Dare to Repair

Life is full of tough calls and daunting decisions. The question isn't if you'll face a big decision in the future, but how you'll face the tough call that's guaranteed to come your way. Think about it. There are wedding proposals to ponder, college applications to submit, career moves to make, homes to sell, and confrontations to consider. And, knowing how poorly things could go, we sometimes find ourselves facing these decisions with a deep fear of future regret. The pressure is on. Or is it? Short and straightforward, yet full of practical insight and spiritual truths, Tough Call, will help you see that the Christian faith offers a mindset to confidently and joyfully make your next big decision. More importantly you'll see that you can face life with your fears recognized, your peace maximized, and your hope anchored in something greater than your ability to "get it right." Readers familiar with authors like Acuff, Chan, and Tchividjian will resonate with Matt Popovits's witty, practical, and gospel-centered take on complicated topics. Tough Call is an enjoyable and essential read for any and all facing a major decision.

This international bestseller is the most comprehensive and authoritative DIY manual ever produced. This new edition has been updated with information on all the latest changes in products, techniques and regulations developed since the last edition (published in 2004). Catering to novices, DIY enthusiasts or professionals, this essential book continues to be the most in-depth, up-to-date and user-friendly DIY book on the market, covering everything from decorating and repairs to electricity, plumbing and much more.

Have you ever wondered: What it's like to daily be hundreds of thousands of dollars working for some of the largest professional gamblers in Las Vegas? ... How to spend a summer house sitting one of the biggest stars in the world's 11,000 square-foot mansion - without an invitation from it's celebrity owner ... Whether the life of crime - specifically, running a shoplifting ring in a middle American mall - pays? ... What causes a son to finally say enough is enough ... and decide "Today is the day I am going to kill my dad." Comedian Brandt Tobler has the answers in this funny, touching and sometimes downright unbelievable memoir of a small town Wyoming-kid turned "mall-fia" don, turned nationally touring comic. Brand tells his life story with candor, detailing the many pit stops, wrong turns, crazy connections and lucky breaks he experienced along the way to his comedy career, all while trying to balance a toxic relationship with his unreliable jailbird dad. In these pages Brandt will make you laugh (he better - it's his job!) and believe as he does that, when it comes to defining family, blood isn't always thicker than water. -- back cover.

Managerial styles are influenced by habit, familiarity, and workplace culture. It's no wonder that well-intentioned professionals doing their best to be good organizational leaders often repeat unhelpful supervisory practices experienced in their early careers, even if they disliked them at the time. In the DUH! Book of Management and Supervision, the author disagrees with many accepted leadership principles (unabashedly referring to them as myths) and makes new and different approaches easier to imagine. Her challenging and controversial concepts illustrated with poignant stories suggest common-sense and immediately applicable alternatives more suitable in today's workplace.

My aim in this book is to give essential advice on all the main aspects of freshwater garden fish ponds. I have tried to include some of the science of ponds while keeping the information easy to understand. Each chapter begins with an outline of the main points of the topic. Each point is then expanded on. My experience with ponds has mainly been in the warm temperate climate in Perth, Western Australia. The principles for fish ponds are similar worldwide but warm temperate climates like that of Perth intensify some of the problems in ponds. This book will therefore be particularly useful to pond owners in sunny climates. The book begins with pond design, starting with the position of the pond in the garden. I discuss the consequences of different pond sizes and depths, and of natural and artificial ponds. I talk about the advantages of a dual pond system. I give guidelines for these and for self-cleaning ponds. I also say why I recommend designing the pond with a sump, overflow, leaf skimmer, and automatic top-up valve. Lastly, I give my colour preference for the pond bottom and sides. Next, I advise on pond construction. Ponds can be built with concrete, bricks, rigid polyethylene, fibreglass or liners. I write about my experiences with ponds made from each of these materials and also my preferences for pipework materials. In the following chapter, I recommend various pumps, filters (including ultraviolet clarifiers), water features, underwater lights and copper ionizers. Choosing the right equipment will give you the right effect for the lowest cost and for the least effort. The chapter on fish gives information on types of fish, especially goldfish and koi. I advise on when a new pond is ready for fish and on the number of fish a pond can support. I give information on the handling, transporting, and feeding of fish, and on diseases and predators. The next chapter delivers general information on water plants, why you should have them and their role in the ecology of the pond. Plants provide shade, oxygen, food, habitat and cover from predators. They filter toxins and excessive nutrients from the water. I give advice on keeping plants, including information on fertilizer and pests. Finally, I give recommendations for pond maintenance including a routine. My advice is directed at pumps, filters, pond cleanliness, exchanging water and maintaining the pH and hardness. The maintenance is largely directed at algae control. I discuss the various forms of nuisance algae and control methods for microalgae, blanket weed, and slime algae. Other advice includes information on water testing and water treatments. Maintaining good water quality is fundamental to the success of any fish pond. "Good" water quality means the water's suitability for its proposed purpose. Water quality is affected by every aspect of a pond, from its design and construction to its pumps, filters and maintenance. Each chapter of this book tells how each aspect of the pond affects the water. Every fish pond is different. The solutions to one pond's problems may be very different to another pond's.

