Neale Donald Walsch has changed the way the world thinks about God. His books have beentranslated into twenty-five languages, and his Conversations With God series, book1, book 2, and book 3, have all been New York Times bestsellers-book 1 for over two years. In the Conversations books, Walsch shared with his readers the beginning of a sacred relationship, as he began an exchange with God on everything from love and faith, to life and death, and good and evil. And then, as Walsch recounted in Friendship with God, something else extraordinary began to happen. His relationship with God began to strengthen and deepen, just as our own relationships do, into a friendship. Now in Communion with God, his most richly intimate book yet, Walsch discovers how to elevate that friendship to a state of communion. In this blueprint for seekers, he reveals The Ten Illusions of Man-the misconceptions we hold about ourselves and our world and our God. He describes with striking clarity how we might heal the great divide that has arisen from these illusions. And as he explores the true meaning of bringing God into our everyday lives, of having the courage of our convictions. Walsch shows us that we can only break free from our illusions when we act always from a place of deep fellowship with all that is holy-a place of communion with God.

Two strands make up the DNA that codes our intricate genetic makeup. Communion consists of two strands as well: the Bread – symbolizing the body of Jesus, and the Cup – representing the blood of Jesus. This devotional breaks down the facets of God's supernatural genes displayed through Jesus (the Living Word), and the Old and New Testaments (the written Word), defining a deeper revelation of how God's divine plan merged with His natural plan here on earth, giving us a level of authority unrealized and untapped by most. You are invited to an intimate and clarifying dive into who God is, and who He created you to be. Over these next 75 days, you will be taken on a biblical and spiritual journey, helping you delve into the mysteries of communion that God has illuminated for this season.

Being With God

The central task of Being With God is an analysis of the relation between apophaticism, trinitarian theology, and divine-human communion through a critical comparison of the trinitarian theologies of the Eastern Orthodox theologians Vladimir Lossky (1903–58) and John Zizioulas (1931–), arguably two of the most influential Orthodox theologians of the past century. These two theologians identify as the heart and center of all theological discourse the realism of divine-human communion, which is often understood in terms of the familiar Orthodox concept of theosis, or divinization. The Incarnation, according to Lossky and Zizioulas, is the event of a real divine-human communion that is made accessible to all; God has become human so that all may participate fully in the divine life. Aristotle Papanikolaou shows how an ontology of divine-human communion is at the center of both Lossky's and Zizioulas's theological projects. He also shows how, for both theologians, this core belief is used as a self-identifying marker against "Western" theologies. Papanikolaou maintains, however, that Lossky and Zizioulas hold profoundly different views on how to conceptualize God as the Trinity. Their key difference is over the use of apophaticism in theology in general and especially the relation of apophaticism to the doctrine of the Trinity. For Lossky, apophaticism is the central precondition for a trinitarian theology; for Zizioulas, apophaticism has a much more restricted role in theological discourse, and the God experienced in the eucharist is not the God beyond being but the immanent life of the trinitarian God. Papanikolaou provides readers with a richer understanding of contemporary Orthodox theology through his analysis of the consensus and debate between two leading Orthodox theologians.

Florenzia wrote Divine Revelation: Communion Mysteries Revealed after being enlightened by God about the benefits of the Communion meal. She has been a recipient of the benefits of healing and health, wealth and the wisdom which comes from taking Communion, and would like others to be enlightened as well.She has seen many healed from taking Communion and has realized that Jesus did procure healing for everyone who partakes of this meal. She has also discovered that Communion elevates you to another level, because in taking Communion, you are participating in what she describes in the book as Co-union.She encourages everyone interested in Communion to read this book, especially if you are afraid of taking it, like she once was.May all who read this book be enlightened, empowered, and walk into health and healing.

Excerpt from Divine Contemplation for All: Or the Simple Art of Communing With God The notion of Divine Contemplation is not less in need of being elucidated and brought back to its legitimate, traditional, Catholic meaning than was that of the Mystical Life. It has suffered just as much at the hands of modern writers, by a host of whom it has been misunderstood, distorted, narrowed down and all but made a bug-bear; whilst in its true self Divine Contemplation is the grandest, noblest, sweetest, easiest thing in the world; in some measure, and under some form or other, obligatory on all; and as necessary to the Christian at every stage of his spiritual life as is the act of breathing to the physical well-being of every animal, wherever situated in the scale of life, and at whatever stage of its development. In this new treatise I take Divine Contemplation in its widest meaning, as understood by St. Thomas in his Summa Theologica, Secunda Secundae, quaest. 179-182, and by St. Francis of Sales in his treatise on The Love of God, Book vi, ch. vi, last paragraph, where he says: "In order to attain to contemplation it is usually necessary to hear the divine word, hold spiritual conferences with others like the anchorites of old, read devout books, pray, meditate, sing devout canticles, and entertain good thoughts. Human Interaction with the Divine, the Sacred, and the Deceased

