Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. I Know Why the Caged Bird Sings captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local “powhitetrash.” At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors (“I met and fell in love with William Shakespeare”) will allow her to be free instead of imprisoned. Poetic and powerful, I Know Why the Caged Bird Sings will touch hearts and change minds for as long as people read. “I Know Why the Caged Bird Sings liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity.”—James

*Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.*

Section 1: Client and Planner Attitudes, Values and Biases Section 1 includes Chapters 1, 2 and 3, and provides an overview of client and planner attitudes, values, and biases. This section discusses the importance of understanding how a client's psychology, background, learning style and values can all impact the financial planning process. It also discusses the importance of the financial planner framing advice in a way that accounts for all those psychological characteristics, leading to a more effective client-planner relationship and a higher probability of success. Research has shown that when clients can see that financial planning recommendations are demonstrably connected to their personal values and goals, they are much more likely to act on those recommendations and achieve success. Chapter 1: Framing Advice in Light of Client's Risk Tolerance (Swarn Chatterjee and Dave Yeske) Chapter 2: Developing a Productive Client-planner Relationship That Addresses the Psychological Elements of Financial Planning (Megan McCoy and Neal Van Zutphen) Chapter 3: Identifying and Responding to Client Values and Goals (Megan McCoy and Meghaan Lurtz) Section 2: Behavioral Finance Section 2 includes Chapters 4 and 5, and introduces key concepts from the area of behavioral finance. This section provides an understanding of the impact of cognitive biases and heuristics on people's financial decision-making and well-being, and discusses strategies for overcoming some of the common client psychology barriers in the financial planning process. Chapter 4: Impact of Cognitive Biases and Heuristics on Financial Decision-making and Well-being (Ron Sages and Swarn Chatterjee) Chapter 5: Client Psychology Barriers in the Financial Planning Process and Strategies for Overcoming Them (Ron Sages and Swarn Chatterjee) Section 3: Sources of Money Conflict Section 3 includes Chapters 6 through 10, and provides an overview of the major sources of money conflict. This section focuses on the harnessing of client's motivation for achieving their financial goals, examining couple and family financial transparency, and discusses strategies for mediating potential financial conflicts and facilitating goal congruence. This section also discusses counseling strategies that can be used for identifying when money is being used for purposes of manipulation. Chapter 6: Building the Client's Motivation for Achieving Their Financial Goals (Rick Kahler) Chapter 7: Examining Couple and Family Financial Transparency (Emily Koochel and Meghaan Lurtz) Chapter 8: Mediating Financial Conflict (Sonya Lutter and Emily Koochel) Chapter 9: Facilitating Goal Congruence (Rick Kahler) Chapter 10: Identifying When Money Is Being Used as Manipulation (Saundra D. Davis) Chapter 12: Forging Trusting Relationships (Megan McCoy and Sonya Lutter) Section 5: General principles of effective communication Section 5 includes Chapter 13, and provides an overview of the general principles of effective communication. This topic is of great importance as effective communication has been shown to be the single largest predictor of client trust and relationship commitment, which in turn can lead to a greater propensity by clients to reveal personal and financial information, engage in effective conflict resolution, and act on financial planning recommendations. Chapter 13: Multifaceted Communication (Swarn Chatterjee and Ron Sages) Section 6: Crisis Events with Severe Consequences Section 6 includes Chapters 14 and 15, and discusses strategies for helping clients who experienced crisis events with severe consequences. The strategies discussed in this section focus on helping clients navigate unanticipated personal and environmental crises, and the importance of empathy when working with clients who experienced such events. As is true across all topics in this book, self-awareness and self-development by the financial planner is as important as understanding the client's psychology when helping them navigate difficult circumstances. Chapter 14: Navigating Change (Sonya Lutter, Megan McCoy, Saundra D. Davis, and Lance Palmer) Chapter 15: The Necessity of Empathy (Megan McCoy and Sonya Lutter)

Considered by many the greatest war novel of all time, *All Quiet on the Western Front* is Erich Maria Remarque’s masterpiece of the German experience during World War I. I am young, I am twenty years old; yet I know nothing of life but despair, death, fear, and fatuous superficiality cast over an abyss of sorrow. . . . This is the testament of Paul Bäumer, who enlists with his classmates in the German army during World War I. They become soldiers with youthful enthusiasm. But the world of duty, culture, and progress they had been taught breaks in pieces under the first bombardment in the trenches. Through years of vivid horror, Paul holds fast to a single vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another . . . if only he can come out of the war alive. “The world has a great writer in Erich Maria Remarque. He is a craftsman of unquestionably first rank, a man who can bend language to his will. Whether he writes of men or of inanimate nature, his touch is sensitive, firm, and sure.”—The New York Times Book Review