The expanded and revised edition of this reference on traditional wiring includes all the tried-and-true projects from earlier editions that are updated to feature the latest fixtures.

This is NOT your father's home repair book! And it's not your husband's, your brother's, your boyfriend's, or the guy's next door. Dare to Repair is a do-it-herself book for every woman who would rather be self-reliant than rely on a super or contractor. No matter the depth of your pockets or the size of your home, a toilet will get clogged, a circuit breaker will trip, and a smoke detector will stop working. It's up to you to how you'll deal with them -- live in denial, pay the piper, or get real and do it yourself. Dare to Repair demystifies these home repairs by providing information that other books leave out. In Dare to Repair, you'll learn how to: Take the plunge -- from fixing a leaky faucet to cleaning the gutters. Lighten up -- from removing a broken light bulb to installing a dimmer switch. Keep your cool -- from maintaining a refrigerator's gasket to changing the rotation of a ceiling fan. Get a handle on it -- from replacing a doorknob to repairing a broken window. Play it safe -- from planning a fire escape route to installing a smoke detector. Filled with detailed illustrations, Dare to Repair provides even the most repair-challenged woman with the ability to successfully fix things around the home. Once you start, you won't want to stop.

Married . . . with Children premiered on Fox TV in 1987 and updated the Don Ameche and Frances Langford radio comedy series, The Bickersons, and Jackie Gleason's TV classic, The Honeymooners, with a raunchy, cutting-edge slant that focused on a lovable yet laughable family headed by endearingly flawed Al (Ed O'Neill), his housework-hating wife, sexy daughter, and randy son. For 11 seasons, the brilliant team of talent put the funk in dysfunctional. Rediscover the exhilarating humor and intellectual excitement in Denise Noe's first book. She delves behind-the-scenes with Michael Moyer, Ron Leavitt, Ed O'Neill, Katey Sagal, Christina Applegate, David Faustino, David Garrison, Amanda Bearse, E. E. Bell, and Ritch Shydner. You'll be fascinated by the story of how two rogue writers created a deliberately off-the-wall program; how it almost got derailed before production began; how a controversy could have plagued the series off the air but ended up injecting a much needed shot in the arm; how a reality-based show occasionally—and courageously—ventured into comedy with a fantasy, horror, and/or science fiction spin. WHEN IT COMES TO LOVE, SOMETIMES IT TAKES THE HEAD YEARS TO DISCOVER WHAT THE HEART HAS ALWAYS KNOWN When Forbes Branson was a young man ready for something new. A senior in high school, he was the golden boy. Heir to a fortune, he knew what his life was going to be. But he wanted adventure first. A year to do what he wanted, where he wanted before college. An unexpected betrayal would change everything. Sophie Lipton was fifteen the first time she set foot on the Branson ranch. Dragged from one place to another, never having more than one pair of shoes or enough to eat, the moment she saw the wide open spaces, she felt she could breathe for the first time in her life. It was the home she always dreamed of. But her happiness came at a price. To stay in her new home, Sophie had to keep somebody else's lies. Lies that would eventually tear apart a family. And tear apart her friendship with Forbes. Coming home is never easy-especially after twelve years. Forbes isn't the same young man. He found his adventure-and more. Weary, he's ready to settle into a slower, calmer life. Working on his family's ranch and taking the job as Chief of Police sounds like a piece of cake after the things he had seen and done. Sophie isn't the quiet girl Forbes remembers. She's grown into a strong, confident woman. A woman used to being in charge. The Branson ranch is her territory now. If Forbes thinks he's going to waltz back in and take over, he's going to find out fast that Sophie is no pushover. Twelve years ago, they shared one goodbye kiss. More sweet than passionate. Now, as adults it's a whole new game. The attraction between them is undeniable. Just as they begin to move forward, the past has other ideas. Secrets rarely stay buried forever. Lies. Betrayal. Maybe even murder. Before Forbes and Sophie can think about the future, they will need to deal with the past. Together.

