Revision is serious business...and we're serious about revision. Inside this Revision Guide you'll find everything you need to succeed in the new GCSE 9-1 Science examinations. It is packed full of tips and tasks to make sure you really know and understand the key revision points. Written by Science experts and combined with cutting edge technology to help you revise on-the-go, you can: \* Use the free, personalised digital revision planner and get stuck into the quick tests to check your understanding \* Download our free revision cards which you can save to your phone to help you revise on the go \* Implement 'active' revision techniques - giving you lots of tips and tricks to help the knowledge sink in Snap it! Read it, snap it on your phone, revise it...helps you retain key facts Nail it! Examiner tips to help you get better grades Stretch it! Support for the really tough stuff that will get you higher grades The perfect companion... GCSE 9-1 Science Practice Book \* 100s of practice questions \* Exam techniques explained \* Matches 9-1 specification

Written by two students with 22 A\*'s between them at GCSE & IGCSE. This exam-focused guide will maximise any candidate's exam performance and will ensure that they obtain the best possible grade. It has been checked and approved by some of the country's finest teaching professionals and is full of insightful advice from the authors' personal experience of taking GCSE and IGCSE language examinations. Contains: Easy-to-follow formulae for German exam success Exam technique advice Guidelines on how to give what the examiner is looking for Sample reading and oral questions and how to answer them 50+ fantastic phrases and how to use them Sample essay Essential topic-specific vocab Grammar advice to gain you marks Tips to avoid the most common mistakes ... and all this from a duo who know where students go wrong, who understand what students find difficult and whose methods guarantee to boost your grade! The authors have A\*'s in IGCSE German, French and Spanish, as well as an average of 99% in GCSE Italian. Dan is currently reading French and German at Christ Church, Oxford, whilst Liam studies French and Spanish at Trinity College, Cambridge. Their proven knowledge of exactly how to succeed in the exam room makes this guide a must-have for all German students. \*All the tips and tricks you need for exam success\* - Emma Thoennisen, Teacher of German, Leek High School & Examiner for IGCSE German \*Extremely student-friendly and accessible - a book every GCSE German student should have!\* - Graham Samuels, Teacher of French & German, Woodbridge High School

Please note this title is suitable for any student studying: Exam Board: AQA Level: AS Level Subject: Biology First teaching: September 2015 First exams: June 2016 Fully revised and updated for the new linear qualification, written and checked by curriculum and specification experts, this Student Book supports and extends students through the new course whilst delivering the maths, practical and synoptic skills needed to succeed in the new A Levels and beyond. The book uses clear straightforward explanations to develop true subject knowledge and allow students to link ideas together while developing essential exam skills.

AQA Chemistry is the only set of resources to have been developed with, and exclusively endorsed by, AQA, making them the first choice to support the new AQA specification for AS and A2. With a range of truly blended resources, AQA Chemistry offers complete coverage and support through a variety of printed and electronic media. By working closely with AQA , Nelson Thornes have produced resources that will give students and teachers all they need to work through the specification with complete confidence.

A student-friendly and engaging resource for the 2016 Edexcel GCSE Geography B specification, this brand new course is written to match the demands of the specification. As well as providing thorough and rigorous coverage of the spec, this book is designed to engage students in their learning and to motivate them to progress.

Fully revised and updated for the new linear qualification, written and checked by curriculum and specification experts, this Student Book supports and extends students through the new course while delivering the breadth, depth, and skills needed to succeed in the new A Levels and beyond.

Polyesters and polyamides remain the most used group of synthetic fibres. This authoritative book reviews methods of their production, ways of improving their functionality and their wide range of applications. The first part of the book describes raw materials and manufacturing processes, including environmental issues. Part two considers ways of improving the functionality of polyester and polyamide fibres, including blending, weaving, coloration and other finishing techniques as well as new techniques such as nanotechnology. The final part of the book reviews the range of uses of these important fibres, from apparel and sportswear to automotive, medical and civil engineering applications. With its distinguished editors and international team of contributors, Polyesters and polyamides is a standard reference for all those using this important group of fibres. Reviews the chemical and physical properties of each fibre and their manufacture Analyses how the functionality of polyester and polyamides can be improved Provides examples of how the fibres are used in applications

AQA Approved Help students to apply and develop their knowledge, progressing from basic concepts to more complicated Chemistry, with worked examples, practical activities and mathematical support throughout - Provides support for all 12 required practicals with activities that introduce practical work and other experimental investigations in Chemistry - Offers detailed examples to help students get to grips with difficult concepts such as Physical Chemistry calculations - Mathematical skills are integrated throughout the book and all summarised in one chapter for easy reference - Allows you to easily measure

progression with Differentiated End of Topic questions and Test Yourself Questions - Develops understanding with free online access to Test yourself Answers, an Extended Glossary, Learning Outcomes and Topic Summaries AQA A-level Chemistry Year 1 includes AS-level.

