The funny story of Wolf who wants to change the colors in his life!

A story about a white seal named Kotick who learns how to get along in his Arctic environment during his herd's first migration. For elementary grades.

At the age of 18, Beverly Hills native Aaron Cohen left his life of comfort to prove himself in the crucible of the armed forces - and not just any armed forces.

He was determined to be a part of Israel's most elite security forces. In 15 months of gruelling training, Cohen acquired skills that usually take years to master: expertise in combat infantry tactics, urban counter-terror warfare; he became a firearms expert, Krav Maga martial artist, undercover operative, getaway-car driver. He was offered the only post a non-Israeli can hold: in a top-secret, highly controversial unit which dispatches operatives disguised as Arabs into the Palestinian-controlled West Bank to abduct Hamas leaders and bring them to Israel for trial. Between 1997 and 2000, Aaron

Cohen would learn flawless Hebrew and conversational Arabic, lose any semblance of his all-American-90210 appearance, and participate in over 200 life or death missions. A propulsive, gripping read, Cohen's story is a rare fly-on-the-wall view into the shadowy world of 'Black Ops' that will redefine readers' understanding of what invincible strength, true danger, and inviolable security really is. His name is Dumpster Dog. He sleeps outside, walks himself, and eats whatever he wants, whenever he wants. But a life outdoors isn't everything--Dumpster Dog needs a friend.

The baby owls came out of their house, and they sat on the tree and waited. A big branch for Sarah, a small branch for Percy, and an old piece of ivy for Bill. When three baby owls awake one night to find their mother gone, they can't help but wonder where she is. Stunning illustrations from unique and striking perspectives capture the owls as they worry about their mother: What is she doing? When will she be back? What scary things move all around them? Not surprisingly, a joyous flapping and

dancing and bouncing greets her return, lending a celebratory tone to the ending of this comforting tale. Never has the plight of young ones who miss their mother been so simply told or so beautifully rendered.

The story develops in everyday scenes, mixing reality with fantasy, making happenings which could seem very unlikely, credible; to end up being resolved with the help of nature that, simply and "naturally", brings everything to a happy end.

As Janell Burley Hofmann, mother of five, wrapped her

13-year-old's iPhone on Christmas Eve, she was

overwhelmed by questions: "Will my children learn to sit and wonder without Googling? Should I know their passwords for online accounts? Will they experience the value of personal connection without technology?" To address her concerns, she outlined boundaries and expectations in a contract for her son to sign upon receiving his first cell phone. When Hofmann's editor at The Huffington Post posted the contract, now known as iRules, it resonated on a massive scale and went viral, resulting in a tsunami of media coverage and requests. It quickly became apparent that people across the country were hungry for more. In iRules, Hofmann provides families with the tools they need to find a

balance between technology and human interaction through a philosophy she calls Slow Tech Parenting. In the book, she educates parents about the online culture tweens and teens enter the minute they go online, exploring issues like cyberbullying, friend fail, and sexting, as well as helping parents create their own iRules contracts to fit their families' needs. As funny and readable as it is prescriptive, iRules will help parents figure out when to unplug and how to stay in sync with the changing world of technology, while teaching their children self-respect, integrity, and responsibility.
