When Todd Harris makes the move from the mean streets of Chicago to the sleepy roads of Marietta, Montana, it's not just his career that's changing... it's his entire life. Going from police officer to forest ranger isn't too much of a stretch, but getting used to how things work in a small town is. As he settles in, Todd realizes he loves the slower pace of the

countryside, but then... an Olympic gold medalist comes to town and shatters his hard fought peace. But the town's new forest ranger doesn't like attention and he sure as hell isn't looking for any kind of relationship with someone who does. When Molly gets lost in the woods though and Todd is the one who saves her, the spark he's been trying to ignore smolders and ignites. It's then that he realizes there's a lot more to Molly than ambition and public adulation. When Todd signs up for the Men of Marietta calendar shoot to

economic, media, legal, political, and social dramas springing from this cultural transformation. Since 1998 the pet population in the U.S. has almost doubled -- about two-thirds of the country now owns a pet. No longer left to wander the neighborhood, dogs and cats eat special food, get individualized medical attention, and even fly in the cabin. As founder of the Animal Policy Group, Mark Cushing provides an inside look at the rise of Pet Nation, tracking the myriad ways pets are acquired (a "Canine Freedom

Insightful, surprising, and full of great stories, Pet Nation opens our eyes to the big changes happening in front of us right now. It shows us not only what our love of animals says about pets, it shows us what

Although the performance of many zones remains below expectations, the rate of establishment of new zones is accelerating as governments increasingly compete for internationally mobile industrial activity. Policymakers face not only the traditional challenges to making SEZs succeed, including the need for strategic focus, sound governance models, and effective investment promotion tools, but also new challenges brought about by the sustainable development imperative, the new industrial revolution, and changing patterns of international production. The Report explores the place of SEZs in today's

brachycephalic (flat-faced) animals are one of the most pressing problems facing companion animals right now. Dogs, in particular, are suffering from a 'brachycephalic crisis' resulting from a perfect storm where predispositions to an array of health issues are amplified by a population boom for certain brachycephalic breeds such as the French Bulldog and Pug. But yet, for many owners, these dogs represent the perfect companion:

endearing personas and cute looks in a socially desirable package. So where is the truth in all of this? This book will equip veterinary professionals, animal welfare scientists, breeders and owners with the fuller story about brachycephalic health and welfare. The first half of the book provides the context of how and why we are in this crisis, offering in-depth historical, social, ethical, communication, nursing, welfare, epidemiological,

In these experimental lyric essays, Lowrey explores queerness, PTSD, anxiety, and created family. A framing of Rally Obedience and Dog Agility course maps create a textured story on the page, a hybrid form in which Lowrey recounts a spiritual-like relationship to dogs beginning in childhood, a passion for dog shows fracturing in adolescence with a period of homelessness, a service dog, anxiety, and a return to dog sports. This collection transcends Lowrey's personal relationship with dogs to tell a larger story about healing, loss, trauma, survival, and of course the love (and salvation) of many good dogs.

But even when life is at its bleakest--when we are, as she puts it, "doomed, stunned, exhausted, and over-caffeinated"--the seeds of rejuvenation are at hand. "All truth is paradox," Lamott writes, "and this turns out to be a reason for hope. If you arrive at a place in life that is miserable, it will change." That is the time when we must pledge not to give up but "to do what Wendell Berry wrote: 'Be joyful, though you have considered all the facts.'" In this profound and funny book, Lamott calls for each of us to rediscover the nuggets of hope and wisdom that are buried within us that can make life sweeter than we ever imagined. forward. Candid and caring, insightful and sometimes hilarious, Almost Everything is the book we need and that only Anne Lamott can write.

Filled with inspiring stories and photographs, this heartfelt tribute to the pit bull celebrates one of America's most popular yet misunderstood dogs. Perhaps more than any other breed, the pit bull has been dogged by negative stereotypes. In truth, pit bulls are innately wonderful family pets, as capable of love and good deeds as any other type of dog. Setting the record straight, Ken Foster sings the praises of pit bulls in I'm a Good Dog, a gorgeously illustrated, tenderly written tribute to this most misunderstood of canines. Founder of the Sula Foundation, which promotes responsible pit bull ownership in New

Orleans, and the author of two acclaimed books about abandoned dogs, Foster has made it his mission to bring overlooked canines into the limelight. I'm a Good Dog traces the fascinating history of this particularly maligned breed. A century ago, the pit bull was considered a family dog, featured in family photos and trusted as loving companions for children. More recently, pit bulls have been portrayed by the media as stereotypes of everything they are not. Foster shatters that reputation through moving profiles of pit bulls that serve as therapy dogs, athletic heroes, search-and-rescue dogs, and educators, not to mention as loving pets. Foster also profiles many pit bull lovers, from Helen Keller and Dr. Seuss to actor Todd Cerveris, who took his pit bull on tour with him for the

Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to

learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In The First 20 Hours, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores

the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information

scale social projects to single-family luxury homes. These projects offer a way of thinking about the limits of housing: where it begins and where it ends. Regardless of type, her work advances an argument on housing that is simultaneously expansive and minimal, inseparable from the broader environment outside of it and predicated on the fundamental requirements of living. Working within the turbulent history of social housing in Mexico, Bilbao argues for participating even when circumstances are less than ideal--and from this participation she is able to propose specific strategies

honest version of yourself to the world. It means being authentic, bold, adventurous, and having an unapologetic approach to life. Hollywood is where Lauren Burningham, aspiring actress from Utah, fully embraced her alter-ego Lala Kent, entrepreneur, entertainer, and film and television star. Some say she's rude; Lala says she claps back. Some say she's spontaneous; Lala says "eat up the drama." Some say she's too bold; Lala knows she's reality TV gold. Truth is, without giving them Lala, Lauren could never have become the woman she is today. In her debut collection of essays, Lala shares how
