History that doesn't suck: Smart, crude, and hilariously relevant to modern life. Those who don't know history are doomed to repeat it. Too bad it's usually boring as sh*t. Enter The Captain, the ultimate storyteller who brings history to life (and to your life) in this hilarious, intelligent, brutally honest, and crude compendium to events that happened before any of us were born. The entries in this compulsively

readable book bridge past and present with topics like getting ghosted, handling haters, and why dog owners rule (sorry, cat people). Along the way you'll get a glimpse of Edith Wharton's sex life, dating rituals in Ancient Greece, catfishing in 500 BC, medieval flirting techniques, and squad goals from Catherine the Great. You'll learn why losing yourself in a relationship will make you crazy--like Joanna of Castile, who went from accomplished badass to Joanna the Mad after obsessing over a guy known as Philip the Handsome. You'll discover how Resting Bitch Face has been embraced throughout history (so wear it proudly). And you'll see why it's never a good idea to f*ck with powerful women--from pirate queens to diehard suffragettes to Cleo-f*cking-patra. People in the past were just like us--so learn from life's losers and emulate the badasses. The Captain shows you how.

The bestselling science reporter for *The New York Times* tells us what

works and what doesn't when we work out Ultimate Fitness: The Quest for Truth About Exercise and Health is Gina Kolata's compelling journey into the world of American physical fitness over the past thirty years. It is a funny, eye-opening, brow-sweating investigation into the fads, fictions, and science of fitness training. From the early days of jogging, championed by Jim Fixx— who later died of a heart attack—to weight lifting, cycling, aerobics, and Spinning, Kolata questions such popular notions as the "fat-burning zone" and "spot reducing," the effects of food on performance, how much exercise helps build fitness, and the difference between exercise to help the heart and exercise to change the body. She explains the science of physical fitness and the objective evidence behind commonly accepted prescriptions. Along the way she profiles researchers and mavericks who have challenged conventional wisdom, marketed their inventions, and sometimes bucked criticism only to back down from their original claims. Ultimate Fitness spotlights the machines and machinations of the fitness industry, and cuts through the marketing and hype not only to assess what is healthy, but also to understand what our obsession with staying healthy says about American culture today.

Neo-Hasidism applies the Hasidic masters' spiritual insights—of God's presence everywhere, seeking the magnificent within the everyday, in doing all things with love and joy, uplifting your life to become a vehicle of God's service—to contemporary Judaism, as practiced by many women who do not live within the strictly bounded world of the Hasidic community. This new ever anthology of Neo-Hasidic philosophy brings together the writings of its progenitors and great twentieth-century European and American Jewish thinkers—Hillel Zeitlin, Martin Armstrong, Abraham Joshua Heschel, Shlomo Carlebach, and Zalman Schachter-Shalomi—plus a young voice, Arthur Green. The thinkers reflect on the inner life of the individual and their dreams of

a Neo-Hasidic spiritual community. The editors' introductions and notes analyze each of the contributors to Neo-Hasidic thought and influence on the movement. Zeitlin and Bube offer a renewal of Hasidism for the modern world; Heschel's work is quietly infused with Neo-Hasidic thought; Carlebach and Schachter-Shalomi re-created Neo-Hasidism for American Jews in the 1960s; and Green is the first American-born Jewish thinker fully identified with the movement. Previously unpublished materials by Carlebach and Schachter-Shalomi include an interview with Schachter-Shalomi about his decision to leave Chabad-Lubavitch and enter his own Neo-Hasidic path.

Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so.

Karl Pilkington's third book, follow-up to bestselling *The World of Karl Pilkington* and *Happyslapped by a Jellyfish*, is a voyage through some of the most curious facts and fictions about our world. Drawing on what little he learned during his days of education, Karl explores the world of knowledge through a school curriculum, with chapters devoted to biology, history, art, and English, among others, each topic approached with Karl's inimitable combination of innocent wonder and down-to-earth wisdom. Full color throughout, the book is illustrated with Karl's hand-drawn cartoons and comic strips and it features e-mail contributions from a host of celebrities and experts who Karl has quizzed to further his knowledge.
