When a culture reawakens, that renewal can come in many forms. This book is part of the Myaamia community's ongoing cultural revitalization and aims to educate about the rich history of Miami patterns and their application to ribbonwork beginning in the late 1700s. Myaamia people used the geometric ribbonwork to adorn clothing for special occasions for both men and women, especially leggings, skirts and moccasins. This text is designed to assist in the reawakening of ribbonwork among the Miamis and includes: A history of Miami ribbonwork showing how the geometric patterns were used with other materials as well. Instructions for 3 ribbonwork projects, along with a list of necessary supplies and illustrated explanations of the various stitches used. Images of historic Miami ribbonwork found in North American collections. Examples of contemporary uses for ribbonwork patterns to help inspire community members to find ways to bring ribbonwork patterns into their daily lives. Considered by many to be a founder of Afrofuturism, Sun Ra—aka Herman Blount—was a composer, keyboardist, bandleader, philosopher, entrepreneur, poet, and self-proclaimed extraterrestrial from Saturn. He recorded over 200 albums with his Arkestra, which, dressed in Egypto-space costumes, played everything from boogie-woogie and swing to fusion and free jazz. John Szwed's *Space is the Place* is the definitive biography of this musical polymath, who was one of the twentieth century's greatest avant-garde artists and intellectuals. Charting the whole of Sun Ra's life and career, Szwed outlines how after years in Chicago as a blues and swing band pianist, Sun Ra set out in the 1950s to impart his views about the galaxy, black people, and spiritual matters by performing music with the Arkestra that was as vital and innovative as it was mercurial and confounding. Szwed's readers—whether they are just discovering Sun Ra or are among the legion of poets, artists, intellectuals, and musicians who consider him a spiritual godfather—will find that, indeed, space is the place.

One of the most dramatic eras in Indiana history, the natural gas boom in the east central region transformed a mostly agricultural area into a major industrial center. The discovery of natural gas created major cities in the place of county seat towns, boomtowns where there had been villages, and factories towering over former farm land. The impact of the boom lived on even after gas itself failed. Through a collection of vintage images, authors James A. Glass and David G. Kohrman provide an overview of the boom era and its legacy in the four county seats of the gas belt: Muncie, Anderson, Kokomo, and Marion, as well as smaller communities such as Elwood, Fairmount, and Gas City.

Through candid interviews with close friends, family, and the Beach Boys themselves, this biography portrays and evaluates all those who propelled the California myth, and the group who sang about it, into world-wide prominence. With dozens of photos, this book recounts the bitter saga of the American dream realized and distorted, and the music that survived. 66 photos.

The very strange but nevertheless true story of the dark underbelly of a 1960s hippie utopia. Laurel Canyon in the 1960s and early 1970s was a magical place where a dizzying array of musical artists congregated to create much of the music that provided the soundtrack to those turbulent times. Members of bands like the Byrds, the Doors, Buffalo Springfield, the Monkees, the Beach Boys, the Turtles, the Eagles, the Flying Burrito Brothers, Frank Zappa and the Mothers of Invention, Steppenwolf, CSN, Three Dog Night and Love, along with such singer/songwriters as Joni Mitchell, Judy Collins, James Taylor and Carole King, lived together and jammed together in the bucolic community nestled in the Hollywood Hills. But there was a dark side to that scene as well. Many didn't make it out alive, and many of those deaths remain shrouded in mystery to this day. Far more integrated into the scene than most would like to admit was a guy by the name of Charles Manson, along with his murderous entourage. Also floating about the periphery were various political operatives, up-and-coming politicians and intelligence personnel – the same sort of people who gave birth to many of the rock stars populating the canyon. And all the canyon's colorful characters – rock stars, hippies, murderers and politicians – happily coexisted alongside a covert military installation.

The relationship between chronic pain and addiction Patients with chronic pain understandably seek relief

from their distress and discomfort, but many medications that alleviate pain are potentially addictive, and most chronic pain conditions only have a temporary response to opiate analgesic drugs. This volume reviews the fundamental topics that underlie the complex relationships of this controversial domain. The authors review behavioral models and practical methods for understanding and treating chronic pain and addiction including methods to formulate patients with complex comorbidity and screen patients with chronic pain for addictive liability. Finally, the authors describe the current findings from clinical and basic science that illuminate the role of opiates, cannabinoids and ketamine in the treatment of chronic pain. Up to date and comprehensive, this book is relevant to all professionals engaged in the care of patients with chronic pain or addiction and all others interested in these contemporary issues, particularly non-clinicians seeking clarity in the controversy over the best approach to patients with chronic pain.

