Cerberus, the Dog of Hades the History of an Idea

Biography of Alan Ross, currently Senior Vice President at Cerberus Capital Management, previously Director at UBS Investment Bank and Associate at ABN AMRO.

Chiaki may have gained a soul vessel, but that doesn't mean all his problems are solved. When his childhood friend Minnie returns (now with the power to fight monsters?!), she throws things into chaos. With Minnie's love confession out on the table, Roze, Hinata, and Shirogane are forced to consider their own feelings for Chiaki...

For most souls, the Greek Underworld was a world of eternal shadows. The dead were ferried across a river in a boat guided by the grim Charon, who demanded payment from each soul. As they disembarked, a low growl rumbled through the silence, and a huge creature with three heads emerged from the dank mist along the riverbank. It was Cerberus, Hades' watchdog who guarded the gates of his realm. The souls arriving had nothing to fear from the beast—but any souls trying to escape would be torn to shreds. Once a soul entered the Underworld, it was Cerberus's job to make sure it never left. Cerberus is one of the best-known monsters in Greek mythology. His story takes readers on an intriguing tour of the Underworld and inside his unwitting part in the Twelve Labors of Hercules. Despite his fearsomeness, Cerberus is not seen as evil; instead he is respected as Hades' loyal protector, making him perhaps the most appreciated monster of them all.

Cerberus—the guard dog of the underworld—is a clumsy puppy who can't do his job. Although Cerberus is constantly causing trouble for his master, Hades, he is always forgiven for being just so darn cute. So goes this wonderfully fluffy tale of life in the underworld. This heartwarming full-color comic is a must-see for all the dog-lovers out there!

#3 Shades of Gray: Cerberus Versus Pandora

Cerberus, the Dog of Hades

It's a blast from the past! Tama's back and offers her support in Hinata's quest to win Chiaki's heart. However, Chiaki seems incapable of expressing romantic interest in her or anyone... And just when things are getting cozy for the holidays, a mysterious figure informs Chiaki that someone might be able to restore his old self.

An American humorist, John Kendrick Bangs, who likes to place his skits in Hades, steps in "where angels fear to tread," and launches with a light heart the discussion as to whether Cerberus is one or more dogs. The city of Cimmeria in Hades, having tried asphalt pavement, which was found too sloppy for that climate, and Nicholson wood pavement, which kept taking fire, decides on Belgian blocks. In order to meet the new expense a dog-tax is imposed. Since Cerberus belongs to Hades as a whole, the state must pay his tax, and is willing enough to do so--on Cerberus as one dog. The city, however, endeavors to collect on three dogs--one license for each head. Two infernal coppers, sent to impound Cerberus, fare not well, one of them being badly chewed up by Cerberus, the other nabbed bodily and thrown into the Styx. In consequence of this they obtain damages from the city. The city then decides to bring suit against the state. The bench consists of Apollyon himself and Judge Blackstone; Coke appears for the city, Catiline for the state. The first dog-catcher, called to testify, and asked whether he is familiar with dogs, replies in the affirmative, adding that he had never got quite so intimate with one as he got with him. "With whom?" asks Coke. "Cerberus," replies the witness. "Do you consider him to be one dog, two dogs, or three dogs?" Catiline objects to this question as a leading one, but Coke manages to get it in under another form: "How many dogs did you see when you saw Cerberus?" "Three, anyhow," replies the witness with feeling, "though afterwards I thought there was a whole bench-show atop of me." On cross-examination Catiline asks him blandly: "My poor friend, if you considered Cerberus to be three dogs anyhow, why did you in your examination a moment since refer to the avalanche of caninity, of which you so affectingly speak, as him?" "He is a him," sturdily says the witness. After this Coke, discomfited, decides to call his second witness: "What is your business?" asks Coke, after the usual preliminaries. "I'm out of business. Livin' on my damages." "What damages?" "Them I got from the city for injuries did me by that there--I should say them there--dorgs, Cerberus." And so on. Catiline gains the day for the state by his superior logic; the city of Cimmeria must content itself with taxes on a single dog. But the logic of the facts, it will appear, are with the dog-catchers, Judge Coke, and the city of Cimmeria as against the state of Hades: Cerberus is more than one dog.

The Heads of Cerberus (1919) is a science fiction novel by Francis Stevens. Originally serialized in The Thrill Book, a popular pulp magazine, The Heads of Cerberus was recognized as "perhaps the first science fiction fantasy to use the alternate time-track, or parallel worlds, idea" by anthologist and critic Groff Conklin. Noted for its satirical tone and dystopian themes, The Head of Cerberus remains central to Stevens' reputation as a pioneering author of fantasy and science fiction. In 1918, three friends from Philadelphia discover a strange powdery substance. Before they can find out what it is or where it came from, they are transported to the year 2118. Somehow, the city has come under complete totalitarian control, forcing the vast majority of its poor citizens to live in constant fear of death and imprisonment. Names have been replaced by identification numbers and annual contests run by the ruthless overseer leave families torn apart by violence and death. With her eye on the present, writing at a time of war and increasing political division, Stevens tells a story about a future both strange and all too familiar, warning her readers about the dangers of unchecked power through the guise of fantasy and adventure. With a beautifully designed cover and professionally typeset manuscript, this edition of Francis Stevens' The Heads of Cerberus is a classic work of American science fiction reimaged for modern readers.

Recounts the Greek myth about the three-headed dog who was employed to guard the portals of the Underworld.

I was posting rubbish on Facebook when I got this weird pop up. It was the monster of myth, Cerberus, the three-headed hound that guards the gates of the Underworld. I clicked on impulse and I found myself on the start up menu of a game. It had me hooked right away. I got to the end of the first level and it asked me to fill out an online form. My parents have always said I shouldn't give any details out to people on the Net. They're always going on about online safety, but man, this was addictive. It was the best game ever. You hear people say they've played some realistic games, but there has never been a game like this. It is as if the room dissolves around you. Reality melts away and all that's left is your computer game character fighting for his life in an alien world. What if you downloaded a computer game from the internet? What if the game knew who you were and set up a meeting with its designers? Would you go? Would you dare? That is the dilemma facing Henry Kwok, an ordinary Hong Kong schoolboy. His choice takes him on an epic journey across the universe. Read these three stories by award-winning author Alan Gibbons and join in the adventure.