In this book, first published in 1990, the authors have provided a scholarly treatment of the body of training literature between 1980 and 1988 that can be used by practitioners. They have drawn from as many different sources as possible and have tried to maintain a balance between popular and academic literature. This title will also be of interest to students of business studies and human resource management.

"Baruch: My Own Story" is the memoirs of Bernard M. Baruch, a man whose life spanned the late nineteenth century and over half of the twentieth century. Given the time period, he is a man who has seen much having met seven presidents, witnessing two wars and working on Wall Street for a time. In these memoirs, Baruch has tried to "set forth the philosophy through which he had sought to harmonize a readiness to risk something new with precautions against repeating the errors of the past."

*A patient who visits a physician or physician extender frequently receives a prescription for a medication. That prescription is brought to the pharmacy to be filled. The patient expects professional attention at the pharmacy. Part of that expectation involves any caution or warning the patient should heed while taking the medication. In your role, you will serve as a source of drug information. Patients and friends will ask you specific questions concerning the use of prescription and over-the-counter medications. You must know the trade and generic names of literally hundreds of medications. Furthermore, you must know the cautions and warnings associated with many agents. How are you to know this information about drugs? Certainly you have had instruction which presented the basics of anatomy, physiology, and pharmacology. This instruction has given you a sound foundation for learning more in these areas. This subcourse will present instruction in anatomy, physiology, and pharmacology. The material in anatomy and physiology is included to refresh your memory or to give you additional information so you can better understand the pharmacology material. This subcourse is approved for resident and correspondence course instruction. It reflects the current thought of the Academy of Health Sciences and conforms to printed Department of the Army doctrine as closely as currently possible. Featuring diverse chapters written by thirty principal scholars in the discipline, *Communication Is... Perspectives on Theory* is an innovative and evocative collection that examines what communication theory is and how it functions. Throughout the text, each scholar offers unique and insightful perspective, exposing readers to the myriad ways in which to analyze, understand, and think about communication. The book helps readers envision communication in alternative ways and better understand how various ideas and viewpoints within the discipline can work together to expand the overarching definition of communication. Nineteen different completions of "communication is" give voice to contemplative and exceptional constructions of what communication is and what it accomplishes. The chapters are organized around four broad methods of defining communication: locating, processing, appreciating, and actualizing. Holistically, the text invites readers to discuss, interrogate, and work through various ideas, interpretations, and definitions of communication. Designed to stimulate lively discussion, deep introspection, and critical thought, *Communication Is...* serves as an ideal textbook for senior and graduate-level courses in the discipline. It is also an excellent resource for communication scholars who are inspired to challenge, develop, or revisit their own definitions and understanding of communication.

Okonkwo is the greatest warrior alive, famous throughout West Africa. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. Chinua Achebe's stark novel reshaped both African and world literature. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy of works chronicling the fate of one African community, continued in *Arrow of God* and *No Longer at Ease*.

A longtime professor of Ethnic Studies at the University of California at Berkeley, Ronald Takaki was recognized as one of the foremost scholars of American ethnic history and diversity. When the first edition of *A Different Mirror* was published in 1993, *Publishers Weekly* called it "a brilliant revisionist history of America that is likely to become a classic of multicultural studies" and named it one of the ten best books of the year. Now Rebecca Stefoff, who adapted Howard Zinn's best-selling *A People's History of the United States* for younger readers, turns the updated 2008 edition of Takaki's multicultural masterwork into *A Different Mirror for Young People*. Drawing on Takaki's vast array of primary sources, and staying true to his own words whenever possible, *A Different Mirror for Young People* brings ethnic history alive through the words of people, including teenagers, who recorded their experiences in letters, diaries, and poems. Like Zinn's *A People's History*, Takaki's *A Different Mirror* offers a rich and rewarding "people's view" perspective on the American story.

