Emphasizing the conceptual development of statistical ideas, MIND ON STATISTICS actively engages students and explains topics in the context of excellent examples and case studies. This text balances the spirit of statistical literacy with statistical methodology taught in the introductory statistics course. Jessica Utts and Robert Heckard built the book on two learning premises: (1) New material is much easier to learn and remember if it is related to something interesting or previously known; (2) New material is easier to learn if you actively ask questions and answer them for yourself. More than any other text available, MIND ON STATISTICS motivates students to develop their statistical intuition by focusing on analyzing data and interpreting results as opposed to focusing on mathematical formulation. The new edition of this exciting text, enhanced with new material and features, appeals to a wide array of students and instructors alike.

All of the field's must-have information is delivered in an easy-to-grasp, visually clear and precise design.

Sarah Summers is enjoying a holiday on a Nigerian beach when a young girl named Little Bee crashes irrevocably into her life. All it takes is a brief and horrifying moment of crisis — a terrifying scene that no reader will forget. Afterwards, Sarah and Little Bee might expect never to see each other again. But Little Bee finds Sarah's husband's wallet in the sand, and smuggles herself on board a cargo vessel with his address in mind. She spends two years in detention in England before making her way to Sarah's house, with what will prove to be devastating timing. Chapter by chapter, alternating between Little Bee's voice and Sarah's, Chris Cleave wholly and caringly portrays two very different women trying to cope with events they'd never imagined. Little Bee is experiencing all the fullness and emptiness of the rich world for the first time, and her observations are hopeful, charming and piercing: "Most days I wish I was a British pound coin instead of an African girl," she says: "Everyone would be pleased to see me coming." Sarah is more cynical and disheartened, a successful magazine editor trying to find meaning in the face of turmoil at home and work. As the story develops, however, we learn about what matters most to her, including her fierce, protective love for her funny little son ("From the Spring of 2007 until the end of that long summer when Little Bee came to live with us," Sarah says, "my son removed his Batman costume only at bathtimes."). Sarah is trying to find herself as much as Little Bee is — and, unexpectedly, each character discovers a ray of hope in the other. What follows when Little Bee comes back into Sarah's life is a powerful story of reconciliation and healing, but it is mixed in with a generous helping of satire about the daily difficulties of modern life. This is a novel about important issues, from refugee policy to the devastating effects of violence, but more than that, it does something only great fiction can: Little Bee teaches us what it is like to live through experiences most of us think of only as far off disasters in the news. As ever, the author says it best: "It's an uplifting, thrilling, universal human story, and I just worked to keep it simple. One brave African girl; one brave Western woman. What if one just turned up on the other's doorstep one misty morning and asked, Can you help? And what if that help wasn't just a one-way street?"

The 40th anniversary edition of the classic Newbery Medal-winning title by beloved author Katherine Paterson, with brand-new bonus materials including an author's note by Katherine herself and a foreword by New York Times bestselling author Kate DiCamillo. Jess Aarons has been practicing all summer so he can be the fastest runner in the fifth grade. And he almost is, until the new girl in school, Leslie Burke, outpaces him. The two become fast friends and spend most days in the woods behind Leslie's house, where they invent an enchanted land called Terabithia. One morning, Leslie goes to Terabithia without Jess and a tragedy occurs. It will take the love of his family and the strength that Leslie has given him for Jess to be able to deal with his grief. Bridge to Terabithia was also named an ALA Notable Children's Book and has become a touchstone of children's literature, as have many of Katherine Paterson's other novels,

Winner of the National Book Award • Washington Post Best Book of the Year • A New York Times Notable Book From one of the most revered novelists of our time, an exquisitely told story of a boy on the cusp of manhood who seeks justice and understanding in the wake of a terrible crime that upends and forever transforms his family. One Sunday in the spring of 1988, a woman living on a reservation in North Dakota is attacked. The details of the crime are slow to surface because Geraldine Coutts is traumatized and reluctant to relive or reveal what happened, either to the police or to her husband, Bazil, and thirteen-year-old son, Joe. In one day, Joe's life is irrevocably transformed. He tries to heal his mother, but she will not leave her bed and slips into an abyss of solitude. Increasingly alone, Joe finds himself thrust prematurely into an adult world for which he is ill prepared. While his father, a tribal judge, endeavors to wrest justice from a situation that defies his efforts, Joe becomes frustrated with the official investigation and sets out with his trusted friends, Cappy, Zack, and Angus, to get some answers of his own. Their quest takes them first to the Round House, a sacred space and place of worship for the Ojibwe. And this is only the beginning. The Round House is a page-turning masterpiece—at once a powerful coming-of-age story, a mystery, and a tender, moving novel of family, history, and culture.