Fully revised and updated content matching new Cambridge International Examinations 9701 syllabus for first examination in 2016. Endorsed by Cambridge International Examinations, this digital edition comprehensively covers all the knowledge and skills students need during the A Level Chemistry course (9701), for first examination in 2016, in a reflowable format, adapting to any screen size or device. Written by renowned experts in Chemistry teaching, the text is written in an accessible style with international learners in mind. Self-assessment questions allow learners to track their progress, and exam-style questions help learners to prepare thoroughly for their examinations. Answers to all the questions from within the Coursebook are provided.

The most comprehensive match to the new 2014 Chemistry syllabus, this completely revised edition gives you unrivalled support for the new concept-based approach, the Nature of science. The only DP Chemistry resource that includes support directly from the IB, focused exam practice, TOK links and real-life applications drive achievement.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE English qualifications. Written for the AQA GCSE English Literature specification for first teaching from 2015, this print Student Book provides specific set text coverage for the modern British fiction aspect of the specification. With progress at its heart and designed for classroom and independent use, students will build their skills through a range of active learning approaches, including class, group and individual activities. Incorporating differentiated support, activities will also help students develop whole-text knowledge. An enhanced digital version and free Teacher's Resource are also available.

This edition of our successful series to support the Cambridge IGCSE Chemistry syllabus (0620) is fully updated for the revised syllabus from first examination from 2016. Written by a team with teaching and examining experience, Cambridge IGCSE Chemistry Coursebook with CD-ROM gives comprehensive and accessible coverage of the syllabus. Suggestions for practical activities are included, designed to help develop the required experimental skills. Exam-style questions at the end of each chapter and a host of revision and practice material on the CD-ROM are designed to help students maximise their chances in their examinations. Answers to the exam-style questions in the Coursebook are provided on the CD-ROM.

**A full course textbook for the new National 5 Chemistry syllabus, endorsed by SQA! This book is designed to act as a valuable resource for pupils studying National 5 Chemistry. It provides a core text which adheres closely to the SQA syllabus, with each section of the book matching a unit of the syllabus, and each chapter corresponding to a content area. It is an ideal – and comprehensive – teaching and learning resource for National 5 Chemistry. In addition to the core text, the book contains a variety of special features: For Interest, Key Terms, Activities, Worked Examples, Questions, Prescribed Practical Activities, Summary, and Checklist for Revision. – The only textbook for the National 5 Chemistry syllabus offered by SQA, as examined 2014 onwards – Bestselling author team, with extremely high reputation for Scottish Chemistry titles – Full colour presentation and motivating text design to encourage student enthusiasm**

**Help your students perfect their understanding and prepare for examinations with accessible science content presented at the right level. An accessible Revision Guide that completely covers the most recent specification with up-to-date revision questions. Written by best-selling authors with substantial examining experience at both Foundation and Higher level for CCEA. – Ensures students' understanding with clear worked examples and content written at the correct level – Provides practice for assessment with lots of Revision Questions – Enables students to improve their grade with helpful exam tips that covers key terminology and guidance on preparing for assessment – Helps students to practise and remember key terms with a full Glossary**

**This insightful collection offers a timely contribution to the body of research on practical theorising in teacher education. Acknowledging the importance of experience and reflective practice in teaching, this book simultaneously embraces the essential need for teachers at all career stages to engage effectively and critically with evidence from research. Drawing together a range of perspectives from university-based and school-based teacher educators, this book examines the challenges and critiques advanced when practical theorising was first proposed, as well as recent tensions created by the performative culture that now pervades education. It illustrates the constant renegotiation and renewal necessary to sustain such an approach to beginners' learning, investigating a range of tools developed by teacher educators to help beginning teachers navigate these demands. Demonstrating the value of practical theorising and therefore promoting powerful professional learning for practitioners, this book is essential for teachers at all career stages, including trainee teachers and student teachers.**

Please note this title is suitable for any student studying: Exam Board: AQA Level: AQA Level: A Level Subject: Physics First teaching: September 2015 First exams: June 2017 Fully revised and updated for the new linear qualification, this Student Book supports and extends students through the new course whilst delivering the maths, practical and synoptic skills needed to succeed in the new A Levels and beyond. The book uses clear straightforward explanations to develop real subject knowledge and allow students to link ideas together while developing essential exam skills. N.B.Covers all optional AQA Physics topics with introduction and summary sections; full support for each option is provided on AQA A Level Physics Kenoodle.

Activate is a new KS3 Science course that supports every student on their journey through KS3 to KS4 success. This teacher handbook accompanies Activate Biology Student Book, with lesson suggestions that build the maths, literacy and working scientifically skills vital for success at KS4, and full assessment guidance for the new 2014 curriculum.

Each topic is treated from the beginning, without assuming prior knowledge. Each chapter starts with an opening section covering an application. These help students to understand the relevance of the topic; they are motivational and they make the text more accessible to the majority of students. Concept Maps have been added, which together with Summaries throughout, aid understanding of main ideas and connections between topics. Margin points highlight key points, making the text more accessible for learning and revision. Checkpoints in each chapter test students' understanding and support their private study. A selection of questions are included at the end of each chapter, many form past examination papers. Suggested answers are provided in the Answers Key.
