Tussy/Gustafson/Koenig's BASIC COLLEGE MATHEMATICS WITH EARLY INTEGERS, Fifth Edition, integrates the best of traditional drill and

practice with the best elements of the reform movement. To many developmental math students, mathematics is like a foreign language. They have difficulty translating the words, their meanings, and how they apply to problem solving. Emphasizing the "language of mathematics," the text's fully integrated learning process is designed to expand students' reasoning abilities and teach them how to read, write, and think mathematically. It blends instructional approaches that include vocabulary, practice, and well-defined pedagogy with an emphasis on reasoning, modeling, communication, and technology skills. This book looks at education reforms, planning and policy through an exploration of the Yash Pal Committee report (1993) in India, which made recommendations to improve the quality of learning while reducing cognitive burden on students. It analyses the wide-ranging impact the report had on curriculum, pedagogy, teacher education reforms and the national policy on education. The book examines the legacy of the report, tracing the various deliberations and critical engagements with issues around literacy, language and mathematics learning, curriculum reforms and classroom practices, assessment and evaluation. It reviews contemporary developments in research on learning in diverse disciplines and languages through the lens of the recommendations made by the Learning without Burden report while engaging with challenges and systemic issues which limit inclusivity and access to quality education. Drawing on extensive research and first-hand academic and teaching experience, this book will attract attention and interest of students and researchers of educational policy and analysis, linguistics, sociology and South Asian studies. It will also be of interest to policy makers, think tanks and civil society organisations.

The series Science Success is meant for Pre-primary and Classes 1 to 8. It fulfills the vision of National Curriculum Framework (NCF) is meant for the schools affiliated to CBSE and other schools affiliated to various State Education Boards. This series emphasizes meaningful learning of science for the overall development of learners. It focuses on helping children understand their natural environment and correlate science with their everyday experiences in an interesting and comprehensive manner. The text has been designed with beautiful illustrations to help children develop skills of observation, investigation, and scientific attitude. Goyal Brothers Prakashan
