In this step-by-step guide James Redfield begins his exploration of the emerging interest in spirituality around the globe. Beginning with a survey of the most common synchronistic experiences, he shows how those interested in broadening their spiritual perception can actually experience for themselves the shifts in consciousness that are changing the human world. Described as the most direct explanation of the new world vision presented in the phenomenally successful Celestine fiction series, this fascinating and illuminating book reveals the author's inside view of how we are discovering the transcendent in our everyday existence and interpreting our individual synchronicity to find our destined purpose in life. Based on James Redfield's own experiences and those reported to him from every corner of the world since the writing of *The Celestine Prophecy* and *The Tenth Insight*, this book describes the first-hand growth techniques Celestine fans everywhere are looking for - perfectly setting the stage for the next remarkable book in the Celestine series, *The Eleventh Insight*.

Israel Regardie, born Francis Israel Regudy (1907-1985) was an occultist and writer, author of books on the Hermetic Order of the Golden Dawn. The exercise known as the "Middle Pillar" was devised by the Hermetic Order of the Golden Dawn. Regardie expanded upon it and made it public over 60 years ago in the first edition of this book. Since that time, the exercise has been altered and adapted for just about any spiritual use you could think of. It is a mainstay of many Western traditions of magic. The exercise is intended as a technique to break the barrier between the conscious and unconscious. This classic work provides an introduction to magic and occultism while providing directions as to how to perform the Qabalistic Cross, the Lesser Banishing Ritual of the Pentagram and the Middle Pillar exercise. It remains a classic book in the field.

A Suggestive Inquiry Into the Hermetic Mystery The Book of Lambspring Celestine Vision (Eugenius Philalethes)

Kabbalah is the esoteric tradition within Judaism of things divine. It is a complete symbolic system expressing the archetypal structure of the cosmos, of society and of the individual psyche. Traditionally, only those who were mature, trained or wise were permitted to study this hidden, inner aspect of the Torah. Using the basic structure of the Tree of Life, with its fruit, the ten Sefirot or spheres of consciousness, Kabbalah reveals the patterns and correspondences of Creation, and the practices by which the initiate can ascend through the realms to unite with the Absolute, and so serve the divine plan. Although ancient in origin, Kabbalah is alive and continuing to develop. The vast body of knowledge accumulated over the centuries has undergone many changes, adapting to different places and periods, and yet the study of psychology and the path of spirituality have always remained the core of this Hokhmah Nestorah or "Hidden Wisdom". Today in workshops and retreats the timeless wisdom of Kabbalah can be explored anew to provide meaning, growth and spiritual renewal.

The Asclepius is one of two philosophical books ascribed to the legendary sage of Ancient Egypt, Hermes Trismegistus, who was believed in classical and renaissance times to have lived shortly after Moses. The Greek original, lost since classical times, is thought to date from the 2nd or 3rd century AD. However, a Latin version survived, of which this volume is a translation. Like its companion, the Corpus Hermeticum (or The Way of Hermes), the Asclepius describes the most profound philosophical questions in the form of a conversation about secrets: the nature of the One, the role of the

gods, and the stature of the human being. Not only does this work offer spiritual guidance, but it is also a valuable insight into the minds and emotions of the Egyptians in ancient and classical times. Many of the views expressed also reflect Gnostic beliefs which passed into early Christianity.

Prominent among the stones of a fireplace in my country den, one large rounded giant stands out. It was borne by the glacial streams from a more northern resting place and is marked by a fossil of a mollusk that inhabited northern seas many million years ago. Yet in spite of the eons of time that have passed it can be compared with specimens of mollusks that live to-day. Down through the countless centuries the living stream has carved its structural habitations in much the same form. The science of Paleontology has collected this history and has attempted a reconstruction of life from its beginnings. The Corpus Hermeticum is one of the primary works within the Hermetic Tradition. This Renaissance era craft is nonetheless based upon philosophical materials from far older times, namely the third or fourth century AD, from which the primordial material came. Credited to Hermes Trismegistus, the Divine Pymander (sometimes spelled "Poemander") touches upon astronomy, science, nature, and a great deal of theological material. It is presented in the form of discourse; a format which will be familiar to anyone also familiar with Plato's "Republic" and some similar philosophical works of antiquity.

Through his discourse with several individuals, Trismegistus attempts to draw upon the overarching philosophy "as above, so below." Thus then, this work describes the very process and ideation behind all of existence, the purpose of life, and the nature of good and evil, all through its treatises upon various topics.
