AMERICAN PASSAGES COMPACT ADVANTAGE VERSION, SECOND EDITION examines U.S. history the way people live--in the flow of time. Rather than pursuing one topic (such as politics, culture, society, reform, the military, or economics) at a time, each chapter of the text interweaves important themes and issues into one interrelated narrative. Through this method of presentation, students can observe the many ways that events, movements, and groups of people have served to shape history and can learn to make

connections between these themes and issues.

This black and white version of the text includes 4-8 pages of color map inserts to bring the regions to life. While the compact version includes fewer photos than the comprehensive version, it offers plenty of resources to make the course visual and exciting for students. In addition, students will have access to the Student website that offers quizzing, interactive maps, interactive timelines, simulations and links to over 400

African Americans or Black Americans. Of the 10.7 million Africans who were brought to the Americas until the 1860s, 450 thousand were shipped to what is now the United States. Most African Americans are descended from Africans who were brought directly from Africa to America and became slaves. The future slaves were originally captured in African wars or raids and transported in the Atlantic slave trade. Our collection includes the following works: Narrative Of The Life by Frederick Douglass. The impassioned abolitionist and

Incidents In The Life Of A Slave Girl by Harriet Jacobs. Powerful by portrayal of the brutality of slave life through the inspiring tale of one woman's dauntless spirit and faith. Up From Slavery by Booker T. Washington. Washington rose to become the most influential spokesman for African Americans of his day. He describes events in a remarkable

relation to the land they worked on, to the men they worked for, and to the government they lived under. Taking a comparative approach, Eric Foner examines Reconstruction in the southern states against the experience of Haiti, where a violent slave revolt was followed by the establishment of an undemocratic government and the imposition of a system of forced labor; the British Caribbean, where the colonial government oversaw an orderly transition from slavery to the creation of an almost totally dependent

work force; and early twentieth-century southern and eastern Africa, where a self-sufficient peasantry was dispossessed in order to create a dependent black work force. Measuring the progress of freedmen in the post--Civil War South against that of freedmen in other recently emancipated societies, Foner reveals Reconstruction to have been, despite its failings, a unique and dramatic experiment in interracial democracy in the aftermath of slavery. Steven Hahn's timely new foreword places Foner's analysis in the context of

This is Volume II (chapters 15-30) of WE THE PEOPLE. Crafted from the ground up to be a "brief" U.S. History text (rather than a condensed version of a larger text), WE THE PEOPLE tells the story of America through five recurring, interwoven themes: (1) the role of interacting cultures in the development of the American nation; (2) the social/cultural environment's interaction with political forces; (3) the evolution of a national identity; (4) changing cultural values; and (5) individuals' attempts to impose order on physical place and chronological time. Frequent quotations from individuals at all levels of society make this text well-rounded in its presentation of social and cultural history. In addition, each chapter opens with a story that features a longer quotation that illuminates the topics, events, and themes explicated in that chapter. WE THE PEOPLE is available in the

This collection serves as the primary anthology for the introductory survey course, covering the subject's entire chronological span. The fourth edition has been revised to reflect two new historiographical trends: the emergence of the history of

Several chapters include images, songs, and poems to give students a better “feel” for the time period and events under discussion. New York Times Bestseller In the most ambitious one-volume American history in decades, award-winning historian and New Yorker writer Jill Lepore offers a magisterial account of the origins and rise of a divided nation, an urgently needed reckoning with the beauty and tragedy of American history. Written in

elegiac prose, Lepore's groundbreaking investigation places truth itself—a devotion to facts, proof, and evidence—at the center of the nation's history. The American experiment rests on three ideas—"these truths," Jefferson called them—political equality, natural rights, and the sovereignty of the people. And it rests, too, on a fearless dedication to inquiry, Lepore argues, because self-government depends on it. But has the nation, and democracy itself, delivered on that promise? *These Truths* tells this uniquely American story, beginning in 1492, asking whether the course of events over more than five centuries has proven the nation's truths, or belied them. To answer that question, Lepore traces the intertwined histories of American politics, law, journalism, and technology, from the colonial town meeting to the nineteenth-century party machine, from talk radio to twenty-first-century

