

Ceh Certified Ethical Hacker Study Guide

Certified Ethical Hacker covers new modules for the security of IoT devices, vulnerability analysis, focus on emerging attack vectors on the cloud, artificial intelligence, and machine learning including a complete malware analysis process. Our CEH workbook delivers a deep understanding of applications of the vulnerability analysis in a real-world environment. The purpose of the Certified Ethical Hacker V10 credential is to: Establish and govern minimum standards for credentialing professional information security specialists in ethical hacking measures. Inform the public that credentialed individuals meet or exceed the minimum standards. Reinforce ethical hacking as a unique and self-regulating
