case studies...

Case Study

Methodology in

Business

Research sets out

structures and

guidelines that assist students and researchers from a wide range of disciplines to develop their case study research in a consistent and rigorous manner. It clarifies the differences between practice-

oriented and theory-oriented research and, within the latter category, between theory-testing and theory-building. It describes in detail how to design and conduct different types of case study research,

# Online Library

## Chapter 5

### Managerial Accounting Solutions

providing students  
and researchers  
with everything

they need for their  
project. The main  
aims are to: \*

present a broad  
spectrum of types  
of case study  
research (including  
practice-oriented  
case studies,

theory-building case studies and theory-testing case studies) in one consistent methodological framework. \* emphasize and clearly illustrate that the case study is the preferred research strategy

for testing  
deterministic  
propositions such  
as those  
expressing a  
necessary  
condition case by  
case and that the  
survey is the  
preferred research  
strategy for testing  
probabilistic

propositions. \*  
stress the role of  
replication in all  
theory-testing  
research,  
irrespective of  
which research  
strategy is chosen  
for a specific test. \*  
give more weight  
to the importance  
of theory-testing