Internet polls, from Magna Carta to the Patriot Act, from the printing press to Facebook News. Along the way, Lepore's sovereign chronicle is filled with arresting sketches of both well known and lesser-known Americans, from a parade of presidents and a rogues' gallery of political mischief makers to the intrepid leaders of protest movements, including Frederick Douglass, the famed abolitionist orator; William Jennings Bryan, the three-time presidential candidate and ultimately tragic populist; Pauli Murray, the visionary civil rights strategist; and Phyllis Schlafly, the uncredited architect of modern conservatism. Americans are descended from slaves and slave owners, from conquerors and conquered, from immigrants and from people who have fought to end immigration. "A nation born in contradiction will fight forever over the meaning of its history," Lepore writes, but

engaging in that struggle by studying the past is part of the work of citizenship. "The past is an inheritance, a gift and a burden," These Truths observes. "It can't be shirked. There's nothing for it but to get to know it."

today more than ever. While countless contemporary textbooks have sought to relate this country's history, most have done so in fragmented, diluted, or unapproachable ways. These two volumes break down all the barriers to a full understanding of America: it has just two authors, each with a strong point of view; it is told in pure narrative form, befitting its riveting story; and it is as low-cost a textbook as there has ever been. Unlike other open access textbooks, Building the Republic is authoritative and coherent. Throughout, Harry Watson and

These two volumes sweep the reader up in the inimitable history of a country forever remaking itself.

Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. A longtime professor of Ethnic Studies at the University of California at Berkeley, Ronald Takaki was recognized as one of the foremost scholars of American ethnic history and diversity. When the first edition of *A Different Mirror* was published in 1993, *Publishers Weekly* called it "a brilliant

revisionist history of America that is likely to become a classic of multicultural studies" and named it one of the ten best books of the year. Now Rebecca Stefoff, who adapted Howard Zinn's best-selling *A People's History of the United States* for younger readers, turns the updated 2008 edition of Takaki's multicultural masterwork into *A Different Mirror for Young People*. Drawing on Takaki's vast array of primary sources, and staying true to his own words whenever possible, *A Different Mirror for Young People* brings ethnic history alive through the words of people, including teenagers, who recorded

their experiences in letters, diaries, and poems. Like Zinn's *A People's History*, Takaki's *A Different Mirror* offers a rich and rewarding "people's view" perspective on the American story.

Published by OpenStax College, *U.S. History* covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. *U.S. History* is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together

form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Shaped with a clear political chronology, MAKING AMERICA reflects the variety of individual experiences and cultures that comprise American society. The book's clear and helpful presentation speaks directly to

students, sparking their curiosity and inviting them to “do history” as well as read about it. For instructors whose classrooms mirror the diversity of today's college students, the strongly chronological narrative, together with visuals and an integrated program of learning and teaching aids, makes the historical content vivid and comprehensible to students at all levels of preparedness. For the past three decades, many history professors have

allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. A Patriot's History of the United States corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely

childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa's history that must never be forgotten."—Esquire Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Time, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah's unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents' indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government

that could, at any moment, steal him away. Finally liberated by the end of South Africa's tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man's relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to

survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.

be used as a student consumable. When publishers started putting their content online, it opened a niche for traditional school assignments, a void filled by this series. Additionally, whether the textbook itself is written in ink or electrons, many students still like to write and keep notes for themselves, and portfolios still matter. These activities challenge students to apply the concepts, give examples, and diagram each chapter. Find TTT on FB.

historian of the Left has managed to retain as much credibility while refusing to let his academic mantle change his beautiful writing style from being anything but direct, forthright, and accessible. Whether his subject is war, race, politics, economic justice, or history itself, each of his works serves as a reminder that to embrace one's subjectivity can mean embracing one's humanity, that heart and mind can speak with one voice. Here, in six sections, is the historian's own choice of his shorter essays on some of the most critical problems facing America throughout its history, and today.
