Hilary Mantel calls "a shining light." Alexander the Great stands alone as a leader and strategist, and Fire from Heaven is Mary Renault's unsurpassed dramatization of the formative years of his life. His parents fight for their precocious son's love: On one side, his volatile father, Philip, and on the other, his overbearing mother, Olympias. The story tells of the conqueror's two great bonds—to his horse, Oxhead, and to his dearest friend and eventual lover, Hephaestion—and of the army he commands when he is barely an adult. the truth that God is loving even in the midst of extreme heartache and unfulfilled desires. Children ask a lot of questions. Parents and grandparents often find themselves at a loss to explain a place that they suddenly may realize they don't know much about either. Colorfully illustrated and using simple concepts and language that children ages 4-7 can understand, A Place Called Heaven for Kids provides answers to 10 of these common questions. In doing so, it gives children peace of mind about their lost loved one as

The heartrending story of a midcentury American family with twelve children, six of them diagnosed with schizophrenia, that became science's great hope in the quest to understand the disease. "Reads like a medical detective journey and sheds light on a topic so many of us face: mental illness." —Oprah Winfrey Don and Mimi Galvin seemed to be living the American dream. After World War II, Don's work with the Air Force brought them to Colorado, where their twelve children perfectly spanned the baby boom: the oldest born in 1945, the youngest in 1965. In those years, there was an established script for a family like the Galvins--aspiration, hard work, upward mobility, domestic harmony--and they worked

hard to play their parts. But behind the scenes was a different story: psychological breakdown, sudden shocking violence, hidden abuse. By the mid-1970s, six of the ten Galvin boys, one after another, were diagnosed as schizophrenic. How could all this happen to one family? What took place inside the house on Hidden Valley Road was so extraordinary that the Galvins became one of the first families to be studied by the National Institute of Mental Health. Their story offers a shadow history of the science of schizophrenia, from the era of institutionalization, lobotomy, and the schizophrenogenic mother to the search for genetic markers for the disease, always amid profound disagreements about the nature of

Online Library Children Are From Heaven Positive Parenting Skills For Raising Cooperative Confident And Compass

the illness itself. And unbeknownst to the Galvins, samples of their DNA informed decades of genetic research that continues today, offering paths to treatment, prediction, and even eradication of the disease for future generations. With clarity and compassion, bestselling and award-winning author Robert Kolker uncovers one family's unforgettable legacy of suffering, love, and hope. Eighteenth-century Naples provides the setting for the pain, fears, resentments, desires, and triumphs of peasant-born Guido Maffeo and patrician-born Tonio Treschi, two castrati--mentor and angel-voiced student--who strive passionately to live full lives

One morning, Emma wakes up feeling excited about a very special dream. She flies up high through the clouds and comes to a beautiful land called heaven where she

has all sorts of adventures. Is this just a dream, or is there something magical about her journey?

Nineteenth-century British poet William Wordsworth expressed the idea that we gradually lose our intimate knowledge of heaven as we grow up, observing that "our birth is but a sleep and a forgetting" of our previous heavenly existence. Dr. Wayne W. Dyer and co-author Dee Garnes had often talked about how the ones who know the most about God are those who have just recently been wrapped in the arms of the Divine, our infants and toddlers. In fact, Dee had an interaction with her own young son that convinced her of this. Curious about this phenomenon, Wayne and Dee decided to issue an invitation to parents all over the world to share their

Online Library Children Are From Heaven Positive Parenting Skills For Raising Cooperative Confident And Compass

experiences. The overwhelming response they received prompted them to put together this book, which includes the most interesting and illuminating of these stories in which very young children speak about their remembrances before they were born. It seems that infants and toddlers often arrive here with memories of their lifetimes in the spirit world and frequently provide evidence of this to their immediate families. They tell of dialogues with God, give evidence that they themselves had a hand in picking their own parents, speak about long-deceased family members they knew while in the dimension of Spirit, verify past-life recollections, and speak eloquently and accurately of a kind of Divine love that exists beyond this physical realm--and even of times

Online Library Children Are From Heaven Positive Parenting Skills For Raising Cooperative Confident And Compass

when telepathic communication took place, as well as the ability to decide just when they would come here to Earth. This fascinating book encourages parents and grandparents to take a much more active role in communicating with their new arrivals . . . and to realize that there is far more to this earthly experience than what we perceive with our five senses.

Rice from Heaven is a true story about compassion and bravery as a young girl and her community in South Korea help deliver rice via balloons to the starving and oppressed people in North Korea. "We reach a place where mountains become a wall. A wall so high, no one dares to climb. Beyond that wall and across the sea live children just like me, except they do not have food to

eat." Yoori lives in South Korea and doesn't know what North Korea is like, but her father (Appa) does. Appa grew up in North Korea, where he did not have enough food to eat. Starving, he fled to South Korea in search of a better life. Yoori doesn't know how she can help as she's only a little "grain of rice" herself, but Appa tells her that they can secretly help the starving people by sending special balloons that carry rice over the border. Villagers glare and grumble, and children protest feeding the enemy, but Yoori doesn't back down. She has to help. People right over the border don't have food. No rice, and no green fields. With renewed spirit, volunteers gather in groups, fill the balloons with air, and tie the Styrofoam containers filled with rice to the tails of the balloons. With

a little push, the balloons soar up and over the border, carrying rice in the darkness of the night over to North Korea.
