Boy Scout troops in England, while the police—from a crack image analyst with the Toronto police to an FBI agent who poses as a 13-year-old girl online—work desperately to nab the predators. One Child at a Time goes behind the headlines to show how law officers are fighting back against this tide of abuse, from daring rescues in homes to the seizures of millions of dollars in the offshore bank accounts of the porn merchants. In riveting detail, Julian Sher shows how clue by clue, and image by image, investigators are using cutting edge tools, turning the technology of the Internet against the perpetrators as they race to find and rescue the victims—children who otherwise have no voice. This important book explores the ramifications of a worldwide struggle, from the need for updated legal powers to the unexpected effects the Internet has had on our social fabric. It also includes a full list of resources for concerned parents. Though sometimes harrowing, One Child at a Time is also inspiring—and never less than absolutely relevant.
