Cambridge IGCSE® ICT

Cambridge International AS/a Level Chemistry Study and Revision Guide Third Edition

Fully revised and updated content matching new Cambridge International Examinations 9701 syllabus for first examination in 2016. Endorsed by Cambridge International Examinations, this digital edition comprehensively covers all the knowledge and skills students need during the A Level Chemistry course (9701), for first examination in 2016, in a reflowable format, adapting to any screen size or device. Written by renowned experts in Chemistry teaching, the text is written in an accessible style with international learners in mind. Self-assessment questions allow learners to track their progress, and exam-style questions help learners to prepare thoroughly for their examinations. Answers to all the questions from within the Coursebook are provided.

This Study Guide has been written especially for students preparing from the University of Cambridge International Examination IGCSE Chemistry syllabus (Core and Extended curriculum). It provides all the explanation and advice students need to study efficiently for the exam. - The subject is divided into topics. - Each topic starts with a list of Key Objectives, which specifies the skills and knowledge that students need to acquire during the course. - Where appropriate, there is also a list of Key Definitions. - The Key Ideas sections outline the content and can be used by students to check that they know and understand the essential concepts for IGCSE Chemistry. - Common misconceptions and errors are highlighted. - Sample questions and answers and examiner's comments show students how to improve their answers and increase their grades. - Further questions (with answers at the back of the book) allow students to test their knowledge.

Chemistry for IGCSE is endorsed by CIE and completely matches specification 0620. It is written in a clear and direct manner by a team of experienced authors and CIE examiners, making it ideal for international school students. It takes an exam focus and features include exam-style questions, activities, case studies, key points & did you know?

This is an ebook version of the 'Advanced Study Guide - Chemistry - Ed 1 0*' published by Step-by-Step International Pte Ltd. [For the Higher 2 (H2) syllabus with last exam in 2016.] This ebook gives concise illustrated notes and worked examples. It is organised largely according to the Singapore-Cambridge GCE A-Level Higher 2 (H2) syllabus, with additional topics to cover the equivalent syllabuses of the University of Cambridge International Examination (CIE) A Level (Core & A2), and the International Baccalaureate (IB) Higher Level (Core & AHL). The concise notes cover essential steps to understand the relevant theories. The illustrations and worked examples show essential workings to apply those theories. We believe the notes and illustrations will help readers learn to "learn" and apply the relevant knowledge. The ebook should help readers study and prepare for their exams. Relevant feedbacks from Examiner Reports, reflecting what the examiners expected, are incorporated into the notes and illustrations where possible, or appended as notes (NB) where appropriate. It is also a suitable aid for teaching and revision. Sample pages are available (in .pdf) from our website.
