

Childrens Animal World Encyclopedia

A charming first animal encyclopedia bursting with facts, perfect for little learners ages 4-7 who want to know everything about the creatures they love. From elephants to sharks to penguins, My Encyclopedia of Very Important Animals is bursting with facts about the wonderful world of animals-what they eat, what they do, where they live, and so much more. Kids can even learn what makes an animal an animal, what makes a mammal a mammal, and what it means to be endangered or become extinct. Animal folklore and legends are included to add cultural context and significance. Blending adorable, simple illustrations with rich photography and lively text, My Encyclopedia of Very Important Animals is a very important book for very important people, the perfect first animal reference book for young readers.

An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

If you're wild about animals, this visual encyclopedia is the ultimate page-turner, bringing our planet's creatures together in spectacular style. This inspiring children's reference guide welcomes you to the animal kingdom where you can meet more than 1,500 species, ranging from ants to zebras and everything in between. Stunning pictures bring you face to face with giant predators you know and love, including polar bears and tigers, as well as mysterious microscopic life, including amoebas and bacteria. A variety of animal habitats are shown in beautiful detail, while accessible information, additional fact boxes, and amazing galleries complete the stories. A jaw-dropping spectrum of animal types - from fish and birds to reptiles and mammals - provides a learning experience like no other. Whether you're a budding naturalist or simply want to complete a school project, The Animal Book has got it covered.

Plunge into the diversity of the animal kingdom in this Encyclopaedia of Animals. Packed with over 500 creatures, every one is looked at in detail by a natural history expert. From the tiniest sponge to the largest elephant, all entries are gloriously illustrated in this spectacular celebration of life on Earth.

A First Reference Guide to the Animals of the World

Whether shark mad, dotty for dolphins or orca obsessed, this extraordinary encyclopedia has all you need to know about life beneath the ocean. Full of fascinating facts and stunning sea life photography, this book covers everything from the ocean shores to deep sea creatures. Find out why octopuses release ink, why clownfish live in anemone tentacles and where can you find a halloween crab. Based on the latest research, this definitive guide to ocean life includes easy-to-follow information on anatomy and behavior of sea creatures. It also includes fun fact-boxes, with information you wouldn't believe! Perfect for children working on a school project, or simply the ocean obsessed, the Children's Encyclopedia of Ocean Life is a brilliant guide for kids aged 8+.

View the animal kingdom up close as never before in this breathtaking title, which has already sold over 1.5 million copies. Written by 70 specialists, it features stunning wildlife photography of more than 2000 of the world's most important wild mammals, birds, reptiles, amphibians, and insects. With around two million species identified to date, animals are the dominant and most varied form of life on the planet. Animal presents a representative selection, ranging from the giant baleen whale, to fast-moving predators such as sharks, big cats, and birds of prey, as well as microscopic

beetles barely 1mm long and other insects. It presents some of the latest species to be described: meet the cute but elusive olinguito from South America, which was only identified in 2013, or the skywalker hoolock gibbon that was named after a Star Wars character in 2017. Animal also explains how the earth's biodiversity is in sharp decline and the conservation projects underway to safeguard precious species. For each one, it gives a locator map and statistics, including its conservation status. For anyone who wants a reliable and enthralling reference, in which you can find the answers to everything - from why zebras are striped or how the sunbear got its name - Animal is your essential one-stop guide.

From the wings of the mighty albatross to the deadly facts of the great white shark, Knowledge Encyclopedia Animal! transports you into the jaw-dropping, heart-thumping, pulse-racing world of the animal kingdom. Exploring everything from habitats and ecosystems to senses and respiration, Knowledge Encyclopedia Animal! is easy to follow and full of fun facts for kids. Bursting with amazing 3D images, the animals are brought to life, from the tiniest of crustaceans to the mightiest of mammals, in a brand new, all-encompassing animal expedition. Knowledge Encyclopedia Animal! allows you to take a closer look at the ever-evolving world of your favourite animals and is perfect for children aged 9 and up. Get ready to bring the animal kingdom to rip-roaring life!

A fantastic selection of facts and, of course, lots and lots of stickers, to keep children entertained for hours. Meet a huge range of baby animals, from favourite creatures to animals you might not have heard of before! Learn about the different animal types - mammals, birds, reptiles, amphibians, fish, and invertebrates. Discover their habitats and learn how they feed, grow, and play. Children will love searching for the right stickers for each page, and fun scenes allow them to use their creativity to add stickers freely. Fun facts mean kids learn as they go, too. For example, did you know that a newborn ferret is so small that it can fit on a teaspoon? Or that when baby dolphins play, they do somersaults in the air? A huge range of animals are featured, including top trending animals such as quokkas, sloths, and hedgehogs. With more than 600 stickers, children will have plenty of creatures to choose to use in the book but to stick elsewhere too. Some of the baby animals in this book are fluffy and some are scaly; some of them live in the sea and some in the desert; but one thing they have in common is that they are all adorable!
