*NEW YORK TIMES BESTSELLER • “It’s Lovecraft meets the Brontës in Latin America, and after a slow-burn start Mexican Gothic gets seriously weird.”—The Guardian IN DEVELOPMENT AS A HULU ORIGINAL LIMITED SERIES PRODUCED BY KELLY RIPA AND MARK CONSUELOS • WINNER OF THE LOCUS AWARD • NOMINATED FOR THE BRAM STOKER AWARD ONE OF THE BEST BOOKS OF THE YEAR: The New Yorker, Vanity Fair, NPR, The Washington Post, Tor.com, Marie Claire, Vox, Mashable, Men’s Health, Library Journal, Book Riot, LibraryReads An isolated mansion. A chillingly charismatic aristocrat. And a brave socialite drawn to expose their treacherous secrets. . . . From the author of Gods of Jade and Shadow comes “a terrifying twist on classic gothic horror” (Kirkus Reviews) set in glamorous 1950s Mexico. After receiving a frantic letter from her newly-wed cousin begging for someone to save her from a mysterious doom, Noemí Taboada heads to High Place, a distant house in the Mexican countryside. She’s not sure what she will find—her cousin’s husband, a handsome Englishman, is a stranger, and Noemí knows little about the region. Noemí is also an unlikely rescuer: She’s a glamorous debutante, and her chic gowns and perfect red lipstick are more suited for cocktail parties than amateur sleuthing. But she’s also tough and smart, with an indomitable will, and she is not afraid: Not of her cousin’s new husband, who is both menacing and alluring; not of his father, the ancient patriarch who seems to be fascinated by Noemí; and not even of the house itself, which begins to invade Noemí’s dreams with visions of blood and doom. Her only ally in this inhospitable abode is the family’s youngest son. Shy and gentle, he seems to want to help Noemí, but might also be hiding dark knowledge of his family’s past. For there are many secrets behind the walls of High Place. The family’s once colossal wealth and faded mining empire kept them from prying eyes, but as Noemí digs deeper she unearths stories of violence and madness. And Noemí, mesmerized by the terrifying yet seductive world of High Place, may soon find it impossible to ever leave this enigmatic house behind. “It’s as if a supernatural power compels us to turn the pages of the gripping Mexican Gothic.”—The Washington Post “Mexican Gothic is the perfect summer horror read, and marks Moreno-Garcia with her hypnotic and engaging prose as one of the genre’s most exciting talents.”—Nerdist “A period thriller as rich in suspense as it is in lush ’50s atmosphere.”—Entertainment Weekly*

*Narrative of the Life of Frederick Douglass First published in 1845, Narrative of the Life of Frederick Douglass is an eye-opening depiction of American slavery. Part autobiography, part human-rights treatise, it describes the everyday horrors inflicted on captive laborers, as well as the strength and courage needed to survive. Narrative of the Life of Frederick Douglass Born into slavery on a Maryland plantation in 1818, Frederick Douglass spent years secretly teaching himself to read and write—a crime for which he risked life and limb. After two failed escapes, Douglass finally, blessedly boarded a train in 1838 that would eventually lead him to New York City and freedom. Narrative of the Life of Frederick Douglass Few books have done more to change America's notion of African Americans than this seminal work. Beyond its historical and social relevancy, it is admired today for its gripping stories, the intensity of spirit, and heartfelt humanity. Narrative of the Life of Frederick Douglass This ebook has been professionally proofread to ensure accuracy and readability on all devices. Narrative of the Life of Frederick Douglass Born into a life of bondage, Frederick Douglass secretly taught himself to read and write. It was a crime punishable by death, but it resulted in one of the most eloquent indictments of slavery ever recorded. His gripping narrative takes us into the fields, cabins, and manors of pre-Civil War plantations in the South and reveals the daily terrors he suffered. Narrative of the Life of Frederick Douglass Written more than a century and a half ago by a Black man who went on to become a famous orator, U.S. minister to Haiti, and leader of his people, this timeless classic still speaks directly to our age. It is a record of savagery and inhumanity that goes far to explain why America still suffers from the great injustices of the past. Narrative of the Life of Frederick Douglass*

*The Master and Margarita (Russian: ??????? ? ??????????) is a novel by Mikhail Bulgakov, written between 1928 and 1940, but unpublished in book form until 1967. The story concerns a visit by the devil to the fervently atheistic Soviet Union. Many critics consider it to be one of the best novels of the 20th century, as well as the foremost of Soviet satires.*

*Since the early twentieth century, technological transfers from the United States to Latin American countries have involved technologies of violence for social control. As the chapters in this book illustrate, these technological transfers have taken various forms, including the training of Latin American military personnel in surveillance and torture and the provision of*

political and logistic support for campaigns of state terror. The human cost for Latin America has been enormous—thousands of Latin Americans have been murdered, disappeared, or tortured, and whole communities have been terrorized into silence. Organized by region, the essays in this book address the topic of state-sponsored terrorism in a variety of ways. Most take the perspective that state-directed political violence is a modern development of a regional political structure in which U.S. political interests weigh heavily. Others acknowledge that Latin American states enthusiastically received U.S. support for their campaigns of terror. A few see local culture and history as key factors in the implementation of state campaigns of political violence. Together, all the essays exemplify how technologies of terror have been transferred among various Latin American countries, with particular attention to the role that the United States, as a "strong" state, has played in such transfers.

