guide to cross-national comparison and why it matters. The new edition retains a focus on the enduring questions with which scholars grapple, the issues about which consensus has started to emerge, and the tools comparativists use to get at the complex problems in the field. Among other things, the updates to this edition include a thoroughly-revised chapter on dictatorships that incorporates a discussion of the two fundamental problems of authoritarian rule: authoritarian power-sharing and authoritarian control; a revised chapter on culture and democracy that includes a more extensive examination of cultural modernization theory and a new overview of survey methods for addressing sensitive topics; a new section on issues related to electoral integrity; an expanded assessment of

different forms of representation; and a new intuitive take on statistical analyses that provides a clearer explanation of how to interpret regression results. Examples from the gender and politics literature have been incorporated into various chapters, the Problems sections at the end of each chapter have been expanded, and the empirical examples and data on various types of institutions have been updated. Online videos and tutorials are available to address some of the more methodological components discussed in the book. The authors have thoughtfully streamlined chapters to better focus attention on key topics. Over the past 20 years change in China has been breathtaking. Reform has affected every facet of life and has left no policy and institution untouched.

Starting from the principal-agent perspective, this book offers a new analysis of government. It interprets political institutions as devices designed to solve the omnipresent principal-agent game in politics. In other words how to select, instruct, monitor and evaluate political agents or elites so that they deliver in accordance with the needs and preferences of their principal: the population. This book explores whether there are any evolutionary mechanisms in politics which guide mankind towards the rule of law regime,

domestically and globally. It combines a cross-sectional approach with a longitudinal one. Comparing the extent of the rule of law among states, using a set of data from 150 countries concerning political and social variables, the author seeks to understand why there is such a marked difference among states. Taking a state-centred perspective and looking at countries with a population larger than one million people during the post Second World War period, the book examines: The stability and performance of states The conditions for the rule of law regime: economic, social, cultural and institutional ones The evolution of governments towards rule of law Comparative
