**The must-have guide to honestly and sensitively answering your clients' questions Written to help therapists view their clients' questions as collaborative elements of clinical work, What Do I Say? explores the questions—some direct, others unspoken—that all therapists, at one time or another, will encounter from clients. Authors and practicing therapists Linda Edelstein and Charles Waehler take a thought-provoking look at how answers to clients' questions shape a therapeutic climate of expression that encourages personal discovery and growth. Strategically arranged in a question-and-answer format for ease of use, this hands-on guide is conversational in tone and filled with personal examples from experienced therapists on twenty-three hot-button topics, including religion, sex, money, and boundaries. What Do I Say? tackles actual client questions, such as: Can you help me? (Chapter 1, The Early Sessions) Sorry I am late. Can we have extra time? (Chapter 9, Boundaries) I don't believe in all this therapy crap. What do you think about that? (Chapter 3, Therapeutic Process) Why is change so hard? (Chapter 4, Expectations About Change) Will you attend my graduation/wedding/musical performance/speech/business grand opening? (Chapter 20, Out of the Office) Where are you going on vacation? (Chapter 10, Personal Questions) I gave your name to a friend . . . Will you see her? (Chapter 9, Boundaries) Should I pray about my problems? (Chapter 12, Religion and Spirituality) Are you like all those other liberals who believe gay people have equal rights? (Chapter 13, Prejudice) The power of therapy lies in the freedom it offers clients to discuss anything and everything. It's not surprising then, that clients will surprise therapists with their experiences and sometimes with the questions they ask. What Do I Say? reveals how these questions—no matter how difficult or uncomfortable—can be used to support the therapeutic process rather than derail the therapist–client relationship.**

Trans Talmud places eunuchs and androgynes at the center of rabbinic literature and asks what we can learn from them about Judaism and the project of transgender history. Rather than treating these figures as anomalies to be justified or explained away, Max K. Strassfeld argues that they profoundly shaped ideas about law, as the rabbis constructed intricate taxonomies of gender across dozens of texts to understand an array of cultural tensions. Showing how rabbis employed eunuchs and androgynes to define proper forms of masculinity, Strassfeld emphasizes the unique potential of these figures to not only establish the boundary of law but exceed and transform it. Trans Talmud challenges how we understand gender in Judaism and demonstrates that acknowledging nonbinary gender prompts a reassessment of Jewish literature and law.

Longing: Psychoanalytic Musings on Desire is a contemporary, interdisciplinary exploration of one of psychoanalysis's most foundational and fascinating areas of investigation. This

anthology explores the vicissitudes and varieties of desire, its public and private, normative and transgressive, its light and dark expressions. It examines desire in its relational,

cultural, clinical, physical, sexual and aesthetic forms. Collectively, these essays demonstrate an understanding of the difficulties of identifying and realizing desire, precisely because

it is multiple, omnipresent, shape-shifting, ongoing and, perhaps, always ultimately unfulfillable. They question whether desire is by definition something that cannot be satisfied, and

contemplate how we relate to our desires? Interpersonal psychoanalytic practice and theory understands desire not merely as an intrapsychic drive but also as a force shaped by and shaping

interpersonal relationships. From within this perspective, a number of the contributors examine a broad variety of clinical manifestations of desire as it struggles for expression or

suppression.

With about 400 practice questions accompanied by full answer explanations, LSAT Workout focuses on the basic patterns of test question constructions and provides advanced discussions of