It was the most brutal corporate restructuring in Wall Street history. The 2015 bankruptcy brawl for the storied casino giant, Caesars Entertainment, pitted brilliant and ruthless private equity legends against the world's most relentless hedge fund wizards. In the tradition of Barbarians at the Gate and The Big Short comes the riveting, multi-dimensional poker game between private equity firms and distressed debt hedge funds that played out from the Vegas Strip to Manhattan boardrooms to Chicago courthouses and even, for a moment, the halls of the United States Congress. On one side: Apollo Global Management and TPG Capital. On the other: the likes of Elliott Management, Oaktree Capital, and Appaloosa Management. The Caesars bankruptcy put a twist on the old-fashioned casino heist. Through a \$27 billion leveraged buyout and a dizzying string of financial engineering transactions, Apollo and TPG—in the midst of the post-Great Recession slump—had seemingly snatched every prime asset of the company from creditors, with the notable exception of Caesars Palace. But Caesars' hedge fund lenders and bondholders had scooped up the company's paper for nickels and dimes. And with their own armies of lawyers and bankers, they were ready to do everything necessary to take back what they believed was theirs—if they could just stop their own infighting. These modern financiers now dominate the scene in Corporate America as their fight-to-the-death mentality continues to shock workers, politicians, and broader society—and even each other. In *The Caesars Palace Coup*, financial journalists Max Frumes and Sujeet Indap illuminate the brutal tactics of distressed debt mavens—vultures, as they are condemned—in the sale and purchase of even the biggest companies in the world with billions of dollars hanging in the balance.

Forecasting is required in many situations. Stocking an inventory may require forecasts of demand months in advance. Telecommunication routing requires traffic forecasts a few minutes ahead. Whatever the circumstances or time horizons involved, forecasting is an important aid in effective and efficient planning. This textbook provides a comprehensive introduction to forecasting methods and presents enough information about each method for readers to use them sensibly.

A gender studies textbook that takes an anthropological approach. *Gendered Lives* takes a regional approach to examine gender issues from an anthropological perspective with a focus on globalization and intersectionality. Chapters present contributors' ethnographic research, contextualizing their findings within four geographic regions: Latin America, the Caribbean, South Asia, and the Global North. Each regional section begins with an overview of the broader historical, social, and gendered contexts, which situate the regions within larger global linkages. These introductions also feature short project/people profiles that highlight the work of community leaders or non-governmental organizations active in gender-related issues. Each research-based chapter begins with a chapter overview and learning objectives and closes with discussion questions and resources for further exploration. This modular, regional approach allows instructors to select the regions and cases they want to use in their courses. While they can be used separately, the chapters are connected through the book's central themes of globalization and intersectionality. Nadine T. Fernandez is Professor of Anthropology at the State University of New York Empire State College. She is the coeditor (with Christian Groes) of *Intimate Mobilities: Sexual Economies, Marriage and Migration in a Disparate World*. Katie Nelson is Instructor of Anthropology at Inver Hills Community College. Sometimes solving climate change seems impossibly complex, and it is hard to know what changes we all can and should make to help. This book offers hope. Drawing on the latest research, Mark Jaccard shows us how to recognize the absolutely essential actions (decarbonizing electricity and transport) and policies (regulations that phase out coal plants and gasoline vehicles, carbon tariffs). Rather than feeling paralyzed and pursuing ineffective efforts, we can all make a few key changes in our lifestyles to reduce emissions, to contribute to the urgently needed affordable energy transition in developed and developing countries. More importantly, Jaccard shows how to distinguish climate-sincere from insincere politicians and increase the chance of electing and sustaining these leaders in power. In combining the personal and the political, *The Citizen's Guide to Climate Success* offers a clear and simple strategic path to solving the greatest problem of our times. The general academic progression, and particularly research engagement, of postgraduate students is characterized by various problems such as high dropout rates, longer completion times, low graduation rates, and high repetition or retake rates. This means that there are far fewer students pursuing postgraduate studies at tertiary institutions and universities than there are at the lower levels of education. Yet, there is growing demand for postgraduate education given its strong projected association with socioeconomic transformation at national and international levels among developed and developing countries alike. Postgraduate Research Engagement in Low Resource Settings sets out to garner strategies for fostering efficiency of research conduct among the students and faculty so as to enhance high quality output for the envisaged personal, societal, national, and international socioeconomic transformation. Covering a range of topics such as intellectual property, mental health, and quality assurance, this book is ideal for research supervisors, higher education faculty, librarians, educators, administrators, researchers, academicians, and students.

Morph Mastery combines this exciting new approach with tried-and-tested teaching methods that work. The activities in this book follow three engaging ninja-like characters, Prefa, Root and Sufa, who represent the three core components of morphology (prefixes, root words and suffixes) and use their sceptres to craft words. Key features include:*

- Exciting and engaging activities and games, designed to be used by individuals or small groups*
- Detailed, curriculum-linked assessments, enabling specific target setting*
- Photocopiable and downloadable activity sheets and resources*
