In this book Michael McKenna advances a new theory of moral responsibility, one that builds

upon the work of P. F. Strawson.  
As McKenna demonstrates,  
moral responsibility can be  
explained on analogy with a  
conversation. The relation

Agent meaning is a function of the moral quality of the will with which the agent acts. Those who hold an agent morally responsible for what she does do so by responding to her as if in a conversation. By responding with

is to be understood in terms of sensitivity to those who would make moral demands of her, thereby holding her responsible. Being responsible is therefore also dependent on holding responsible. Thus, neither being
