Understanding Fiber Optics, with only minimal updates. Bessette/Pitney's AMERICAN GOVERNMENT AND POLITICS: DELIBERATION, DEMOCRACY, AND CITIZENSHIP is based on the idea of deliberative democracy: political systems work best when informed citizens and public officials deliberate to identify and promote the common good. Emphasizing citizenship, the text examines the way that civic culture and immigration impact students and shape the country. It offers solid historical coverage and a close look at civic responsibility. This version of the text does not include policy chapters. Strategic Marketing 8/e by Cravens and Piercy is a text and casebook that discusses the concepts and

processes for gaining the competitive advantage in the marketplace. The authors examine many components of a market-driven strategy, including technology, customer service, customer relationships, pricing, and the global economy. The text provides a strategic perspective and extends beyond the traditional focus on managing the marketing mix. The cases demonstrate how real companies build and implement effective strategies. Author David Cravens is well known in the marketing discipline and was the recipient of the Academy of Marketing Science's Outstanding Marketing Educator Award. Co-author Nigel Piercy, has a particular research interest in market-led strategic change and sales management, for which he has attracted academic and

The Environment is a lively, comprehensive introduction for environmental study, explaining how the environment functions, how environmental systems relate, and the ways in which people and environment interact. Focussing particularly on the environmental impacts of human activities, the book explains the ways in which an understanding of basic physical principles can help us to use the environment and its resources. Three particular approaches are adopted throughout: * a systems approach - highlighting the interactions and interrelationships between the environment's diverse parts * an interdisciplinary perspective - stepping back from individual subject focus to examine the complex breadth of the environment's diversity * a global perspective -*
