More than 800,000 copies in print! From the author of critically acclaimed and bestselling memoir *Falling Leaves*, this is a poignant and moving true account of her childhood, growing up as an unloved daughter in 1940s China. A Chinese proverb says, "Falling leaves return to their roots." In her own courageous voice, Adeline Yen Mah returns to her roots to tell the story of her painful childhood and her ultimate triumph in the face of despair. Adeline's affluent, powerful family considers her bad luck after her mother dies giving birth to her, and life does not get any easier when her father remarries. Adeline and her siblings are subjected to the disdain of her stepmother, while her stepbrother and stepsister are spoiled with gifts and attention. Although Adeline wins prizes at school, they are not enough to compensate for what she really yearns for -- the love and understanding of her family. Like the classic Cinderella story, this powerful memoir is a moving story of resilience and hope. Includes an Author's Note, a 6-page photo insert, a historical note, and the Chinese text of the original Chinese Cinderella. Dementia is a devastating condition, with profound cognitive changes affecting every aspect of an individual's functioning. The loss of communication is one symptom above others that causes distress and impacts negatively on quality of life, yet it is still one of the least understood aspects of dementia. This book undertakes a comprehensive examination of language and communication in individuals with cognitive impairment and dementia. Each chapter covers a specific neurodegenerative disorder, and addresses the epidemiology, aetiology, pathophysiology, prognosis and clinical features, along with the assessment and treatment of these disorders by speech-language pathologists. Many examples of language from individuals with neurodegenerative conditions are included, to explain clearly the effects of dementia on communication, and there are exercises at the end of each chapter, to develop language analysis skills. The book is suitable reading for all medical and health professionals, including speech-language pathologists, clinical psychologists and neuropsychologists, geriatricians, neurologists and psychiatrists.

The new edition of this widely adopted book reveals how the popular media contribute to widespread myths and misunderstanding about cultural diversity. While focused on the impact of television, feature film, and popular music, the authors reach far beyond media to explore how our understanding, values, and beliefs about race, class, gender and sexual orientation are constructed. They analyze how personal histories, combined with the collective history of oppression and liberation, contribute to stereotypes and misinformation, as well as how personal engagement with media can impact prospects for individual and social freedom. Along with updated media examples, expanded theories and analysis, this edition explores even more deeply the coverage of race in two chapters, discusses more broadly how men and boys are depicted in the media and socialized, and how class issues have become even more visible since the Great Recession of the 21st century and the Occupy movements. Special activities and exercises are provided in the book and an online Instructor's Manual is available to adopters.

#1 New York Times bestselling author of It Ends With Us writes a free novella about the search for happily ever after. A chance encounter in the dark leads eighteen-year-old Daniel and the girl who stumbles across him to profess their love for each other. But this love has conditions: they agree it will only last one hour and it will only be make-believe. When their hour is up and

the girl rushes off like Cinderella, Daniel tries to convince himself that what happened between them only seemed perfect because they were pretending it was perfect. Moments like that with girls like her don't happen outside of fairytales. One year and one bad relationship later, his disbelief in insta-love is stripped away the day he meets Six: a girl with a strange name and an even stranger personality. But Daniel soon realizes that fairytales don't exist, and unfortunately for Daniel, finding Cinderella doesn't guarantee their happily ever after...it only further threatens it.

Set in New York in the Depression, this is the story of Jim Braddock, who takes up boxing to make money to feed his family, and eventually goes up against champ Max Baer, notorious for having killed two men in the ring. James J. Braddock, born in New York City, was known locally for his thunderous right hand and successful amateur boxing career. After turning professional, he defeated foe after foe, and his rapid rise from obscurity earned him the nickname, the Cinderella Man. He was given a shot at the world light heavyweight title against champion Tommy Loughran in 1929, but lost in a 15-round decision. Following that defeat and the stock market crash of 1929, Jim Braddock struggled to win fights and provide for his young family. Eventually Jim's luck turned. In 1934 he had upset wins against Corn Griffin and John Henry Lewis. With these two wins, Braddock set himself up for another shot at the world title – against heavyweight champion, Max Baer. On 13 June 1935, as a 10 to 1 underdog, Jim took the world title from Max Baer in what was described as, 'the greatest fistic upset since the defeat of John L. Sullivan by Jim Corbett'. Braddock would lose his heavyweight title two years later in an eight-round KO to 'The Brown Bomber', Joe Louis. Jim was inducted into the Ring Boxing Hall of Fame in 1964, the Hudson County Hall of Fame in 1991 and the International Boxing Hall of Fame in 2001.**

Each chapter?including the optional Industrial/Organizational Psychology chapter?contains a detailed outline, a key-terms section that presents fresh examples and learning aids, plus a fill-in-the-blank test, learning objectives, a concepts and exercises section that shows students how to apply their knowledge of psychology to everyday issues and concerns, a critical-thinking exercise, and personal learning activities. With the rapid changes in the social, political, economic and technological landscape around the world, today's learners face a more globally competitive job market after leaving school. The 21st century, which is characterized by the emergence of knowledge-based societies, expects learners to be comfortable in dealing with ambiguities and complexities in the real world and to be able to use knowledge as a tool at their workplace. This book will help readers develop an in-depth understanding of authentic problem solving and learning, and how it can be used to make a difference in their school or learning communities for the development of 21st century competencies. Comprising 20 chapters written by Singapore-based and international authors, the book is organized into three themes: authentic problems, authentic practices, and authentic participation. It details innovative school practices (e.g. productive failure) concerning the design of problems, learning activities, learning environments, and ICT tools for authentic problem solving and learning. Along with theoretical explanations of authentic learning processes and outcomes, the book also elucidates how students learn by generating and exploring solutions to complex problems and which cognitive functions are needed at different stages of problem-based learning. Presenting coherent descriptions of instructional design principles, successful cases and challenges encountered in K-12 schools and learning communities, the book provides useful information, new insights, and practical guidance for school directors, parents, teachers and researchers seeking to develop authentic learning environments for 21st century learners.

*Questioning Gender: A Sociological Exploration* serves as a point-of-departure for productive conversations and questions about gender and as a resource for exploring answers to many of those questions. Rather than providing definitive answers, this book takes a global approach and aims to challenge readers' preconceptions about gender and to demonstrate how gender as a system creates and reinforces inequality. Author Robyn Ryle uses both historical and cross-cultural approaches to help readers understand the socially constructed nature of gender. With a focus on contemporary topics, including the #MeToo movement, sexual harassment in the workplace, and the gender wage gap, readers will be prompted to think critically about past, present, and future gender-related issues.