We are living in a culture still defined by unrealistic gender stereotypes and expectations. Despite much progress being made, women are still not, on the whole, treated as equals to men. Gender pay gaps, invisible labour, and outdated attitudes towards women (especially around sex and relationships) mean that many of us grow into adulthood shackled to our need to be nice, liked, and to please, at the detriment of our happiness and wellbeing. In Ditch the People Pleaser, you are going to explore four of the areas where you may find yourself people pleasing: life, relationships (including love and sex), work, and business and leadership. This book will help you to: 1) Undo the effects of people pleasing in your life so you ARE free from expectations + boxes. 2) Release the need to please so you are able to achieve deep connection, a sense of purpose + guidance from your inner knowing. 3) Break the cycle for your personal + spiritual growth AND for the young people in your life. You will be able to model and pass on a healthier way of being for the next generation. 4) Use techniques and practices that will transform the way you feel about being nice and acceptable. 5) Strengthen your relationship to yourself and the people in your life, expand into your work and contribute to compassionate change. Not only will you discover what the antidote is to people pleasing you will be supported with practical techniques and supportive resources to ditch the need to please right away. WONDERS OF TIME AND ETERNITY "And to them will I reveal all mysteries...Yea, even the wonders of eternity shall they know...And their wisdom shall be great, and their understanding reach to heaven; and before them the wisdom of the wise shall perish, and the understanding of the prudent shall come to naught. For...by my power will I make known unto them...things which eye has not seen, nor ear heard, nor yet entered into the heart of man. " (D&C 76:7-10) Knowledge is key to healing the physical body. This is a fact that no one disputes. There have been countless theories and experimental explorations in an attempt to bring forth the knowledge needed to heal . Modern science is beginning to show that the spiritual end of things is just as important as the physical in regard to health. Yet they still fail to use the most important information for this type of knowledge on the earth. For the most part, the world ignores vital information in scriptures and words of the prophets, seeing it as separate from the problems in health they are trying to solve, when the truth of the matter is that they contain the patterns, clues, and information most pertinent to true science and true healing. This book is an exploration of that science discovered through research and hands-on experience in the fields of energy work, physics, anatomy, physiology, Chinese philosophy, scriptures and

other ancient texts, religious principles, and personal revelation. Much of learning is also found as we analyze pertinent parallels presented by nature. As we apply knowledge of how the spiritual and physical realms interact, the body begins to heal itself and we step into our true identity as deity, learning to be as our Heavenly Parents. This book is dedicated to improving healthcare through reducing delays experienced by patients. With an interdisciplinary approach, this new edition, divided into five sections, begins by examining healthcare as an integrated system. Chapter 1 provides a hierarchical model of healthcare, rising from departments, to centers, regions and the "macro system." A new chapter demonstrates how to use simulation to assess the interaction of system components to achieve performance goals, and Chapter 3 provides hands-on methods for developing process models to identify and remove bottlenecks, and for developing facility plans. Section 2 addresses crowding and the consequences of delay. Two new chapters (4 and 5) focus on delays in emergency departments, and Chapter 6 then examines medical outcomes that result from waits for surgeries. Section 3 concentrates on management of demand. Chapter 7 presents breakthrough strategies that use real-time monitoring systems for continuous improvement. Chapter 8 looks at the patient appointment system, particularly through the approach of advanced access. Chapter 9 concentrates on managing waiting lists for surgeries, and Chapter 10 examines triage outside of emergency departments, with a focus on allied health programs. Section 4 offers analytical tools and models to support analysis of patient flows. Chapter 11 offers techniques for scheduling staff to match patterns in patient demand. Chapter 12 surveys the literature on simulation modeling, which is widely used for both healthcare design and process improvement. Chapter 13 is new and demonstrates the use of process mapping to represent a complex regional trauma system. Chapter 14 provides methods for forecasting demand for healthcare on a region-wide basis. Chapter 15 presents queueing theory as a method for modeling waits in healthcare, and Chapter 16 focuses on rapid delivery of medication in the event of a catastrophic event. Section 5 focuses on achieving change. Chapter 17 provides a diagnostic for assessing the state of a hospital and using the state assessment to select improvement strategies. Chapter 18 demonstrates the importance of optimizing care as patients transition from one care setting to the next. Chapter 19 is new and shows how to implement programs that improve patient satisfaction while also improving flow. Chapter 20 illustrates how to evaluate the overall portfolio of patient diagnostic groups to guide system changes, and Chapter 21 provides project management tools to guide the execution of patient flow projects.