The desire for sexual intimacy reflects the divine image in which human beings are made. This deep yearning for communion resides in both the erotic urge for intimacy and the soul's longing for God. The erotic character of Christian faith and spiritual practice shapes nearly every chapter of Christian history as well as the biblical witness to God's passionate desire to be in communion with God's own creation. Yet few Christians read either the Bible or Christian history through that erotic lens.Before Christian communities try to address sexual ethics, the more fundamental theological question demands attention: What can sexual intimacy tell us about God? This book invites reflection on sexual relationships within a broad theological framework marked by creation, fall, and redemption. These classical hallmarks of Christian faith are proclaimed and enacted at every liturgical celebration of the Eucharist, which offers a compelling way to engage the link between sexual intimacy and the longing for God, or the hoped-for promise of “divine communion.”

This book contains the first complete English translation, fully annotated, of the treatise Concerning Frequent Communion, commonly attributed to Sts. Makarios of Corinth and Nikodemos the Hagiorite, the compilers of the Philokalia. This pivotal treatise, by two central figures in the Kollyvades movement, which originated on Mount Athos in the late eighteenth and early nineteenth centuries, addresses a somewhat less well-known corollary issue in Orthodox spirituality, that of frequent Communion. The authors discuss the controversy surrounding a decline in the frequency of Communion in the Christian East, the relationship of that controversy to the Kollyvades movement, and the theological arguments in support of frequent Communion advanced by Makarios and Nikodemos, whose joint authorship of the treatise they endeavor to substantiate.

Food, sex, and God – these intertwine at the heart of Christian faith and practice. This book invites Christian communities to reflect theologically and spiritually on the desire for God and the desire for sexual intimacy as the same fundamental desire for communion. This is likewise God's own desire to be in communion with us, which Christians celebrate whenever we share a simple meal of bread and wine at the Eucharistic table. The longing for intimacy and its disruptions echo throughout our political contestations, economic systems, racial and ethnic conflicts, and ecological crises. In no small measure, the vitality of Christian witness to the Gospel in the twenty-first century depends on exploring the depths of desire itself in the ancient hope for Divine Communion made new.

Human Interaction with the Divine, the Sacred, and the Deceased brings together cutting-edge empirical and theoretical contributions from scholars in fields including psychology, theology, ethics, neuroscience, medicine, and philosophy, to examine how and why humans engage in, or even seek spiritual experiences and connection with the immaterial world. In this richly interdisciplinary volume, Plante and Schwartz recognize human interaction with the divine and departed as a cross-cultural and historical universal that continues to concern diverse disciplines. Accounting for variances in belief and human perception and use, the book is divided into four major sections: personal experience; theological consideration; medical, technological, and scientific considerations; and psychological considerations with chapters addressing phenomena including prayer, reincarnation, sensed presence, and divine revelations. Featuring scholars specializing in theology, psychology, medicine, neuroscience, and ethics, this book provides a thoughtful, compelling, evidence-based, and contemporary approach to gain a grounded perspective on current understandings of human interaction with the divine, the sacred, and the deceased. Of interest to believers, questioners, and unbelievers alike, this volume will be key reading for researchers, scholars, and academics engaged in the fields of religion and psychology, social psychology, behavioral neuroscience, and health psychology. Readers with a broader interest in spiritualism, religious and non-religious movements will also find the text of

The Trinity is supposed to be the central, foundational doctrine of our entire Christian belief system, yet we're often told that we shouldn't attempt to understand it because it is a 'mystery'. Should we presume to try to breach this mystery? If we could, how would it transform our relationship with God and renew our lives? The word Trinity that early Christian father Tertullian coined it—but the idea of Father, Son, and Holy Spirit was present in Jesus' life and teachings and from the very beginning of the Christian experience. In the pages of this book, internationally recognized teacher Richard Rohr circles around this most paradoxical idea as he explores the nature of God—circling to apprehend. Early Christians who came to be known as the 'Desert Mothers and Fathers' applied the Greek verb perichoresis to the mystery of the Trinity. The best translation of this odd-sounding word is dancing. Our word choreography comes from the same root. Although these early Christians gave us some highly conceptualized things

again, was, Whatever is going on in God is a flow—it's like a dance. But God is not a dancer—He is the dance itself. That idea might sound novel, but it is about as traditional as you can get. God is the dance itself, and He invites you to be a part of that dance. Are you ready to join in?

"A wondrous, sparkling fusion of wisdom and insight." - Patricia Santhuff What do the wonderful myths of ancient Greece, the beautiful stories in the Bible and Qur'an, and all the sacred stories from traditions around the world, have in common?