Attacked and injected with a drug which slows his metabolism to a fraction of normal, Martin James becomes an unwilling time traveler who hurtles through the years. His children grow up, his wife grows older, and his only hope is finding the people who injected him in the first place- not an easy task when one day for Martin lasts four years. And while Martin James strives to find a cure before everyone he loves is gone, others are uncertain if his journey can be stopped at all. W. Lawrence weaves a dystopian future filled with the best and worst of humanity, highlights the blessings and curses of technology, and pushes the limits of faith and hopelessness. Above all, Syncing Forward is a tale of one man's love for his family, and their devotion to saving him from being lost forever.

Choose a colored pencil, pen, or marker and start coloring the kaleidoscope patterns of these unique ice crystal snowflakes! These 25 original designs are detailed and somewhat complex, drawn with fine lines, and each has its own unique look and feel. These aren't your common white snowflakes - they want COLOR! Each design was hand-drawn with a stylus and a drawing tablet, and was inspired by creative impulses and a love of snowflakes and winter. Some designs are large, single snowflakes, others are patterns or interesting groupings, and they are all printed one-sided. Coloring is fun no matter what your age. It's also a wonderful way to relax and release stress. You can color these snowflakes anytime - over the winter holidays, or in the middle of summer when the weather is too hot!

The Instant-Series Presents "Instant Genius" How to Think Like a Genius to Be One Instantly! When you hear the word "genius" - what immediately pops into your mind? Perhaps, people like Albert Einstein, Isaac Newton, Leonardo da Vinci, and Thomas Edison just to name a few. What did all these folks have? What was the common factor that made them a genius? And is possible for you to also be like them? Now what is a genius? Geniuses are, first and foremost, extraordinary individuals... They are always somewhat ahead of their time, and their contributions to the world have shaped society into what we know it as of today with all the remarkable fleets of advanced achievements unheard of in the past - just look at how far we have come with modern medicine, science, technologies, etc. And geniuses have helped mankind evolved into more intelligent beings - pushing us to all strive for even greater possibilities. So how to become a genius? The widely-accepted notion is...you're either born with a genius IQ or not; however, being a genius has less to do with your level of intelligence. Everybody has their own form of genius. The key is how to unlock that inner genius of yours. Within "Instant Genius": * How to easily create a custom "genius trigger button" step-by-step, so you can activate it to turn on your full-intellectual mental capacity at will, at anywhere, and at anytime. * How to channel your inner genius through the power of your subconscious mind, by doing the "subconscious self-session" technique to open doors to new ways of thinking. * How to use personalized "visual mental imprints" as your sources of inspirations and motivations to spark your creative genius to generate unlimited innovative ideas. * How to develop genius reflexes to handle any complex problem and come up with ingenious solution to have people look up to you, always wanting to hear what you have to say. * How to optimize your mind to work in relentless genius mode with full concentration and inexhaustible energy where obstacles no longer exist, through an in-depth "4-stages process" you can implement whenever you want. * Plus, custom practical "how-to" strategies, techniques, applications and exercises on how to think like a genius. ...and much more. All of us has the potential to be our own geniuses. You just only need to be guided on how to unleash that genius brain power within you - to finally realize what you're truly capable of. You will be amazed and even surprised yourself.

Top to bottom, inside and out, this is the single, ultimate resource book for home projects and repairs. New edition includes current code updates and changes, as well as information on USB outlets, AFCI/GFCI breakers, and tankless water heaters.

When you step back and look at your life, do you see an ever-widening gulf between where you are and where you want to be? Do you feel stuck? Do you feel like your dreams are slowly slipping away? No matter where you are on your path, Designing Your Life Plan will jolt you out of the routines and ruts of your day to day, spurring you on to set a clear plan for your future-one that will take you places you never thought you could go. Luz Canino-Baker, your encouraging but firm guide on this journey, shows you how to build and carry out a Life Plan, offering pieces of her own history and the stories of others along the way. Each chapter ends with a practical workbook-style exercise designed to take you tangible steps closer to your goals. Forged during Canino-Baker's years as an executive and life coach, the lessons and exercises in this book will energize you, excite you, and set you on the path to the bright future you may have feared could never be realized.
