When a non-emergency medical transportation vehicle came up for sale in 2005, Arnel Possi bought it for his car dealership. But something strange happened: Buyers were willing to pay much more than what Possi spent on the vehicle. Suddenly, he found himself interested in the non-emergency medical transportation business. With some research, he discovered that non-emergency medical transportation vehicles can transport patients with the same ailments, physical limitations or disabilities as emergency vehicles—the only difference is that when NEMT vehicles transport someone, there is no perceived emergency at the time of transport. In this guidebook to building your own NEMT business, you'll learn where to find vehicles, how to find Medicaid clients, and how to run the business before spending any money. You'll also find out how to anticipate what to expect on a typical business day; deal with drivers, clients, and the businesses you contract with, and get acquainted with government agency staff. Unravel the mysteries of the NEMT business, and reap the financial rewards that come along with providing a valuable service for your community.

Growing Up is Hard to Do, yet there are very few comprehensive "how to" manuals for young people, to help them negotiate and understand what momentous changes occur on the winding road between infancy and adulthood. In this helpful, highly readable manual, Dr. Spence, an Obstetrician and Gynecologist, with further sub-specialty training in Pediatric Gynecology, examines each stage of development, pointing out the many difficulties that may be encountered along the way. He tackles the issues head-on: conception, the early years, off to school with potential bullying, childhood sexual abuse and what happens during puberty. In warm, empathetic, and accessible language, concerns like sex, unwanted pregnancy, sexually transmitted diseases, and gender issues are discussed. In addition, he delves into subjects such as smoking, alcohol, marijuana, illegal drug use and the risks of the Internet and teenage driving. Nutrition, obesity, anorexia and exercise are highlighted. The last chapter comments on the value of completing one's education and choosing an appropriate career. In treating young people for over forty years, Dr. Spence has seen many teenagers and their families suffer the tragic consequences of poor or uninformed choices. He wrote Growing Up is Hard to Do to provide honest, unfiltered information in the hope of helping young readers avoid many of the "potholes" of early life. Though the book is written specifically for young people negotiating growing up, parents, caregivers and teachers will also find it very helpful in providing information and context for further discussion.

A philosopher/mechanic's wise (and sometimes funny) look at the challenges and pleasures of working with one's hands "This is a deep exploration of craftsmanship by someone with real, hands-on knowledge. The book is also quirky, surprising, and sometimes quite moving." –Richard Sennett, author of The Craftsman Called "the sleeper hit of the publishing season" by The Boston Globe, Shop Class as Soulcraft became an instant bestseller, attracting readers with its radical (and timely) reappraisal of the merits of skilled manual labor. On both economic and psychological grounds, author Matthew B. Crawford questions the educational imperative of turning everyone into a "knowledge worker," based on a misguided separation of thinking from doing. Using his own experience as an electrician and mechanic, Crawford presents a wonderfully articulated call for self-reliance and a moving reflection on how we can live concretely in an ever more abstract world.

"I feel twisted", "I look crooked in the mirror", "My problems have been going on for years", "I have tried every kind of treatment" are commonly heard statements. Whether you have complaints or not, it's time to look at your body alignment, given that the pelvis and spine are not properly aligned in 80% of us. Think of a car that has an alignment problem! The tires wear differently and the car may wiggle and wobble, eventually causing structural damage to the frame and steering mechanism. We are not so different. Unwanted stresses caused by malalignment can affect every part of your body. You may feel it, for example, as "low back pain", a "bursitis", "tight hamstrings". This book starts by explaining how your pelvis and spine function when in alignment and what happens when things go wrong. It describes some easy ways to recognize and treat the three most common ways the pelvis goes out of alignment. Then it outlines the "malalignment syndrome" - the typical changes and complaints associated with malalignment that, unfortunately, often lead to unwarranted investigation, misdiagnosis, and inappropriate and sometimes harmful treatment. After discussing the impact on various sports, it provides a comprehensive treatment approach aimed at achieving and maintaining your alignment making use of appropriate complementary techniques and encouraging your regular participation to achieve lasting results.

One of Fuller's most popular works, Operating Manual for Spaceship Earth, is a brilliant synthesis of his world view. In this very accessible volume, Fuller investigates the great challenges facing humanity. How will humanity survive? How does automation influence individualization more effectively to realize our potential to end poverty in this generation? He questions the concept of specialization, calls for a design revolution of innovation, and offers advice on how to guide "spaceship earth" toward a sustainable future. Life is not a playground. It is a war zone-a clash of worldviews competing for the souls of men and the destiny of nations. Fundamentally, the crisis of our time is one of leadership. "The KLI Manual: Raising Up Leaders a Time Like This Demands" is a spiritual field manual designed to train Christian leaders who will not shrink back in the day of battle. Are you concerned for this generation, adrift on a sea of turmoil with no purpose, vision, or sense of destiny? Do you yearn for God to replace their apathy, lethargy, and indifference with courage, vision, and a clarion call to vital service for King Jesus? "The KLI Manual: Raising Up Leaders a Time Like This Demands" will give you hope for a godly future. 'Rusty Thomas's passionate voice cries in the wilderness of America. His message carries a clarion call that challenges our young to advance the Christian faith and the liberty it secures for our nation.' William J. Federer, "American Minute" Bestselling Author, "America's God and Country Encyclopedia of Quotations"

One of these five novellas, "The Girl Who Fell into the Sky," which won the 1986 Nebula Award for the best novelette, is about an old player piano that transports two people 100 years into the past where they become involved in a murder. Recommended.

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).
