Part historical essay, part scientific article, and part enthralling diary-Roald Amundsen's (1872-1928) book presents intriguing documentation about how his expedition reached the South Pole on December 14, 1911, just one month ahead of his rival, Robert Scott. Amundsen organized his gripping account using what is referred to in the film industry as the zooming technique. It starts in the past, examining the history of Antarctic exploration in different eras, and then moves ahead to describe how his own expedition was created, its organization, the slow stages involved in preparing for departure and, finally, the heart-stopping excitement of the race to the South Pole. Supplementing the vivid first-person text are black-and-white archival photographs illustrating the actual expedition, and color photographs depicting the landscape of Antarctica.

"The Narrative of Arthur Gordon Pym of Nantucket" is the only complete novel written by American writer Edgar Allan Poe. The story was inspired by a newspaper account of the shipwreck and subsequent rescue of the two men on board. Poe developed the story into a tale of the young Arthur Gordon Pym, who stows away aboard a whaling ship called the Grampus. Yet, it's not the mere adventures that make this book a literary masterpiece. Poe imbued his tale with allegorical richness, biblical imagery, and psychological insights. This novel has influenced numerous writers, including Melville, James, Verne, and Nabokov. When James Cracknell and Ben Fogle decided to compete in the Atlantic Rowing Race, they thought they knew what awaited them: nearly three thousand miles of empty ocean, stormy weather and colossal physical stress. But their epic journey would become a living hell that tested the strength of every fibre of their being. Forty nine days later James and Ben were the first pair to cross the finishing line. They had pushed themselves physically, psychologically and emotionally to the limit. They had survived without water rations, lost the few clothes they had in a freak wave, capsized, hallucinated, played games, wept, fought, grown beards, nursed blisters and rowed 2,930 miles. They will never be the same

Born on the eve of China's Cultural Revolution, Ping Fu was separated from her family at the age of eight. She grew up fighting hunger and humiliation and shielding her younger sister from the teenagers in Mao's Red Guard. At twenty-five, she found her way to the United States; her only resources were \$80 and a few phrases of English. Yet Ping persevered, and the hard-won lessons of her childhood guided her to success in her new homeland. Aided by her well-honed survival instincts, a few good friends, and the kindness of strangers, she grew into someone she never thought she'd be—a strong, independent, entrepreneurial leader. "She tells her story with intelligence, verve and a candor that is often heart-rending." —The Wall Street Journal "This well-written tale of courage, compassion, and undaunted curiosity reveals the life of a genuine hero." —Booklist (starred review) "Her success at the American Dream is a real triumph." —The New York Post

Adventure, shipwreck, storms and survival on the high seas. ENDURANCE is the story of one of the most astonishing feats of exploration and human courage ever recorded. In 1914 Sir Ernest Shackleton and a crew of 27 men set sail for the South Atlantic on board a ship called the Endurance. The object of the expedition was to cross the Antarctic overland. In October 1915, still half a continent away from their intended base, the ship was trapped, then crushed in ice. For five months Shackleton and his men,

drifting on ice packs, were castaways on one of the most savage regions of the world. This utterly gripping book, based on first-hand accounts of crew members and interviews with survivors, describes how the men survived, how they lived together in camps on the ice for 17 months until they reached land, how they were attacked by sea leopards, the diseases which they developed, and the indefatigability of the men and their lasting civility towards one another in the most adverse conditions conceivable.

determined turtle sets out to prove him wrong. After recruiting other non-Antarctic animals along the way—much to the narrator's dismay—the turtle and his adventurous friends travel through fields, forests, and cross an entire ocean to reach their goal. But what exactly do they do once they get there? Perfect for anyone who's ever gone a little too far to prove a point, this nature-documentary-gone-wrong is a gleefully funny lesson in determination and the beauty of having a contingency plan
