Over 1.6 million students have succeeded using this book, more than any other EMT-Basic training text. For over thirty years, "Emergency Care" has provided students with clear, complete coverage of the U.S. D.O.T. EMT-Basic National Standard Curriculum. The Ninth Edition provides updated content, a new interior design, and enhanced pedagogical features--to keep pace with today's students' needs and advances in prehospital care. A state-of-the-art multimedia package, featuring a student CD-ROM and a text-specific Companion Website, provides students with greater coverage of chapter material.

Authors: Kara Dworak, Mary McVey Gill, Pamela Hartmann

Over 100 discussion questions and activities, and 500 questions, fill this comprehensive workbook. The book covers science, math and social science for fourth grade. If you are homeschooling (or if you are just trying to get extra practice for your child), then you already know that social science workbooks and curriculum can be expensive. HomeSchool Brew is trying to change that! We have teamed with teachers and parents to create books for prices parents can afford. We believe education shouldn't be expensive. Each subject may also be purchased individually.

Success Strategies section guides you step-by-step through the entire exam process. NEW! Updated content features the latest coding information available, promoting accurate coding and success on the job.

Ned Ryerson. That's who a lot of people picture when they think of insurance agents. Don't remember Ned? Sure you do. He was the "cheesy" insurance agent from the Bill Murray classic Groundhog Day. In Ned, we see examples of what can go so horribly awry with the insurance sales process - someone who gets people to sign on the dotted line because it's the only way they can escape him, someone who is far more of a salesman than a trusted advisor, and of course, someone who is living commission-to-commission, putting his own survival above his clients' needs. The reason all these things make Ned our "anti-mascot" is that if you fail to grasp the danger of these things, you'll undoubtedly place major obstacles between you and your career goals. Starting of course, with your quest to pass the licensing exam. Thus, the goal of this book is twofold. First and foremost, I want to help you pass the exam, and do so by a wide margin. I don't want it to be even close. I want your state's insurance commissioner to be so blown away by your score that he takes your exam home and hangs it up on his refrigerator. But second, I want this book to become the basis for your career. I want it to help shape the way you approach insurance sales so that you not only help protect others against loss, but protect yourself (and your hard-earned license) as well. Even more, I want it to protect you against an average career. I want this book to help insure your financial success. Interested? If you are, then you're in for some exciting lessons about insurance theory, products, and sales. I'll share with you both the practical and conceptual knowledge you need to get to where you want to go.

Offers study tips and tools to help students gain a better understanding of course material. The Eighth Edition includes study flashcards for further practice.

Quantum Leadership: Advancing Innovation, Transforming Health Care, Fourth Edition is a revised edition of a best-selling graduate level leadership textbook. The text is based on current concepts of leadership, data, and research related to the complexities of leadership. The Fourth edition has been revised to include new elements and ideas around leadership concepts to educate students as well as serve as an outstanding source of reference. This text is a seminal work on the issue of complexity leadership as applied to healthcare. There are very few other references that have the clarity, depth, and detail essential to enumerate this topic in healthcare organizations. It is especially valuable for graduate programs and DNP programs as it provides a foundation for contemporary leadership and emphasizes the role characteristics necessary to lead complex organizations. The new edition will feature an additional chapter on complexity leadership in health reform in order to incorporate the newer requisites of the Patient Protection Affordable Care Act in a way that is relevant to leadership development and capacity. The addition of case studies found within each chapter help in the translational work. New application exercises will be made available via "The Quantum Workbook" as a supplement for learning. Additional updates to the text include: chapter podcasts, additional translational and learning material related to chapter case studies. Lastly, all references have been revised and updated to reflect the most current evidence around learning leadership.