- Enables organizers to envision and implement a VBS program customized for the local church - Practical, comprehensive, from-the-ground-up approach to VBS Designing a Vacation Bible School program, as opposed to choosing one of the many off-the-shelf packages, is a labor of love. It considers the unique perspective of children and invests accordingly. It's a home-cooked meal compared to fast food. It sends a message to parents that a church values children enough to identify and meet their specific needs in their community at a particular moment in time. Well-designed VBS programs speak to children with respect, love, and patience, offering opportunity for authentic spiritual growth, not to mention an intentional theology that is reflective of the church. Finally, custom-designed VBS programs are a way to fully include children in the mission and ministry of the church rather than confine their unique gifts. This book provides Christian educators with the tools they need to assess the needs and resources in their congregation, and to craft a creative program in response to that assessment. The Best VBS Workbook Ever offers direction and suggestions on theme, structure, logistics, program, activities, staffing and promotion. Audience: Episcopal and other mainline churches looking for something more original and thoughtful than typical pre-packaged VBS programs, Directors of Christian Education, Directors of Children's Ministry, Camps and Retreat Centers, FORMA, Kanuga Christian Education conference, eFormation network

Wangers knows what he is talking about, for he was part of the most successful brand marketing campaign to ever come out of Detroit. This book provides an in-depth look at the great motor races that took place in Savannah, Georgia, in the golden era of early road racing: the Grand Prize of the Automobile Club of America and the Vanderbilt Cup. By examining Savannah's earlier fame in national bicycle racing competitions and its ties to the powerful dynasties who controlled the racing world, the book explains how and why Savannah was chosen. It details the construction of the course, reveals why the races and course were considered "America's greatest" by international racing experts of the period and includes many biographies of the drivers who came to Savannah. Finally, the book explores the theories and complexities of why Savannah's races and road racing in general came to an end.

Originally published in 1973, "Black Players" was the first book to undertake a thorough examination of the urban pimp culture. Social anthropologists Richard and Christina Milner were allowed access to the secretive and controversial world of pimps and prostitutes, and allowed the players to describe themselves, and the rules of the game in their own words.

For most people, the Great Crash of 2008 has meant troubling times. Not so for those in the flourishing poverty industry. These mercenary entrepreneurs have taken advantage of an era of deregulation to devise high-priced products to sell to the credit-hungry working poor, including the instant tax refund and the payday loan. In the process they've created an industry larger than the casino business and have proved that pawnbrokers and check cashers, if they dream big enough, can grow very rich off those with thin wallets. Broke, USA is Gary Rivlin's riveting report from the economic fringes. Timely, shocking, and powerful, it offers a much-needed look at why our country is in a financial mess and gives a voice to the millions of ordinary Americans left devastated in the wake of the economic collapse.

The stories of the first heroic black men and women who joined Alcoholics Anonymous, told wherever possible in their own words, recorded freely and frankly. The story begins with St. Louis (January 24, 1945); followed by Chicago (March 20, 1945), along with the factory and foundry towns which spread eastwards as suburbs. Later that same year (April 1945) came the story of Dr. James C. Scott, Jr., M.D., the black physician who founded the first black A.A. group in the nation's capital, and was the first black A.A. member to get his story in the Big Book. The book concludes with the story of Joe McQuany (March 10, 1962) of the Joe and Charlie tapes, the most famous black figure in A.A. History. The lives of thousands and thousands of alcoholics around the world were saved by listening to recordings of his careful page-by-page explanation of the message of the Big Book. The powerful spiritual messages of all these brave men and women struck the hearts of everyone who heard them speak.

Ignorant. Brutal. Male. One of these stereotypes of the Ku Klux Klan offers a misleading picture. In *Women of the Klan*, sociologist Kathleen M. Blee dismantles the popular notion that politically involved women are always inspired by pacifism, equality, and justice. In her new preface, Blee reflects on how recent scholarship on gender and right-wing extremism suggests new ways to understand women's place in the 1920s Klan's crusade for white and Christian supremacy.

Who's who in Chicago

A critical analysis of an exceptional American director

Dade City was named for Maj. Francis L. Dade, who perished in the Dade Battle, which opened the Second Seminole War in 1836. As the county seat, formality intermingles with frontier roots in a revered, historic courthouse, a stately jail, and an array of churches and historic homes. Dade City entices visitors with antique shops, cafés, and historical architecture. Folks are drawn to the hospitality of the Kumquat Festival, the homespun county fair, and agricultural showcases at area ranches. In 1908, O. Henry included Dade City in one of his short stories as a symbol of Americana. Surrounding the historic town are alluring places that tell the stories of Florida: the Withlacoochee State Forest, Lake Jovita, Trilby, Lahoochee, and San Antonio to name a few.

Governance and Ministry has proven to be an indispensable guide for leaders and clergy on how to work together to lead congregations. In this second edition, veteran congregational consultant and minister Dan Hotchkiss updates the book to reflect today's church and synagogue landscape and shares practical insights based on his work with readers of the first edition. Governance and Ministry highlights the importance of reaching the right governance model for a congregation to fulfill its mission—to achieve both the outward results and the inward quality of life to which it is called. Hotchkiss draws on governance research from business, non-profits, and churches, as well as deep experience in a variety of denominations and congregations to help readers determine the governance model that best fits their needs. The second edition has been streamlined and reorganized to better help readers think through leadership models and the process of change. The book features new material on the implications of congregation size, the process of governance change, policy choices, and the lay-clergy relationship. It also features two appendices with resources often requested by Hotchkiss's consulting clients: a style guide for policy-makers and a unified example of a board policy book. Written with energy and humor, and offering plenty of practical examples, the second edition of this helpful resource is ideal for anyone involved in church leadership to assist in framing critical questions, creating a vision, and implementing a plan.
